

Monsoon-induced Flood and Landslide Disaster in Koshi Province

Ministry of Internal Affairs and Law, Koshi Province

(as of June 20, 2023)

This report is produced by Ministry of Internal Affairs and Law, Koshi Province in collaboration with Provincial Emergency Operation Center. It covers the situation of Koshi Province after the severe effects of rainfall induced flood and landslides in different districts of the province. Since the data in this status report is being updated, linguistic and statistical weaknesses will be corrected gradually.

Highlights

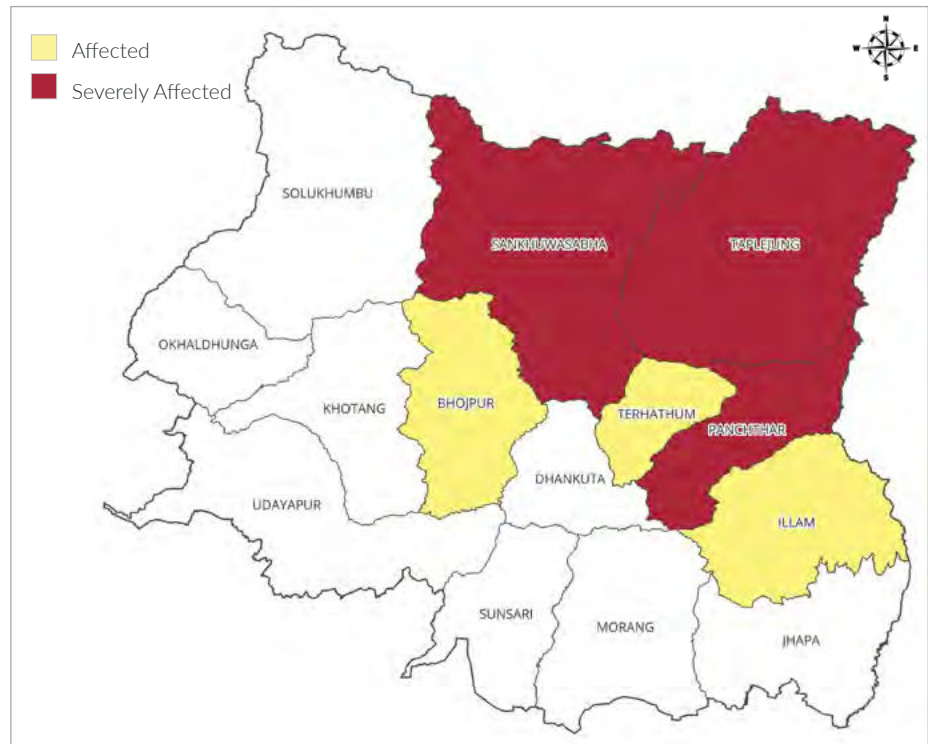

1. A total of **8 people** have lost their lives while **6 people** are reported to have suffered injury by the incessant rainfall induced flood and landslide in Koshi Province.

2. **27 people** are reported to be missing since the disaster incident; **6 from Panchthar**, **18 from Sankhuwasabha** and **3 from Taplejung**.

3. **32 houses are fully damaged** and **22 houses partially damaged** with approximately **159 people displaced** across Panchthar, Taplejung and Sankhuwasabha districts of Koshi Province.

4. The respective District Disaster Management Committee (DDMC) is leading rescue and early response work for the affected families.

5. Security personnels, local level chairperson, volunteers are rampantly engaged in rescue works as well as in collecting the exact details of the damages along with those missing numbers are still being calculated.

Situation Overview

The fragile hilly pockets of eastern Nepal have been severely affected as the monsoon induced flood and landslide, causing disruptions to the social and regular activities of local settlements. Due to the flooding and landslides caused by Saturday's incessant rainfall (**17 June 2023**)/2 Ashad 2080 at 10:30 PM **8 people** have lost their lives while **27 individuals** in the region are still missing. Ward offices with support from the local communities along with security units are involved in immediate disaster relief and rescue works; rescued people have been taken to nearby government hospitals for treatment. Complete washing away of the concrete bridge and suspension bridge has caused complete blockage of the Mechi Highway as well as other connecting small junctions. Landslides have hit several parts of Sankhuwasabha, Panchthar Taplejung, Bhojpur, Terhathum and Illam resulting in a number of families to be buried inside the land mass triggered by landslides.

