

Housing Recovery and Reconstruction Platform

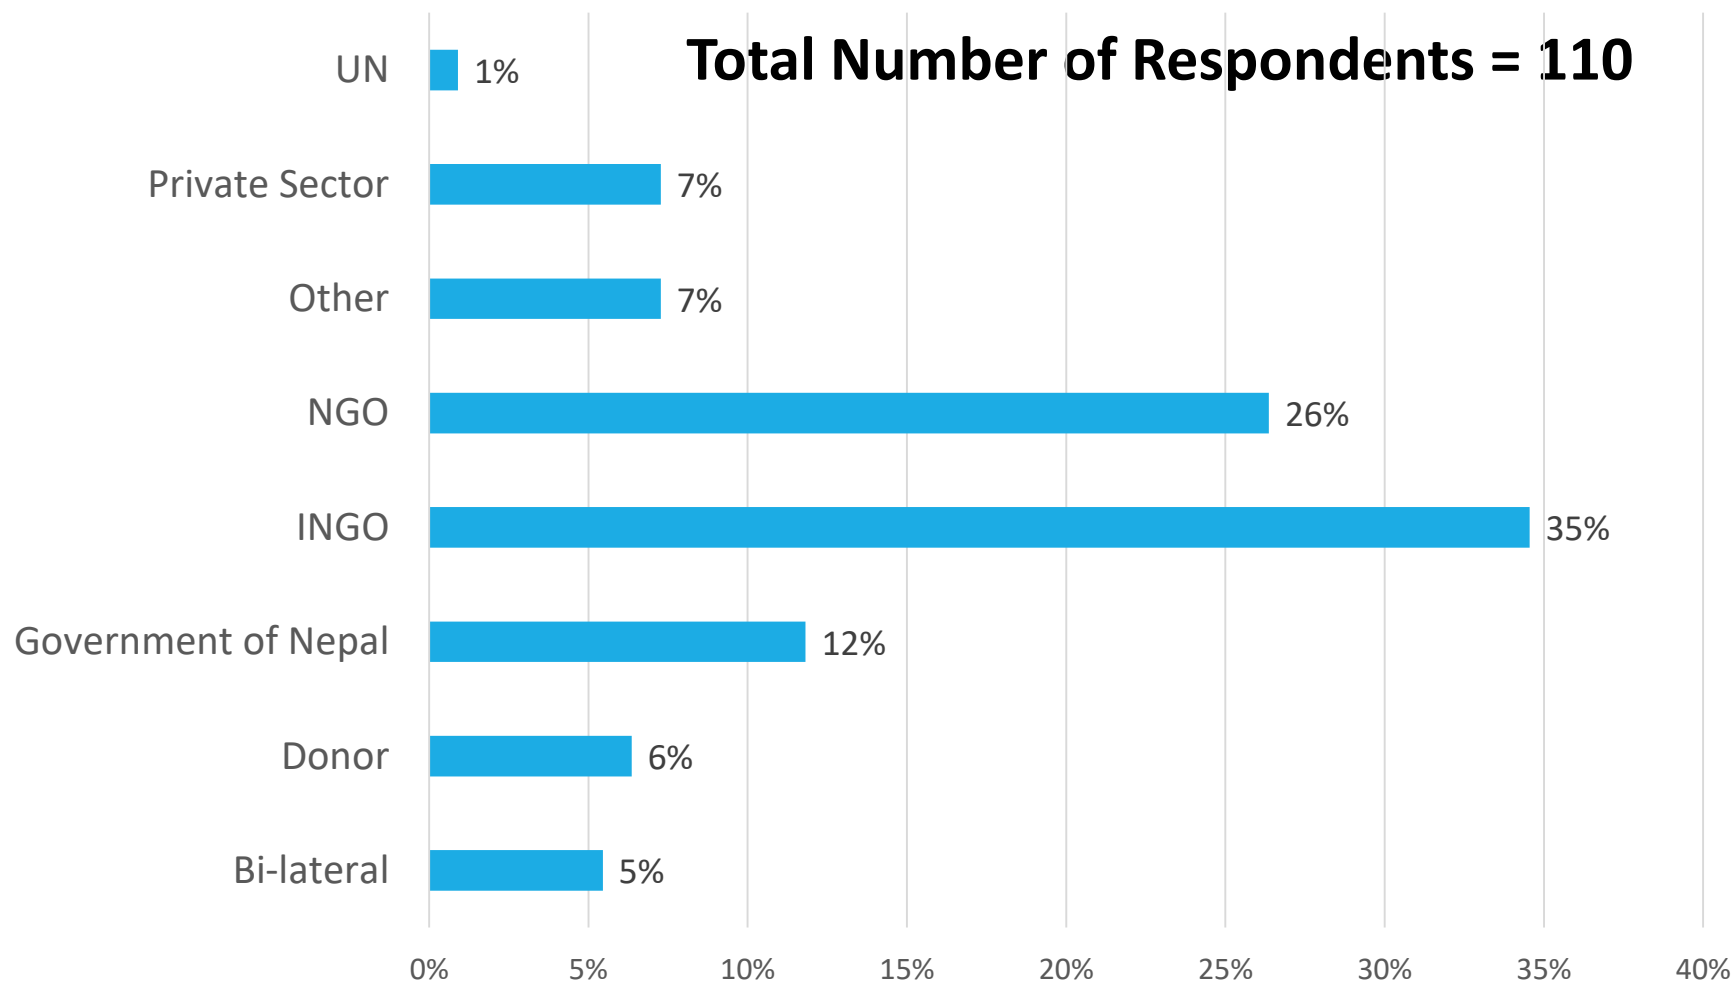

Results from HRRP Partner Satisfaction Survey Round 2

Jan-Feb 2018

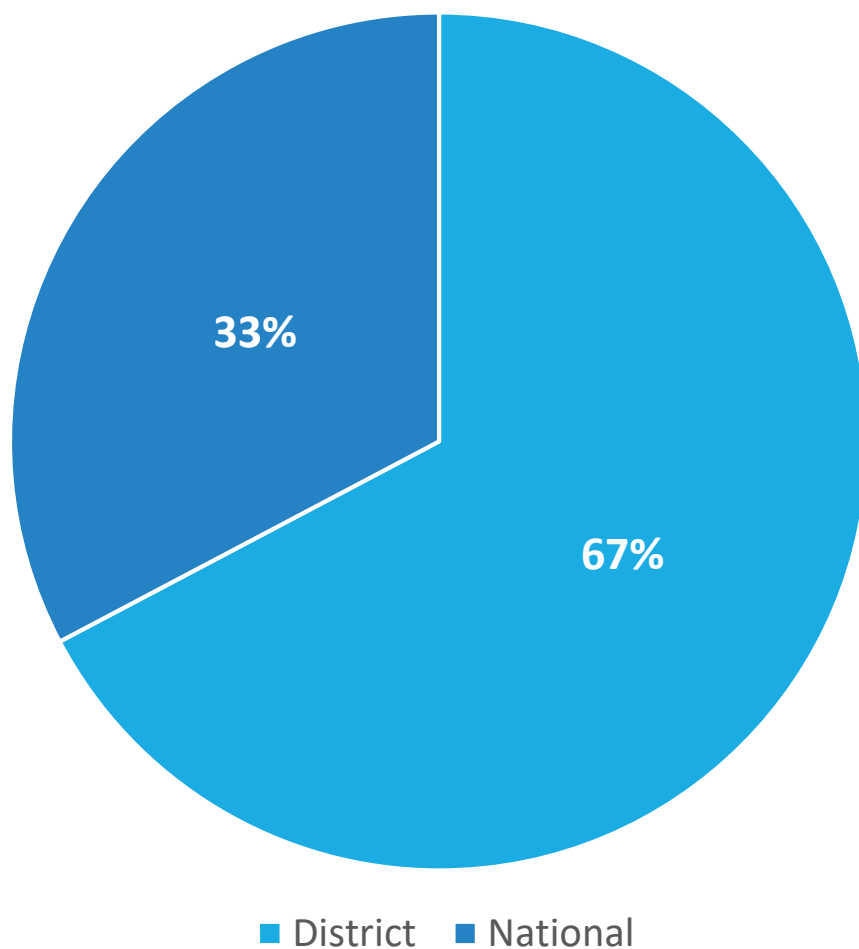

Response by Language

Respondents by Type of Organisation

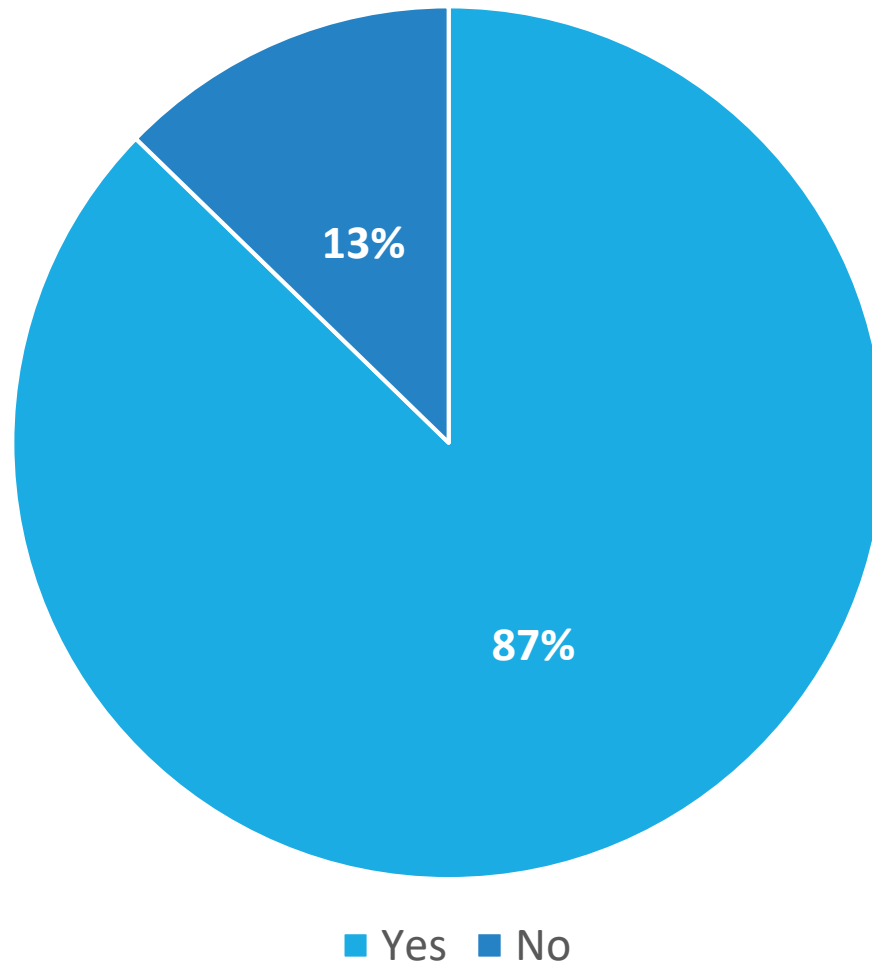

Respondents by Working Location

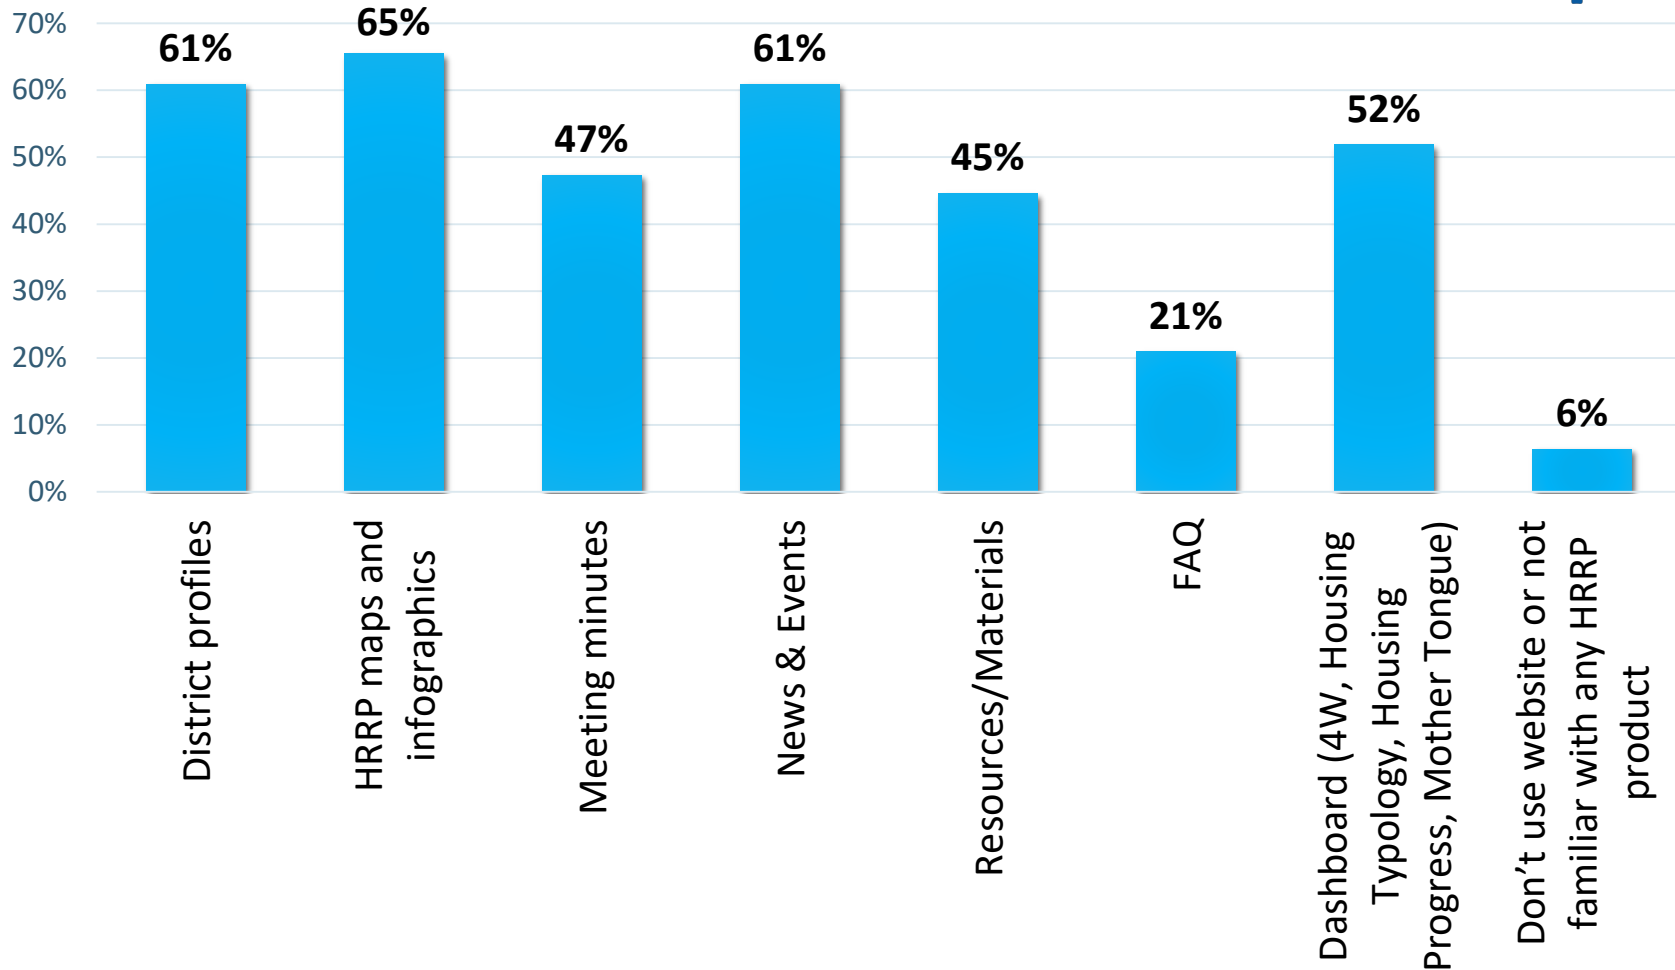

District name	Number of respondents
Bhaktapur	1
Dhading	13
Dolakha	7
Gorkha	13
Kathmandu	1
Kavrepalanchowk	3
Lalitpur	1
Makwanpur	3
Nuwakot	11
Okhaldhunga	2
Ramechhap	4
Rasuwa	4
Sindhuli	3
Sindhupalchowk	8
Total	74

Do you receive the district HRRP emails from districts you or your organisation work in?

Of the HRRP products or website sections, which ones are useful for your work?

Please list any changes / additions that you feel would make the HRRP products and/or website more useful:

More pictorial/visual and user friendly (dashboards are clunky, slow, and too text heavy)

Upload GoN/NRA's documents including guidelines, policies, procedures, decisions made, etc.

Updated and revised design, drawing and checklists of housing e.g. retrofitting technical checklist

More knowledge products, content beyond 14 districts, more access to CBS data

Maps and infographics as per new governance structure (also in Shp file)

