Activity Summary

Meeting with DFO- Dolakha:

Meeting with DFO was conducted to know the about the timber demand for reconstruction and how DFO is providing timber for reconstruction of permanent shelter. During the meeting deputy DFO told that most of the people are using their own forest to meet the timber demand for reconstruction, rest who don't have private forest have to bring from timber saw mill where timber mostly comes from private and community forest. He further told that delivery of timber outside the district is totally in control by formulating the decision. Because after earthquake realizing the demand of timber for reconstruction DFO decided to control timber supply to outside the district from community forest. Furthermore he provided the quantity of wood from private forest that supplied outside the district was 3 lakh cu.ft in last fiscal year. He further said that there no problem in timber demand supply.

Challenges and Way Forward

Challenge	Way Forward
The houses which are constructed in Bhimeshwor Municipality covers MRT but not building bylaws so there is a huge need of orientation in building bylaws.	NRA/Dolakha requested to orient, if such challenges are in the field to NSET. If any supported needed from NRA/Dolakha will help to solve such challenges.
DLPIU engineer working in Bhimeshwor municipality told that he doesn't know the standards, guidelines and MRT of reconstruction so, he requested for training, this was seen only in the engineers who are deployed from waiting list and not got training.	NRA/Dolakha and DLPIU/DUDBC will plan training for such engineers who are deployed without training in the field.

Challenges and Way Forward

Challenge	Way Forward
A participant from RRN told that when he visited field people frequently share grievance regarding payment process slow.	NRA chief of Dolakha told not to get worried because there are lots of things which should be correct to get payment quick so, if documents are correct then there is no problem if there are mistakes then payment process get late.