Government agency officials have stated that while the flood has caused significant physical and human damage, the full extent of the situation is still being assessed and detailed information is yet to be available.

Loss and Damage

Districts	Death			Injured			Missing			# of Displaced Population
	Male	Female	Total	Male	Female	Total	Male	Female	Total	
Panchthar	1	2	3	0	1	1	3	3	6	133
Taplejung	3	0	3	2	0	2	2	1	3	9

Response from Government of Koshi Province

Under the chairmanship of the Chief Minister of Koshi Province, a meeting was held on June 18, 2023, where concerned provincial ministries and members decided to initiate immediate disaster rescue and relief efforts, coordinate with government line agencies, and inform the federal Ministry of Home Affairs for additional support, while the Minister of Water Supply, Energy and Irrigation, and Health Hon. Minister Til Kumar Meyangbo Limbu, along with senior heads of Koshi Province security units (Nepal Army, Nepal Police and Armed Police Force, Nepal), conducted an aerial observation of the affected areas.

Temporary Shelter

Districts	Temporary Shelter
	Need
Panchthar	10
Taplejung	9
Sankhuwasabha	13
Total	32

*based on the number of households fully damaged

As per the guidance from the Chief Minister of Koshi Province, the Ministry of Internal Affairs and Law (MoIAL) Koshi Province are in regular communication and coordination with the affected districts to take updates of the loss and damage as well as to process the necessary support.

The MoIAL coordinated with Army Headquarter of Koshi Province for search and rescue works continued on 19 June 2023, according to which disaster affected injured people at Sidingwa Rural Municipality-6/Taplejung district were rescued. Similarly, around 10 people buried in a landslide at Yangwarak Rural Municipality -1 were reported to have been rescued by Nepal Army.

Current Needs and Priorities

- Urgent rescue, response and relief process to be prioritized with inclusive and protective distribution and technical support.

- Immediate measures are being taken to restore road connectivity, and one of the ongoing efforts is the construction of a bridge to ensure the resumption of the road connection and facilitate the movement of goods, services, and humanitarian aid to the affected areas.
- Shelter: **Tarpaulins, blankets, mattresses, tents and solar lights (solar tuki)** to be priorities to addressing the immediate needs of the identified 324 flood and landslide affected population.
- **Dignity Kits for Women:** It is crucial to prioritize the specific needs of women affected by Flood and Landslide. Dignity kits, which include personal hygiene items such as sanitary pads, soap, and underwear, are essential to ensure the health, safety, and dignity of women in the affected areas.
- **Nutritious Food:** To address the nutritional requirements of vulnerable groups such as children, elderly individuals, and women, the distribution of nutritious food, including dry fruits, is recommended.
- **Local Water Purification Methods:** Access to safe drinking water is crucial in flood and landslide affected areas.
- **Hygiene and Sanitation:** Hygiene promotion and sanitation efforts are vital to prevent the outbreak and spread of diseases in flood and landslide affected areas. Provision of hygiene kits, promotion of proper handwashing practices, and the construction of temporary sanitation facilities are key interventions.
- **500 Information Education & Communication materials** for safe use of shelter and NFI kits, safe construction of temporary shelters are required to convey knowledge and raise awareness at community level.
- Technical orientation and training for municipal technical staff for damage assessment /data collection before starting shelter assessment at community level.

Needs and Priorities

Districts	House Damaged	CGI Sheets	Trapaulin	Mattress	Blanket	Tent
		Needs	Needs	Needs	Needs	Needs
Panchthar	28	84	84	168	168	10
Taplejung	9	27	27	54	54	9
Sankhuwasabha	17	51	51	102	102	13
Total	54	162	162	324	324	32