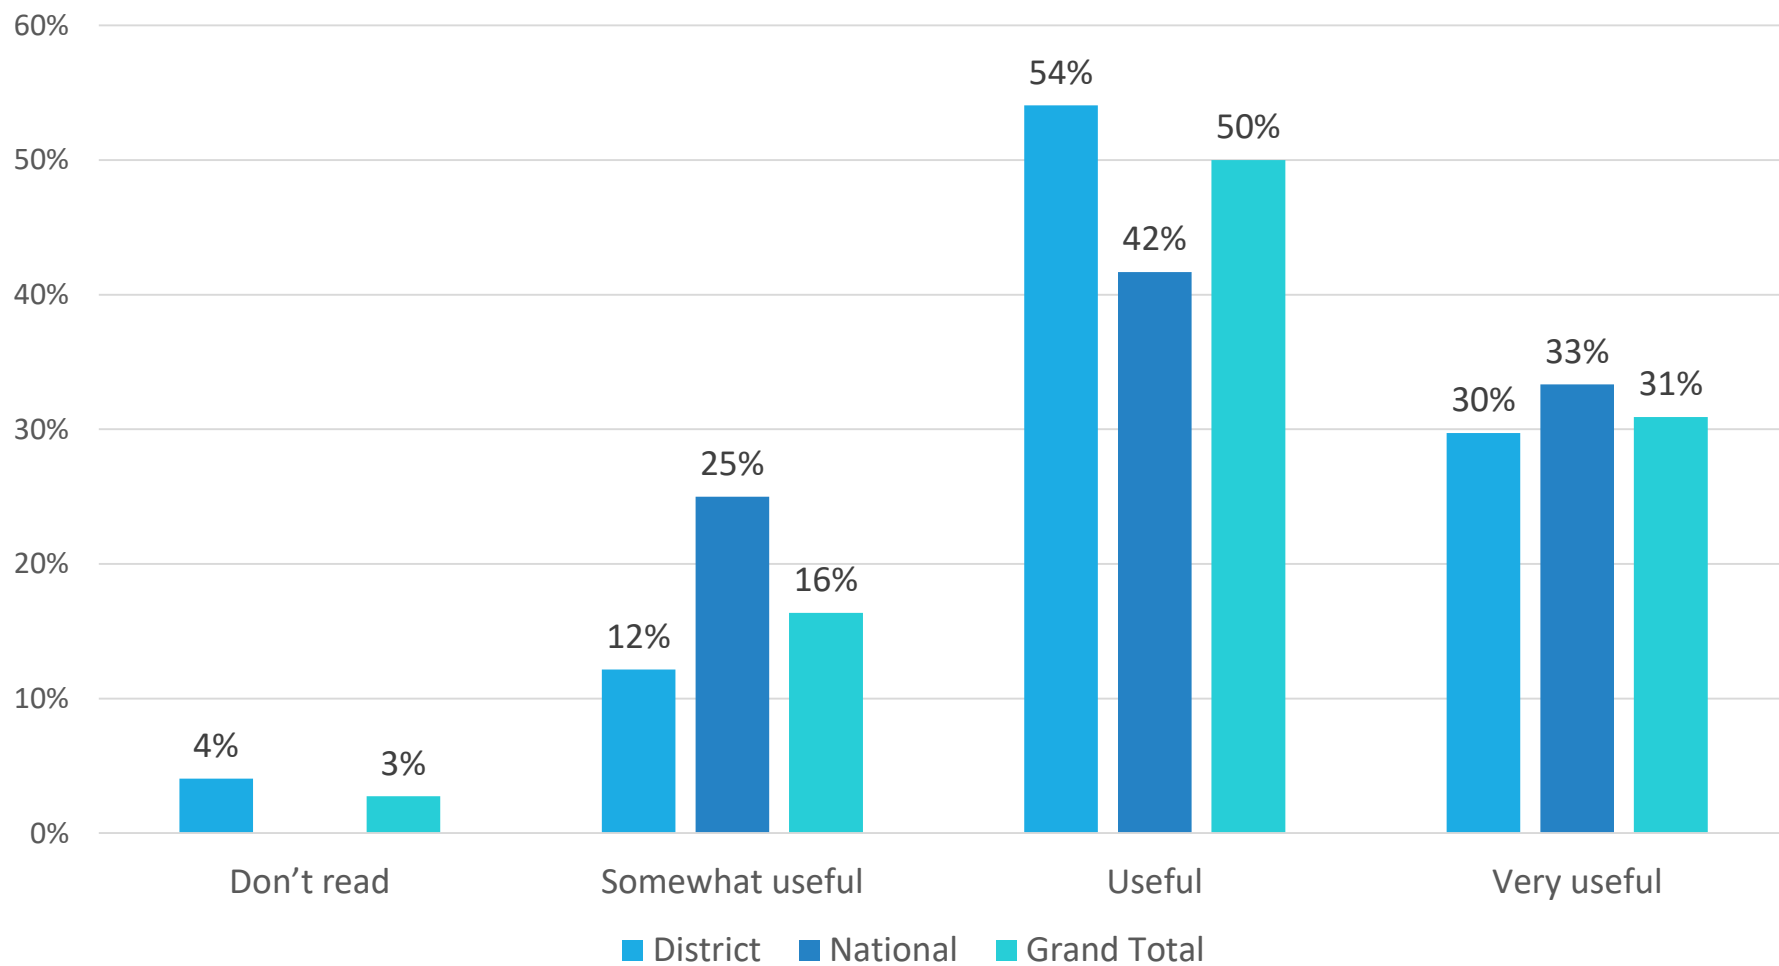

Publish reconstruction photos, success stories, and more feature stories

Weekly video, revised communication strategy with key events and new resources to make more of an announcement

4W/5W should be updated regularly with district and municipal level data

District level data and products

How useful do you find the weekly bulletins?

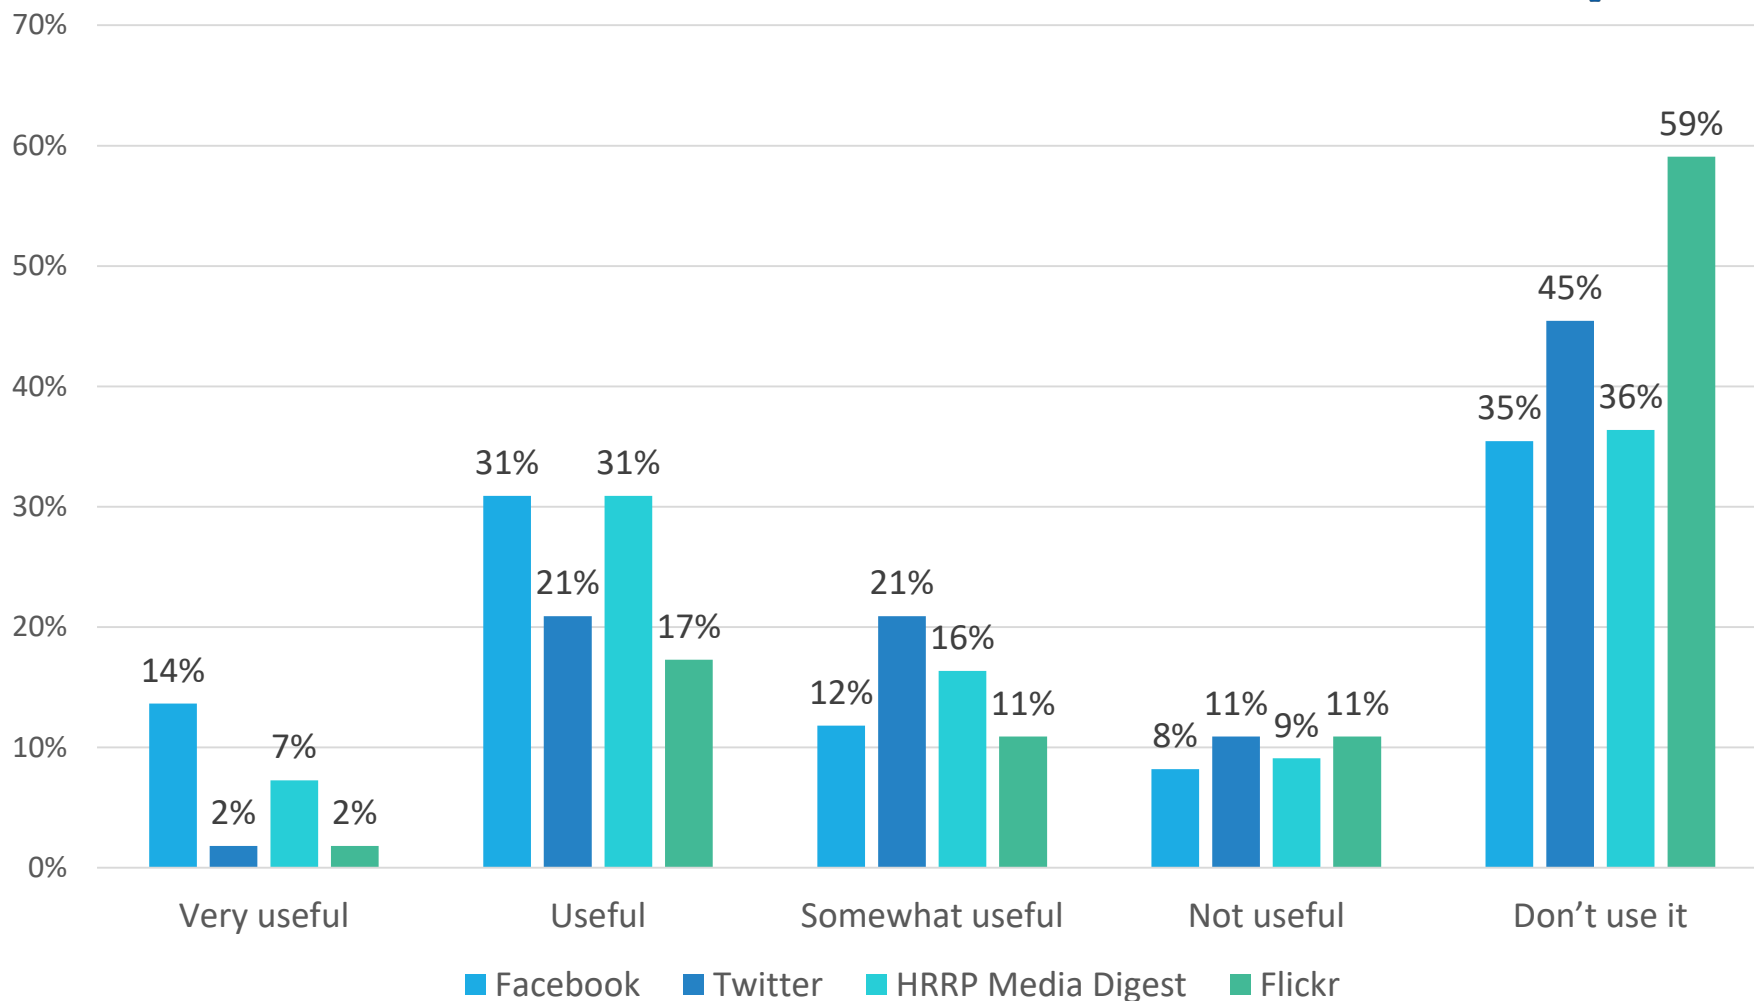

Please list any changes / additions that you feel would make the weekly bulletin more useful, relevant or reader friendly:

