News & Updates

- 1) HRRP Dhading took part in DFID meeting held at Miracle hotel, Gorkha where different pos present their annual progress accordingly.

a) Participants in the Meeting organized by DFID conducted in Gorkha district.

- 2) TI Dhading successfully organize a program on "Policy, progress and expenses of stakeholders with Transparency on reconstruction after earthquake" on 13th April 2019 at DCC Hall, Dhading.

a) Participants in the Meeting organized by TI Nepal conducted in Dhading district.

3) Training to Local Authorities and Social Activists on DRR, BCI and Retrofit held in Dhading.

- NSET Baliyo Ghar Manager Mr. Ranjand Dhungel during training on DRR
- Participants in the training organized by NSET conducted in Dhading district.

One-day training on Disaster Risk Reduction/Management (DRR), Building Code Implementation (BCI) and Retrofit for the local authorities including social activists has been held in Dhading under Baliyo Ghar Program. 50 more participants discussed the roles of local authority and social activists in reducing the risk of multiple disasters and in implementing retrofit. Representatives of Siddhalekh Rural Municipality, Galchi Rural Municipality and Nilkantha Municipality, leaders of opposition parties and social activists including local teachers actively participated the sessions.

As part of the training, the participants were acquainted with the process of building permit system through simulation. Many of the municipalities in Nepal are following building permit system and implementing building code which now is mandatory for the rural municipalities as well. So to enhance the understanding level and capacitate in setting the BCI structure (Policy/system, manpower, resources, technical assistance) in rural municipalities, the demo building permit system exercise was conducted. Baliyo Ghar staffs took part in the simulation.

- Participants observing Retrofitting materials Splint and Bandages during training.

Moreover, to make them more confident in implementing Retrofit particularly in stone masonry houses, onsite visit was arranged in one of the retrofit sites in Kalleri, ward-02 of Galchi Rural Municipality. Baliyo Ghar program is implementing retrofit OJT in the house of Mr. Bed Prasad Simkhada, one of the earthquakes affected beneficiaries in Kalleri. Witnessing the on-field applied retrofit technology, the participants were seen quite motivated to implement retrofit in such partial damaged-stone masonry houses in their localities.

Mr. Krishna Prasad Timilsena, local teacher and advisor to Chief of Siddhalekh Rural Municipality expressed, "We are in fact excited by the training, basically the retrofit-on-site visit has motivated us to implement retrofit in our localities. Also, the simulation for building code implementation have candelled us to understand about the building permit system. Really it touched the participants. It was a great opportunity to learn, obviously we will impart the knowledge in our rural municipality."

Mrs. Radha Timilsena, Deputy Chief of Galchi Rural Municipality shared, "In the local level our efforts for disaster risk reduction and management have just begun, through the training definitely we have got the concrete ideas for DRR and prioritize our actions."

The training was conducted on April 12, 2019 in Ghatbesi Dhading. It is the first of the 2nd series of training to local authorities with revised curricula. Baliyo Ghar Program plans to implement 5 more such trainings in Dolakha, Nuwakot and Dhading. Earlier in Year 3 of program implementation, 6 trainings to local authorities on **Sustainable Reconstruction and Disaster Risk Reduction** were conducted in program areas.

4) Updates from Partner Organizations

1) According to GMALI Dhading

Total number of Beneficiaries	=	83,024

Housing Typology Report

Name: - Dev Bahadur Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (23' x 25'). The beneficiary has received all tranche of government grants.

Name: - Chitra Bahadur Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (33' x 14'). The beneficiary has received all tranche of government grants.

Name: - Gunja Bahadur Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (23' x 25'). The beneficiary has received all tranche of government grants.

Name: - Khol Bahadur Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (23' x 25'). The beneficiary has received all tranche of government grants.

Name: - Nir Bahadur Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (23' x 25'). The beneficiary has received all tranche of government grants.

Name: - Seti Maya Magar
Location: - Gauthale-04, Siddhalekh Rural Municipality

It is one storey RCC structure with flexible roof with material used hollow concrete block with cement mortar, its floor area is less than 1000 sqft having strength of block as 6.9 N/MM2 and building size is (23' x 25'). The beneficiary has received all tranche of government grants.

Case Story

Name : Santa Bahadur Gurung
Age : 42 years

Santa Bahadur Gurnug is an enthusiastic man and a resident of Netrawati 5 Katunje is one of the beneficiaries of Pourakhi Nepal/Repair and Reconstruction project Dhading. He has a family of 2 sons. His financial condition is too weak.

The major source of his livelihood is agriculture and foreign labor. Through the project, he got the training of masonry. As soon as the masonry training was completed, he was offered a job in house construction work.

Currently he is working as a reconstruction work in katunje. He expressed his happiness saying that the training was very beneficial to him. He learnt many things during the project time which helped him to adopt those learnings in his work.

He is now aware about his rights and now he knows where and how to sustain his life. He further wished to take advance training course on masonry.

Supported by: Paurakhi Nepal
