NEWS & UPDATES

1. Since the roads connecting to outside districts are in bad conditions, it's difficult to import construction material like steel, cement and bricks. Moreover, due to high discharge in the rivers, it is impossible to extract and collect sand and stones which are necessary ingredients of construction. Therefore, the pace of ongoing reconstruction has decreased in this month.

2. CDO, Mr. Yagya Raj Bohara, informed that those people who were affected severely during the Maoist insurgency are getting compensation as promised by government couple of years earlier. This compensation will help many families make their life a little better.
