

Gorkha HRRP Coordination Meeting

Date: 24 March 2016

Time: 3:00 PM

Location: HRRP Office, Hotel Gorkha Inn

Chairperson: Shyam Kishor Singh (Head of DUDBC Gorkha)

District Coordinator/ Facilitator- Minar Thapa Magar

Participants: American Red Cross, Nepal Youth Foundation, NCRS Gorkha, Belgian-German RC, JICA, University of Stavanger, UN Women, IOM, UVN, Handicap International, People In Need, DUDBC, DCA, ECO-Nepal

Agendas

1. Introduction
2. DUDBC Updates
3. HRRP Updates
4. Enrolment and T-shelter Update
5. Handicap International Presentation : 'Accessibility Inclusion and Reconstruction' (10-15 mins)
6. AOB

1. Introduction

HRRP Coordination meeting was held under the chairmanship of DUDBC Gorkha Division Chief Shyam Kishor Singh. The meeting was facilitated by HRRP District coordinator Minar Thapa Magar. Representatives from 14 POs attended the meeting. The meeting focused on various issues related to reconstruction and ways to resolve it. Team from Handicap Nepal presented their presentation about importance of inclusion of design suitable for disabled people during reconstruction.

2. DUDBC Updates (By Shyam Kishor Singh)

- He informed that the 17 designs for the reconstruction are in the process of dissemination in every VDC through booklets and Flex. VDC secretary shall introduce and distribute that design among the community.
- DLPIU and NRA is not yet established in Gorkha due to lack of sufficient manpower but will be established soon. DLPIU's main responsibility will be coordinating with different stake holders. DUDBC has a target of hiring 1300 engineer and 575 sub engineers for the process of reconstruction. The hiring process is still ongoing and might take some time to complete.

- He also requested POs to provide technical support, social mobilization and printing of reconstruction tools (eg. 10 key messages, 17 designs).
- He informed that DUDBC had initially operated 5 days training of mason training curriculum. But from recommendation of different stake holders, the training curriculum was extended to 7 for two different context (Rural and Urban) and POs need to give training curriculum based on context(i.e. Rural training curriculum for rural areas and Urban in urban context). He also clarified that curriculum of TOT for engineers is same and unchanged. days. He notified that now organizations have to get approval for 7 days training. Approval for Mason training can be taken from DUDBC whereas for other activities, DDC's approval is required.
- He emphasized on preparedness of three critical aspects
 - Mason Trainings
 - Technical Assistance
 - Resources
- He also requested organizations to be flexible and to be prepared to work in any VDC.
- The clear policy of NRA is not clear yet. So, He has requested organization to be updated about the news, notices and decisions of NRA.
- He also made clear to POs that any design other than the 17 design drafted by DUDBC can receive subsidy if that design is based on NBC and if that the building follows all the earthquake resilient technique standard set by DUDBC.

3. HRRP Updates

- By April 3rd, enrolment will have started in all 14-affected Districts via one central enrolment center (per District).Support to these center is the 1st priority for the NRA with mason trainings as the 2nd priority. By April 25th, eligibility lists across all 14 Districts finalized at which point enrolment centers will go live.
- Ongoing discussion in the ministry about allowing NGO's to provide direct cash grant. Meanwhile, NRA requests organization for their assistance in various aspects. POs can send the express of interest or the name of the supporting staff to HRRP. POs can provide assistance in following points
 - Logistics support to establish enrolment sites and manage enrolment days
 - Communications around eligibility, banking mechanism, enrolment day expectations (docs to carry with)
 - Grievance mechanics
 - Supporting financial management (i.e., bank account set-up, communicating which banks are participating, docs required to open up the account)
 - Training of Engineers
 - Training of Masons
 - Social mobilization
 - Establishing construction materials supply chain

4. Enrollment and T-shelter Update

- HRRP presented about POs commitment in Gorkha District and requested to POs to think about commitment in Gap VDCs and also HRRP will request other POs involved in various sectors(i.e. Education, Health, livelihood, WASH etc.) to provide support during enrollment process.
- HRRP informed POs about the damages recent storm has caused in T-shelters in various parts of Gorkha including Laprak, Barpak, Kerauja, Thumi, Kashigaun, Gumda and Uhiya. Hence it is very important to support HH with t-shelters. HRRP requested POs to provide support for T-shelter in those places and gather as much as information from those places in order to provide support for maximum number of households.

5. AOB

- Allowance Uniformity /Mason Training/Women participation
 - NYF – We’ve been training masons providing them no training allowances besides lunch, but we provide wages for demonstration construction. We were informed that other organization are giving away training allowances to participants, is it necessary? If it is, there should be uniformity in distribution of allowance.
 - IOM-We have to sensitize the masons that they can earn more if they are trained and certified and convince them that training can give them lifelong education about construction.
 - UNWOMEN- We talk about inclusion but isn’t practiced well during reconstruction. We should include women in reconstruction as well. Women do much laborious work during construction. They can be taught mason skills as well. Can we arrange a different training for women? Why are we training masons who were previously masons? Reconstruction may take long time to initiate in Gorkha, so we can prepare new skilled masons as well. Women are ignorant about the trainings and the fact that even they are eligible participates in it. They should be informed about the trainings and encourage them to participate in training.
 - HRRP, Gorkha also suggested POs planning and implementing vocational training and unskilled training should be design with 30-50 percent participation of women and encourage maximum women participation, so that gender inclusion is initiated from this level of reconstruction and recovery process. HRRP, Gorkha also requested partner to provide their input in Cooperation and Collaboration approach (Concert approach) drafted by Gorkha’s POs and HRRP regarding uniformity and inclusion.
 - Handicap International presented about Accessibility and Inclusion in Reconstruction Process and also promised to advocate accessibility and inclusion requirements in new sets of NRA/DUDBC designs.
 - Handicap International also declared that they are going to conduct 3 days of TOT in Gorkha with CRS and will invite other POs to participate through HRRP.

Next Meeting

The next Gorkha HRRP Coordination meeting will be held on _____ from _____ in _____ HRRP Office, Hotel Gorkha Inn _____. Led by Minar Thapa Magar _____, can be contacted by Swopnil Maskey .