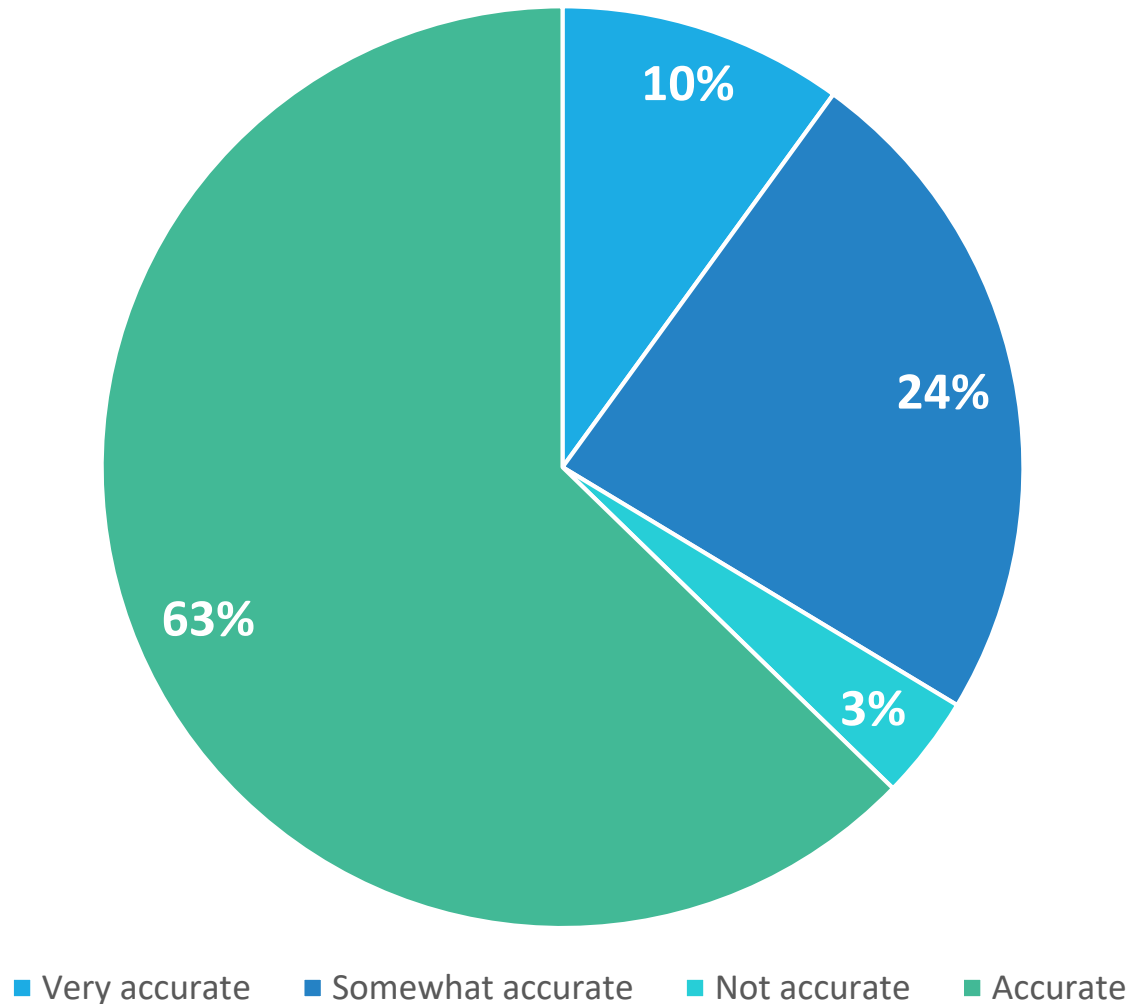

- Graphs showing changes over time for housing coverage and tranche distribution
- Focus on new technologies to use local materials for reconstruction
- More research documents from different countries
- Be less text heavy, make more pictorial and descriptive, and add bigger varieties of pictures with stories
- Monthly district level reconstruction scenario/context, tranche update
- Flood resistant shelter reconstruction with possible design and approach
- Do not repeat information
- Add community voices, feedback and recommendation
- Information based on new structure
- Prepare in English and Nepali
- Events at district and national level
- Types of structure before and after retrofitting
- Technical suggestions from engineers
- Update on non-compliant buildings that have received grant after corrections
- IDP information in detail
- Improve editing and suggest to send out monthly instead of weekly

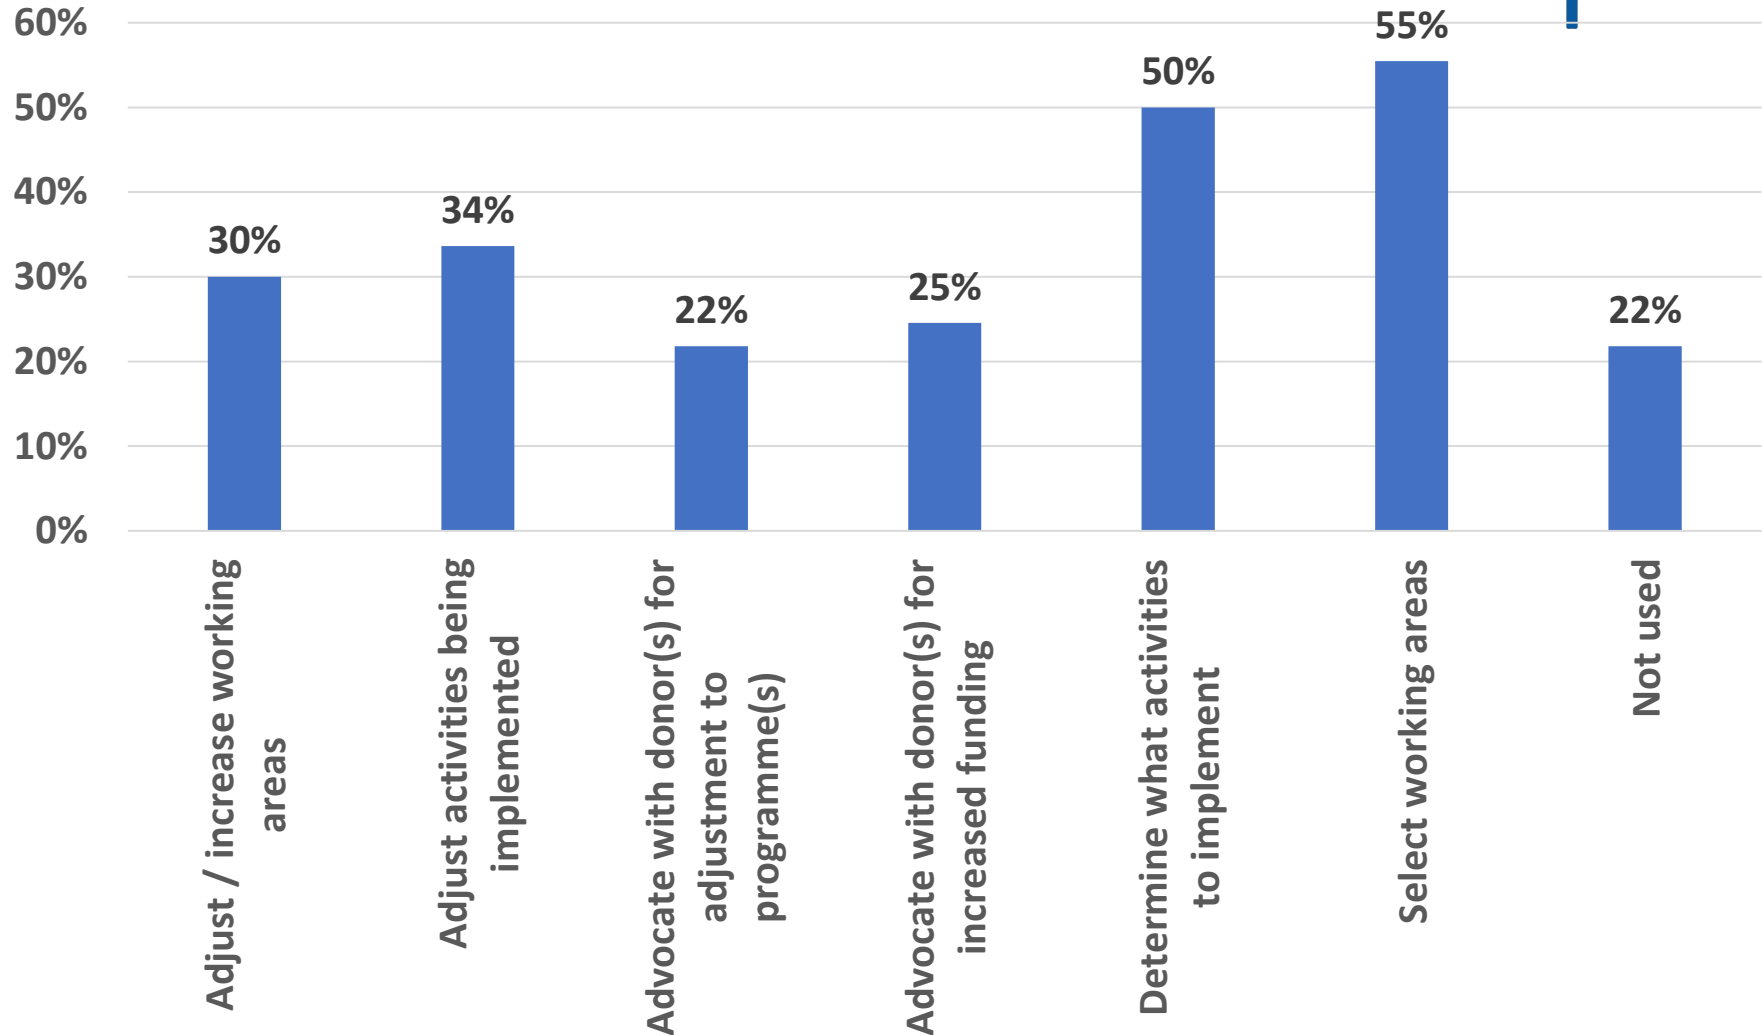

How useful do you find HRRP social media platforms?

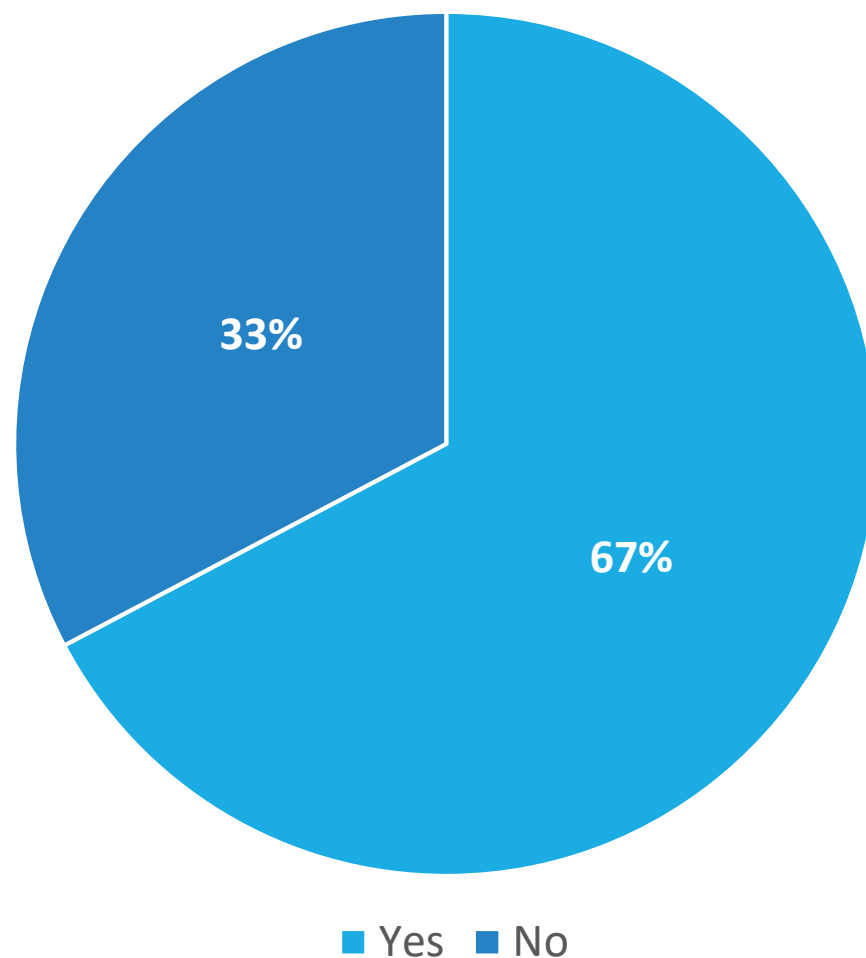

How would you rate the accuracy of HRRP updates on reconstruction efforts?

