Working in Cluster Approach

Location:- HRRP Meeting Hall

Trainer

Date:- 2016/12/15

Cluster Approach

- **Aarma Parma**
- **Community people working together for their common Benefit/Goal**

Common practice for Aarma Parma In Nepal:-

- Agricultural works
- Reconstruction (mud slab)

Necessary?

- Complete reconstruction process in stipulated time frame
- Manage their cost-cost saving of unskilled mason
- Develop sufficient mason for reconstruction (labour-semi skilled-skilled mason)
- Ownership feeling
- Creating community harmony
- Support for vulnerable people through community members themselves
- Transfer of Knowledge (One-One)
- Positive Competition between clusters
- Empowerment among community members

Formation

- 7-10 HHs from their locality
- Each HHs members to join on cluster
- Support In demolition of their cluster house
- Orient them on social harmony and benefits of working in cluster

Formation of Clusters

Support them

- **Provide them safety PPE and toolkits**
- **Orient them in proper demolition**
- **Supervise their works**
- **Provide Guidance in Starting their Reconstruction Works**
- **Train and coach them to become a skilled manpower**

Cluster member in Demolition

Cluster member In Reconstruction

Cluster member In reconstruction

Cluster member in reconstruction (added masons for specific job)

Advantage (Financial)

Converting Labour Charge in Money

Almost 25000 Per HHs in Demolition

Reconstruction:-

More Than 70000 Saving on Unskilled Manpower

Progress Till date:- (Third Week of September- Till Date)

49 HHs Demolished

40 Houses started for reconstruction

2 House totally completed

10 HHs waiting for Second Instalment

Result
