

Activity Report

“An Orientation Program on Repair & Retrofitting Manual and Hybrid Structure Manual”

[28 December 2017]

Activity Date:	28 December 2017
Report Prepared By:	Aarju Basnet & Manisha Rai
Facilitator	Laxmi Prasad Bhatta (National Technical Coordination Officer) - HRRP Aarju Basnet (District Technical Coordinator)- HRRP

Discussion:

Welcome and Introduction

- Aarju Basnet, District Technical Coordinator of Sindhupalchok, welcomed all the participants in the Orientation of Repair & Retrofitting Manual & Hybrid Structure Manual. The orientation was mainly focused for technical staffs of Partner Organizations. The orientation schedule and course content of the session was presented.

Repair & Retrofitting Manual for Masonry and RCC Structure (Aarju Basnet) - HRRP

- This presentation was focused on introduction of Retrofitting, Background, Objective of Manual, Scope of Manual, Technical Specification, its construction processes, guidelines, possible causes of failure, General Terminology, Retrofitting Process for Masonry & RCC Structure, Seismic damage & Intervention.

Hybrid Structure Manual (Laxmi Prasad Bhatta) - HRRP

- This presentation was focused on introduction of Hybrid Structure, Background, Technical Specification, its construction processes, guidelines, possible causes of failure, Structural Calculation & Design.

Retrofitting Plan of Build Change (Laxmi Prasad Bhatta) – HRRP

- This presentation was focused on Concept of Seismic Retrofit, Retrofit Type design approved by MOUD/CLPIU for SMM, Retrofit Design Principle, Retrofitting Process, and Spring Board Project.

Closing Remarks (Roshan Kumar Kesari) - M/E Specialist, CLPIU

- Mr. Roshan Kesari, M&E Expert of CLPIU requested all the participants to inform the challenges on reconstruction in their working VDCs. All the participants were thanked for their active participation and constructive discussions throughout the orientation.

Questions Collected	Who asked the Q?	Response Provided
How can we do concreting of the lower part of slabs after retrofitting?		There are different techniques such as shotcrete and other equipment which can be used.

Questions Collected	Who asked the Q?	Response Provided
Does the manual on hybrid structure cover a single storeyed house with light-weight materials in attic?		Hybrid structure manual covers houses which use different building materials in different floors, so a minimum of 2 storey is required.
Have DLPIU engineers received trainings on these manuals?		The newly recruited engineers have received the trainings and others are yet to be trained.
Where can we find the retrofitted houses in Sindhupalchok? Have beneficiaries started to retrofit?		Build Change/ARSOW-N has retrofitted some houses in Sangachowk as targeted 35 houses in Sangachok VDC. The retrofitting forms haven't been provided to engineers yet, and it will soon be started.