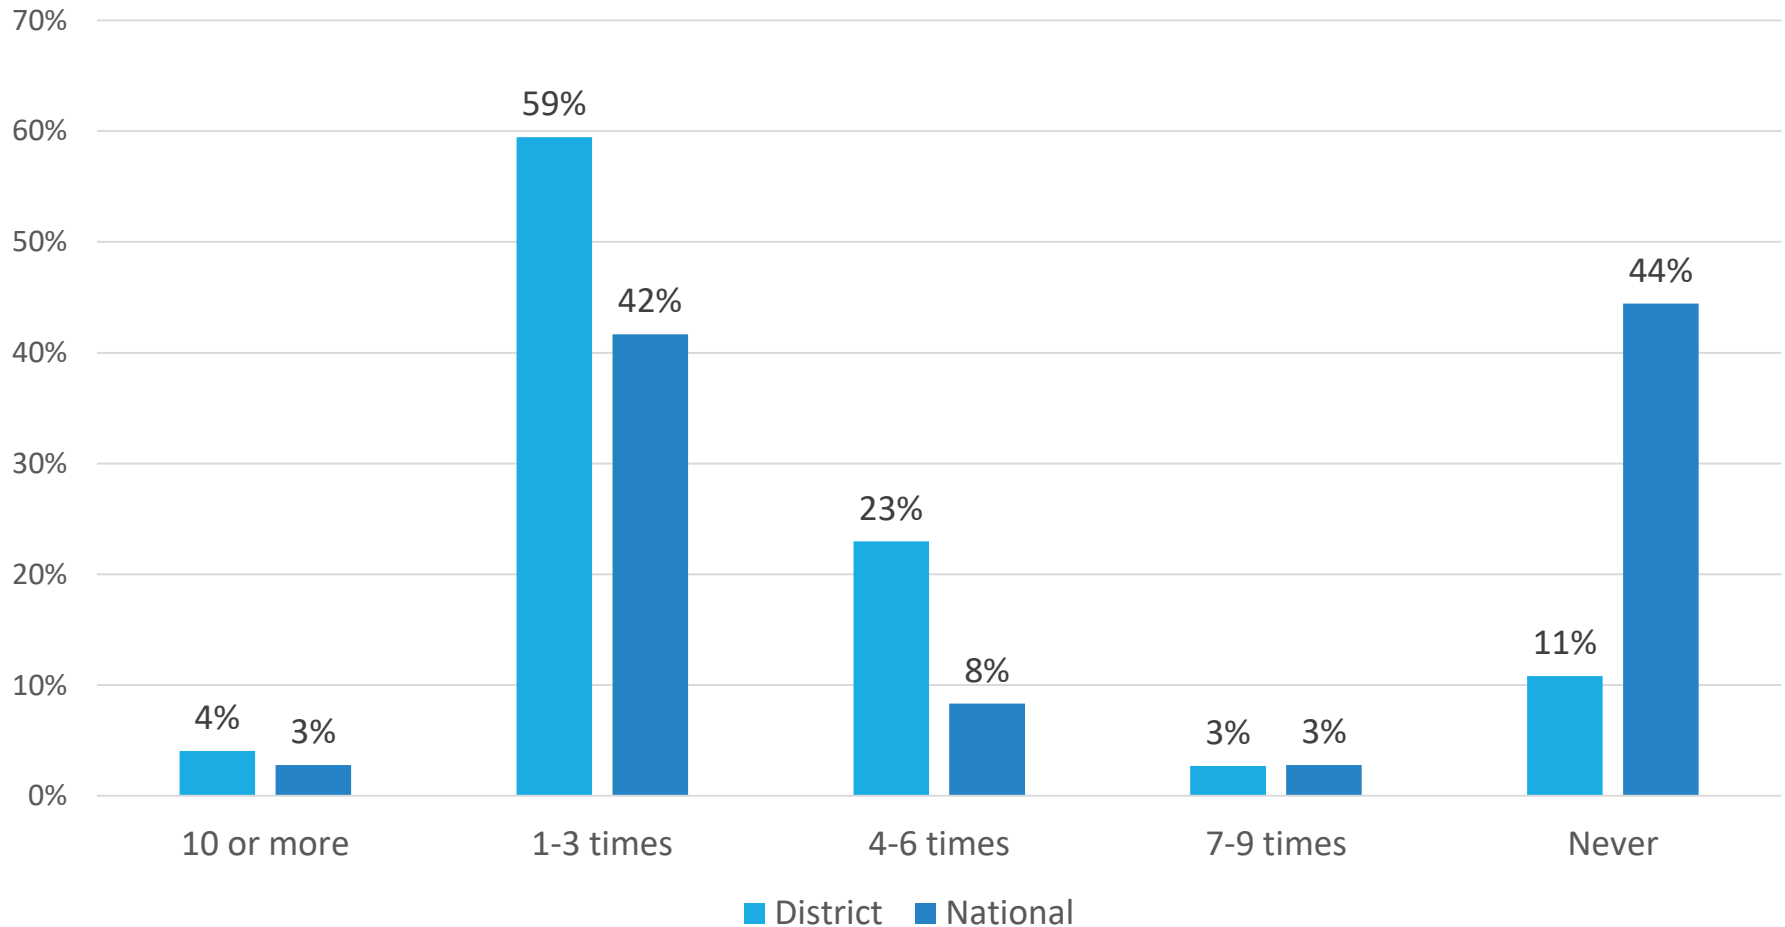

In the past 6 months, what purpose(s) have you used HRRP maps for?

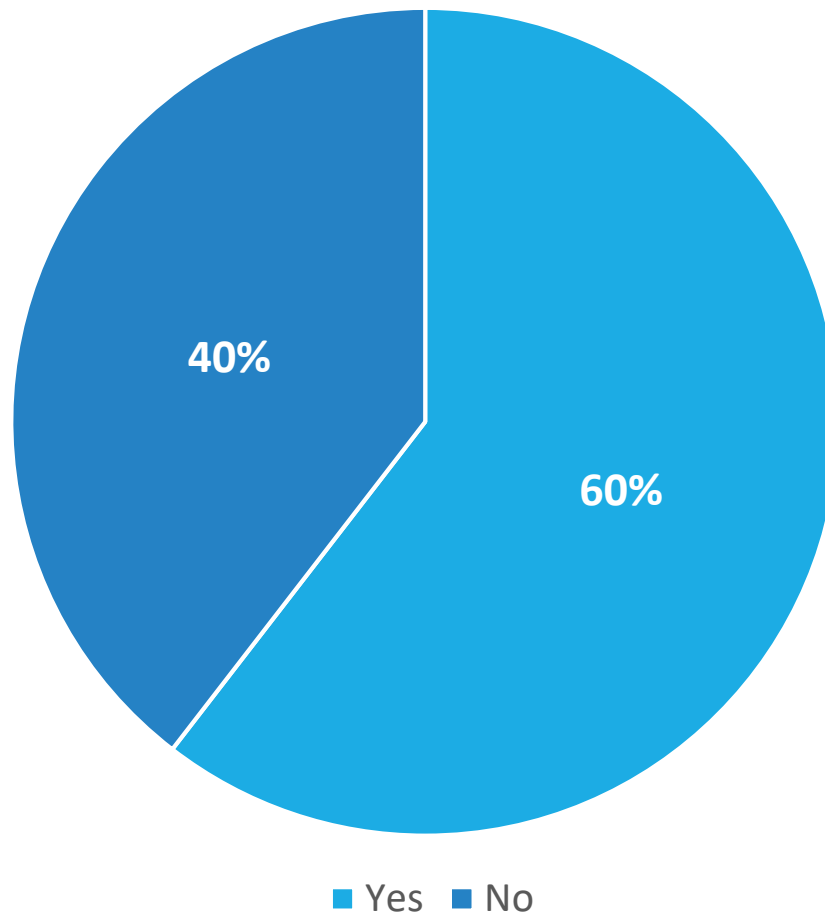

Have you / has your organisation used the HRRP district profiles for any purpose in the past 4 months?

