Housing Typology Report

Caption : The house belongs to Mr. Sarada Devi Acharya. She has received the third tranche of GoN housing grant. The house is a two rooms BMC structure (red colour) with truss above and light flexible CGI sheet roof. This house and the side house is of two beneficiaries, but after receiving the third tranche they laid a single truss and CGI sheet roof respectively making the house a single structure. The attached house with no colour belongs to Mr. Dunanath Acharya. This house is a one room BMC structure. The ground floor was constructed separately but while laying the top floor truss it was laid monolithically making the structure single house.

Caption : The house belongs to Mr. Aitaram Damai. The housing tranche, technical support and documentation support is done by Lumanti support group for Shelter. The house is a two room RCC structure. According to the house owner the total cost of construction was Nrs 11 lakhs and the grant was not sufficient for the construction so a loan of Rs 5 lakhs was taken by the house owner from Sahakari bikash.

The house belongs to Mr. RamPrasad Dhakal. The housing tranche, technical support and documentation support is done by Lumanti support group for Shelter. The construction of the house is completed. The house is a one-storeyed, two rooms RCC structure. An additional support of Rs 15 thousand for toilet construction and one day mason wage of 4 masons i.e Rs 4000 was given as an additional support to the house owners.

The house belongs to Mr. Ram Krishna Dhakal. He has received the third tranche of GoN housing grant. The construction of the house is completed. The house is a One room BMC structure with flexible CGI roof.

Challenges and Way Forward

Challenge	Way Forward
Because of continuous rain landslide was occurred in many place of district. Nepal to china highway was blocked from last 15 days. Its hard for HHs to transport construction material.