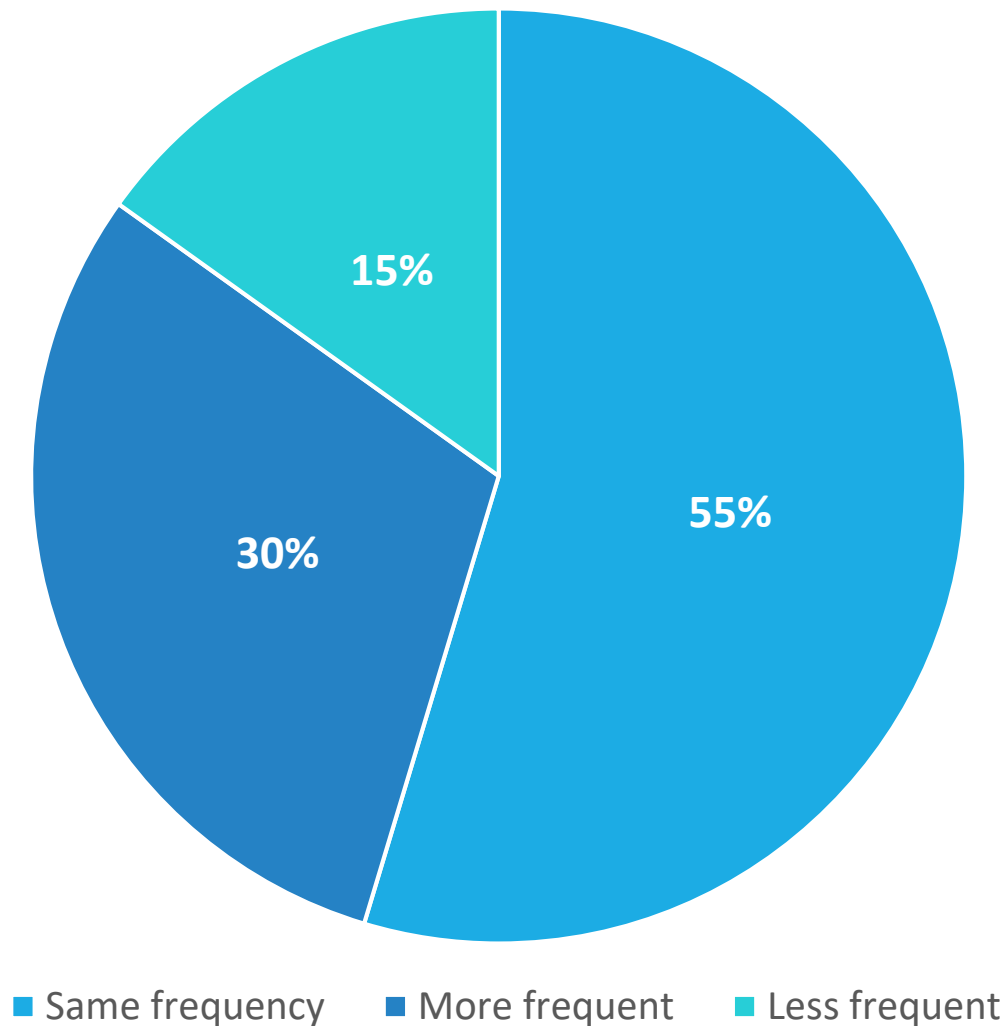

In the past 4 months how many times have you attended a HRRP district coordination meeting?

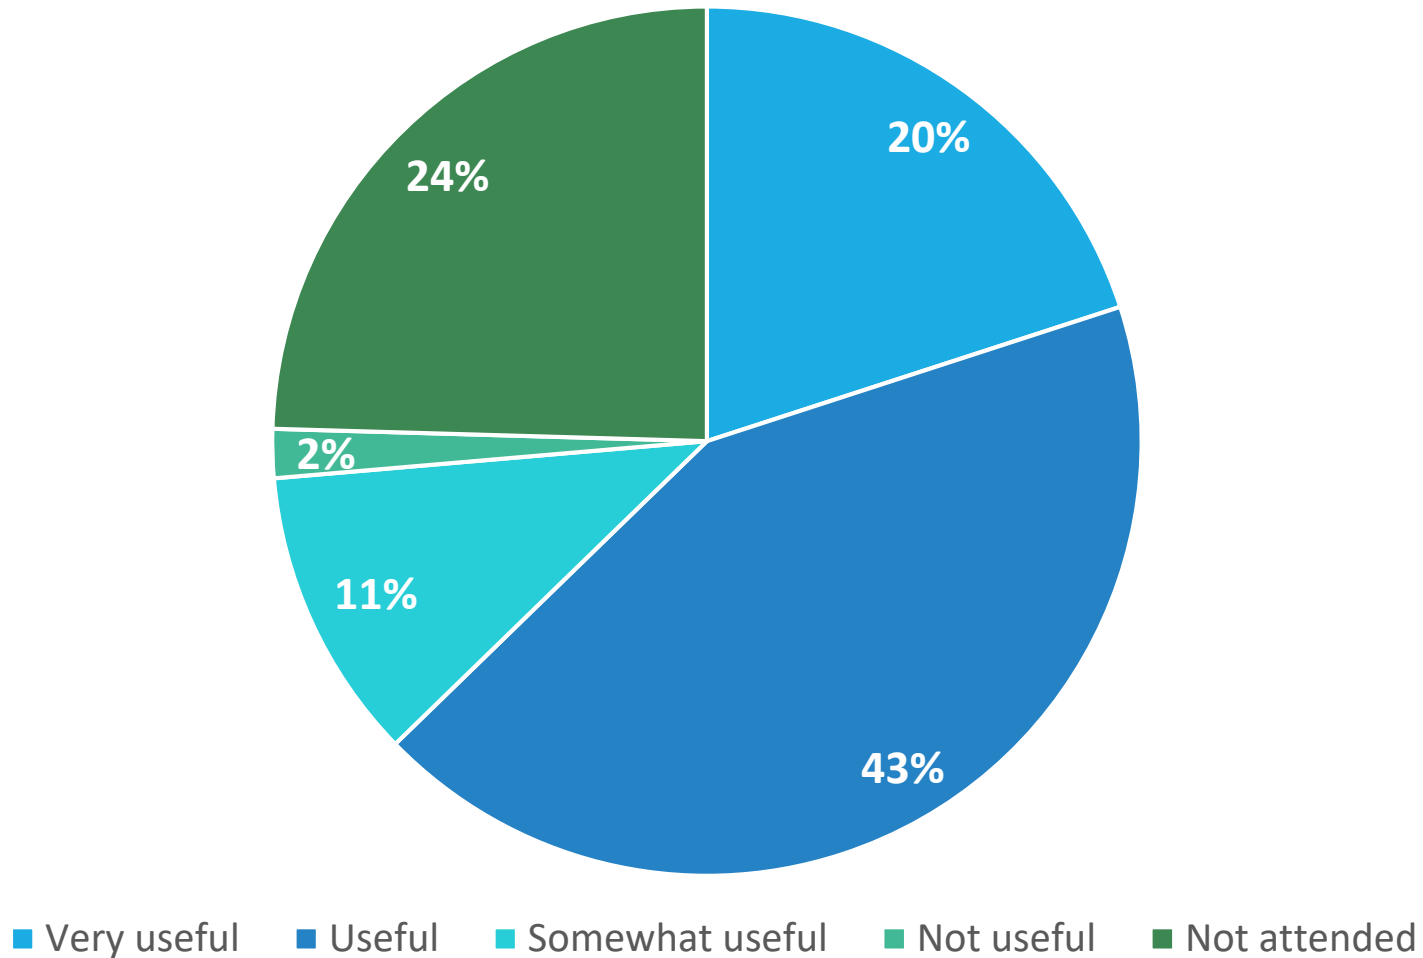

Have you made any changes to your activities or programme based on information shared or discussions at HRRP district coordination meetings?

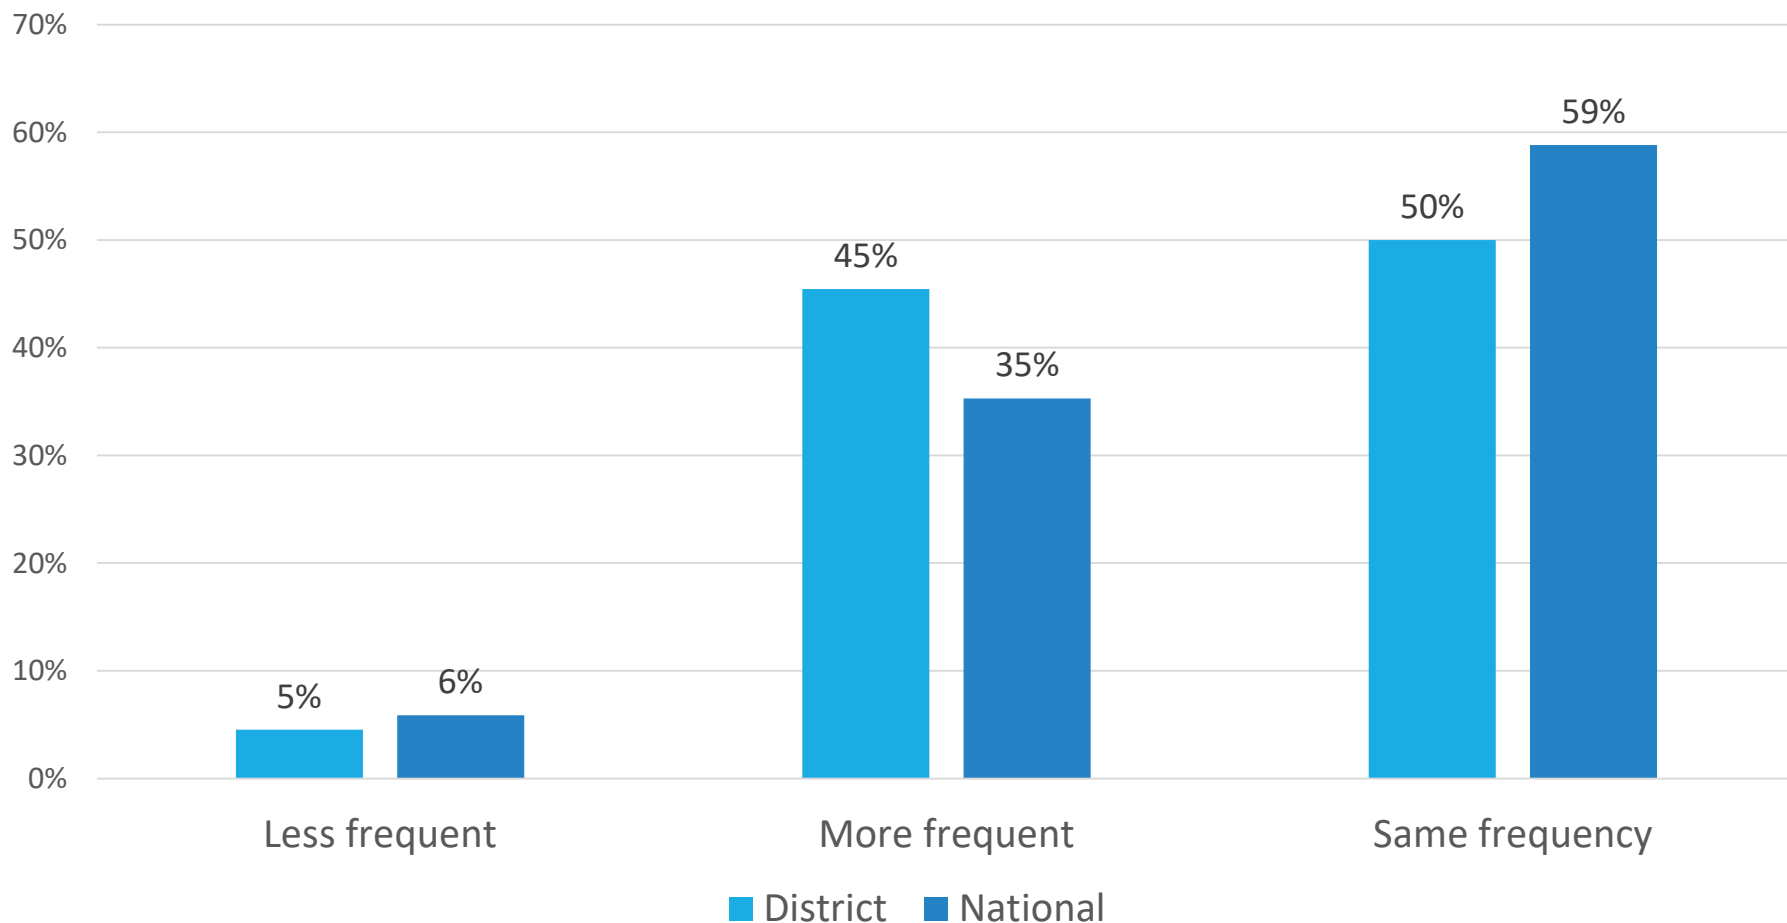

In terms of the frequency, HRRP district coordination meetings should be:

How relevant and useful have HRRP district orientations, trainings, or workshops that you have attended been?

In terms of frequency, district orientations, trainings, or workshops, should be:

Please briefly describe if you or your organisation made any adjustments or additions to reconstruction programmes because of HRRP district level events:

Correction and exception manual orientation helped with technical supervision

Identified potential working areas

Duplication was removed, gaps were identified and implemented activities in those areas

Coordination with local bodies has been more frequent

Adjustment to the number of families to be supported

Extension of project and selected working area

Staff capacity building and technical orientation to social mobilisers

Selected most vulnerable communities who have received 1st tranche from GoN and provided 2nd and 3rd tranche from our organisation

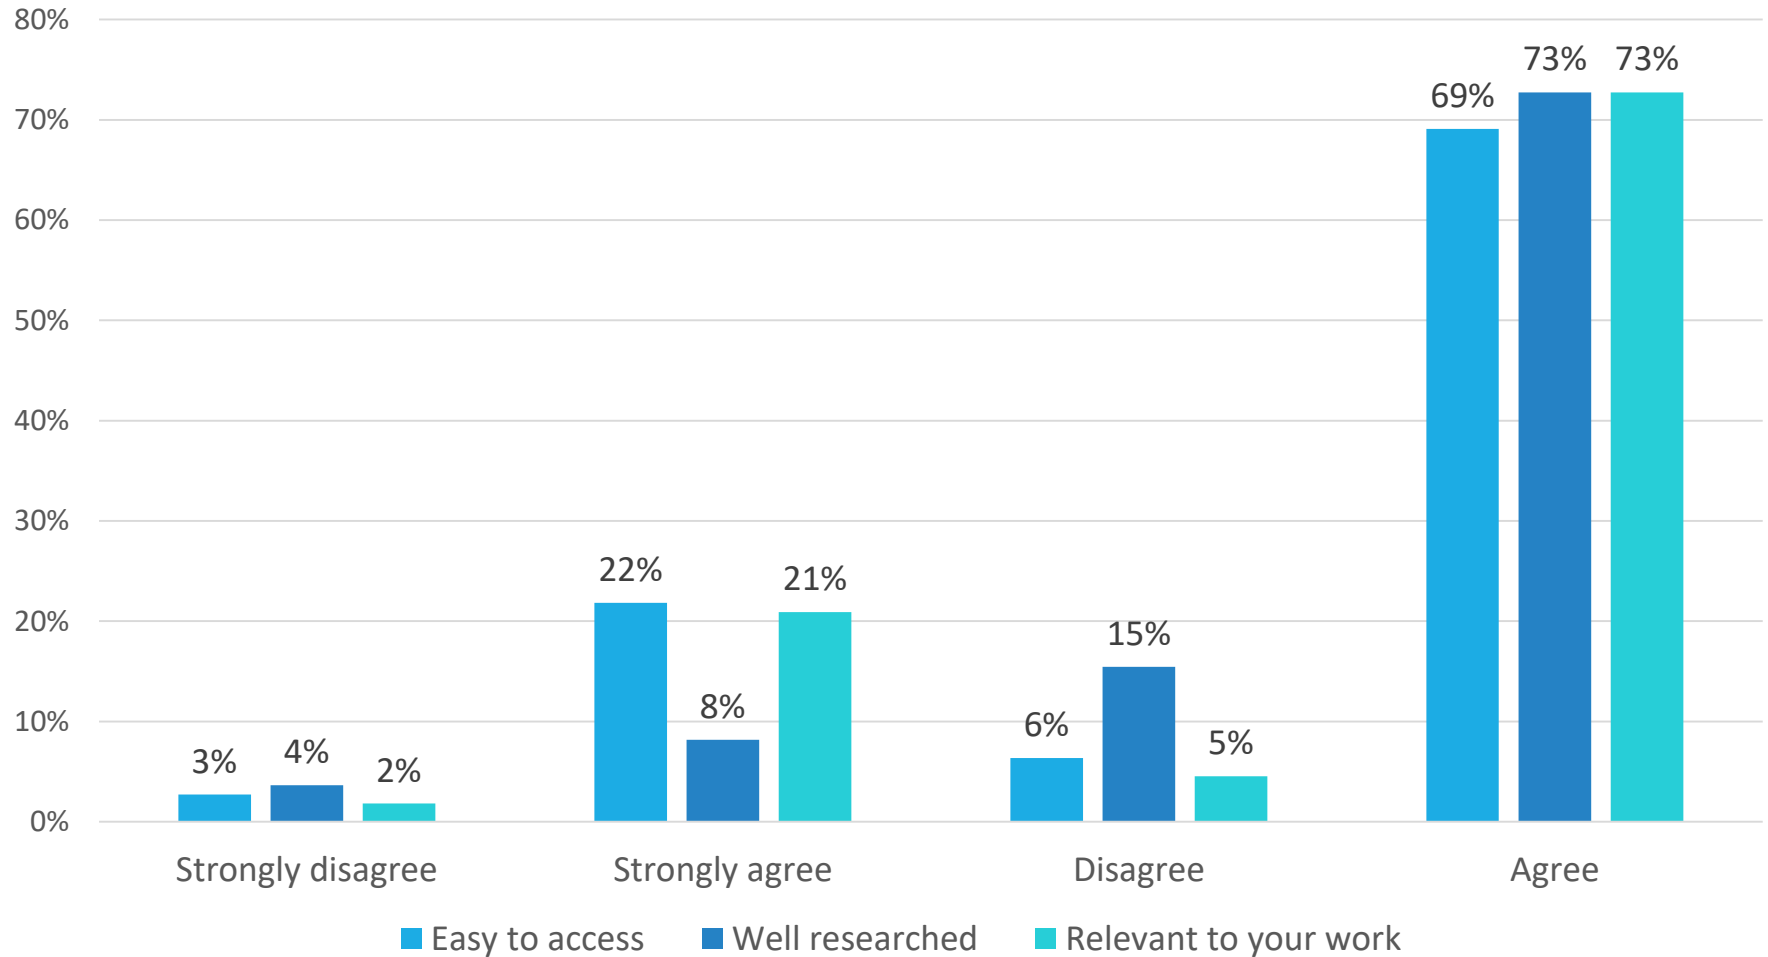

Added a short term training and a OJT for masons

District orientations helped to create effective information flow

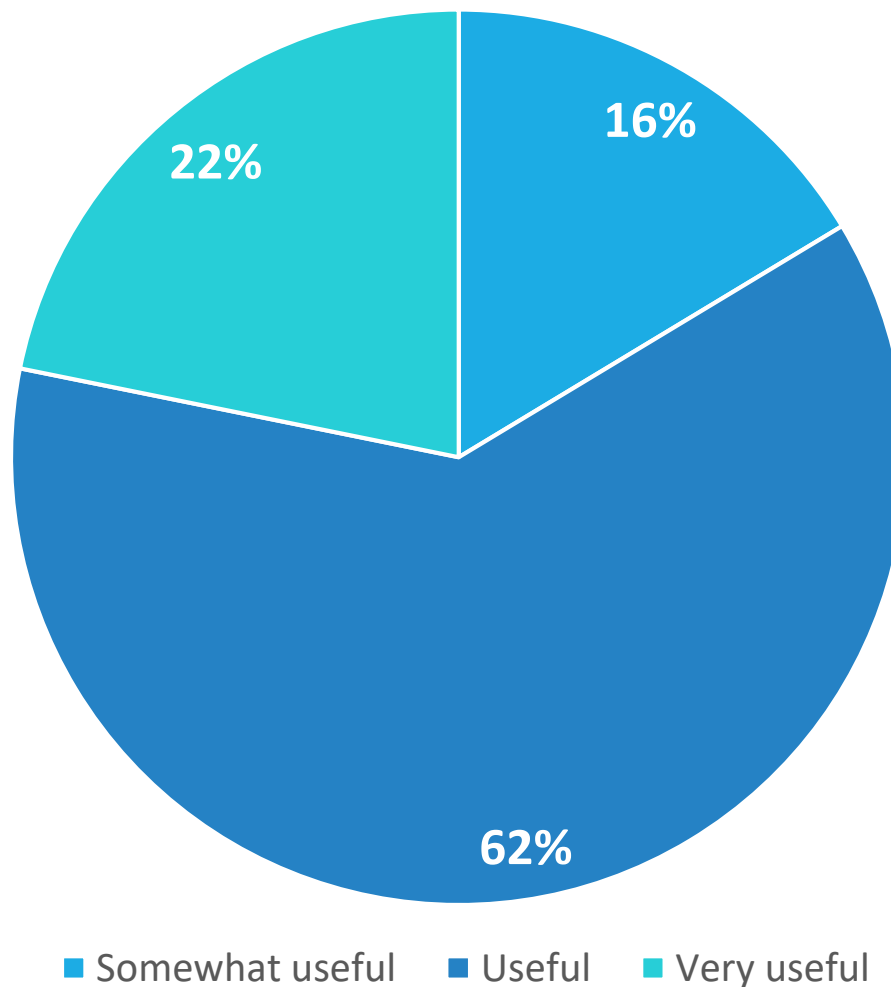

Identified areas for mason training

Added Earthquake safety message in community orientation

Based on your experience, HRRP technical information and guidance is easy to access, well researched and relevant to work:

How relevant and useful have National HRRP technical sessions you have attended been?

Please briefly describe if you or your organisation made any adjustments or additions to your programmes because of HRRP technical sessions:

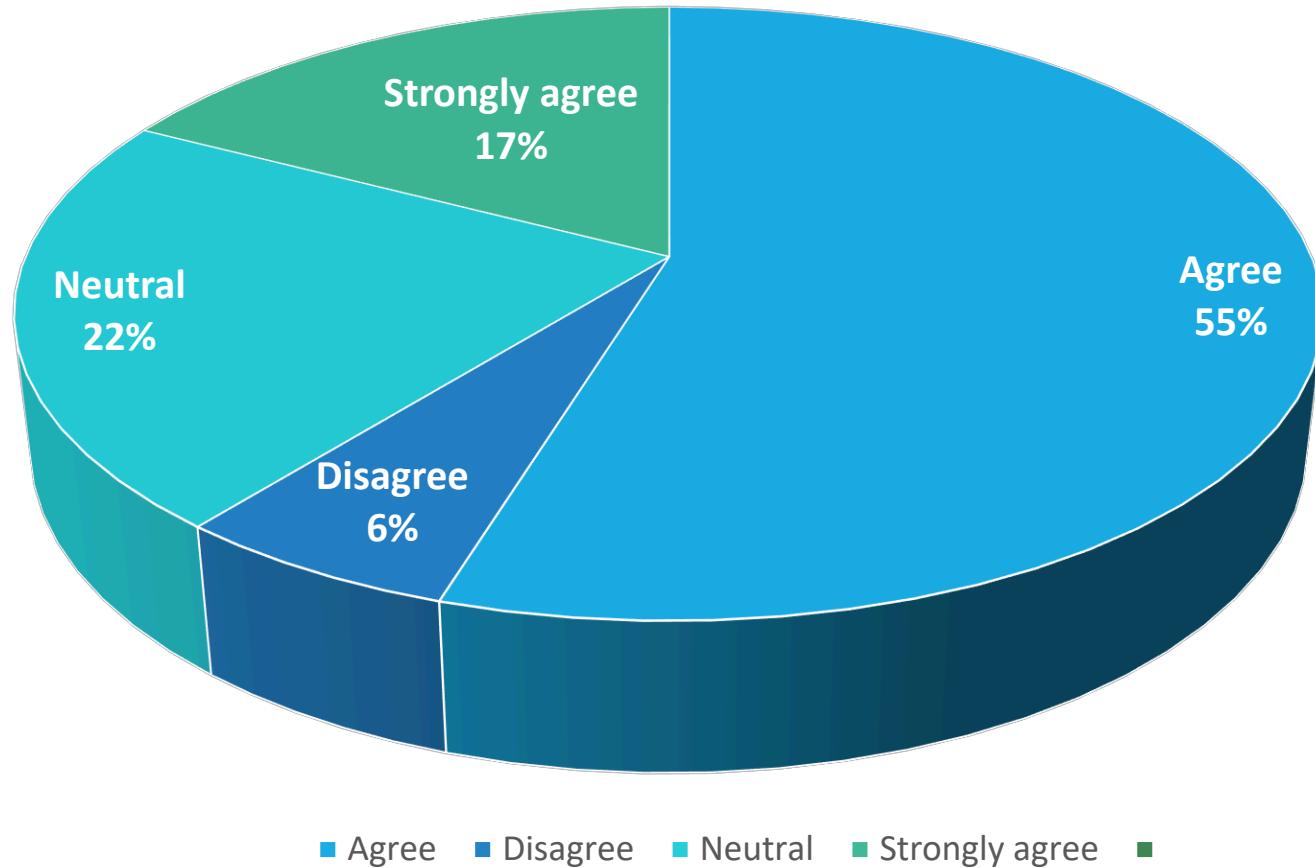

- Provided mason training, planning to support retrofitting
- Adjusted house designs
- Confined masonry and six low cost house designs have been added to district activities
- National level team is closely working with NRA to adjust activities
- Supported municipality and/or rural municipality for their master plan development
- Organised field level training, especially for masons
- Addressed non-compliance issues in work areas
- Changes in the maps and info graphics presentation
- Inspection procedure and tranche disbursement sessions were added to training for home owners and masons

Please list any topics that you would like to propose for future technical sessions:

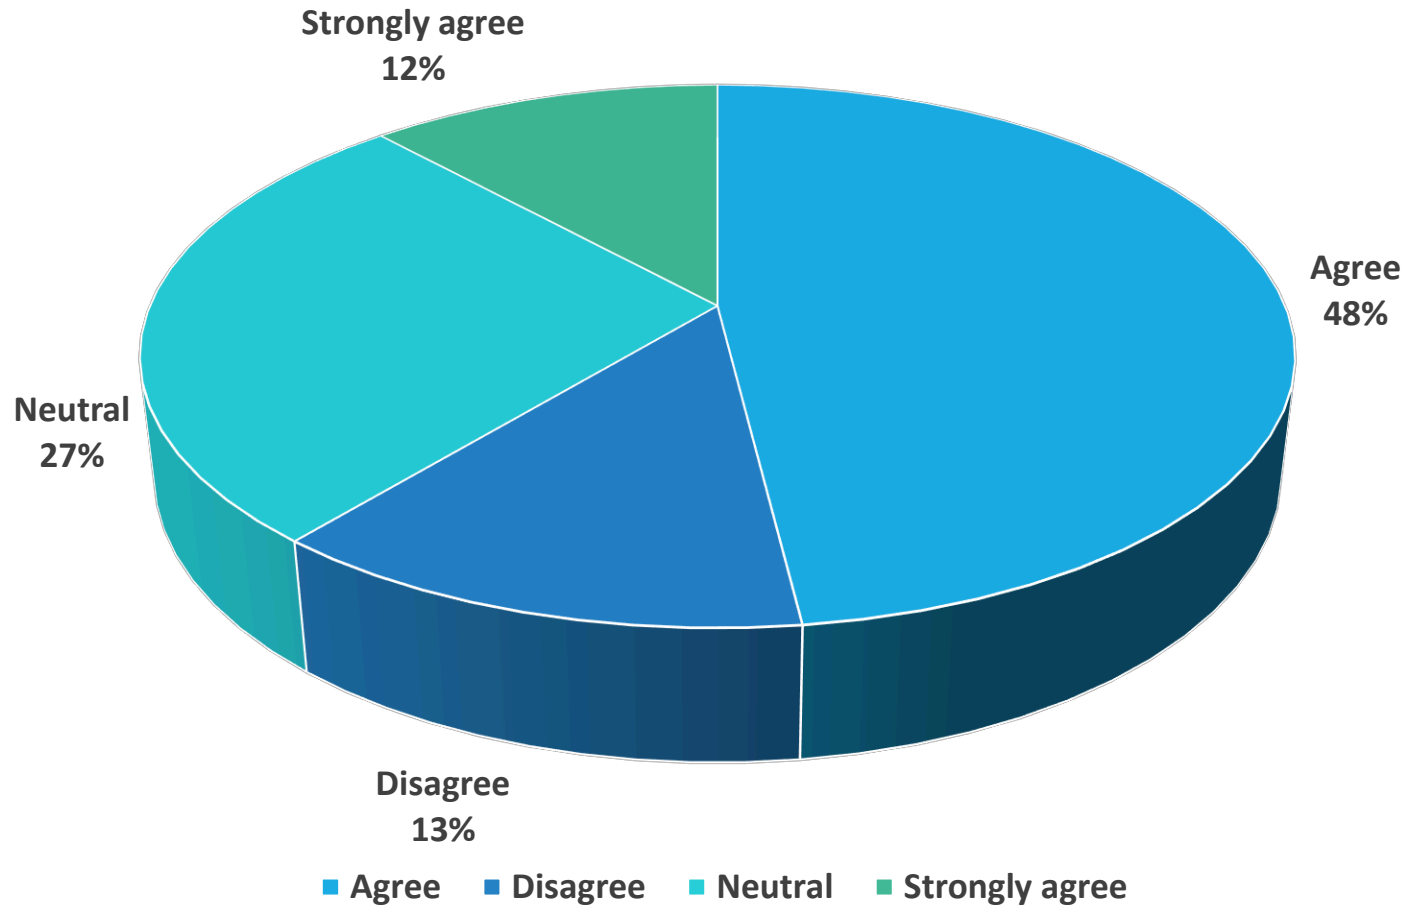

- Updates to NRA policies and related issues
- Experience sharing on support to vulnerable, access to loans, material supply
- Flood resistance design and drawing
- GESI
- Session on other disasters
- Retrofitting using local materials
- Timber structures and timber house designs
- Hollow concrete blocks
- Training on preparation of maps and infographics
- Minimum plinth area for houses
- Dry-stone masonry
- Quality of local construction materials
- Land issues (urban and rural)
- Techniques for rebuilding/retrofitting in urban areas
- Experience sharing about working under new government structure

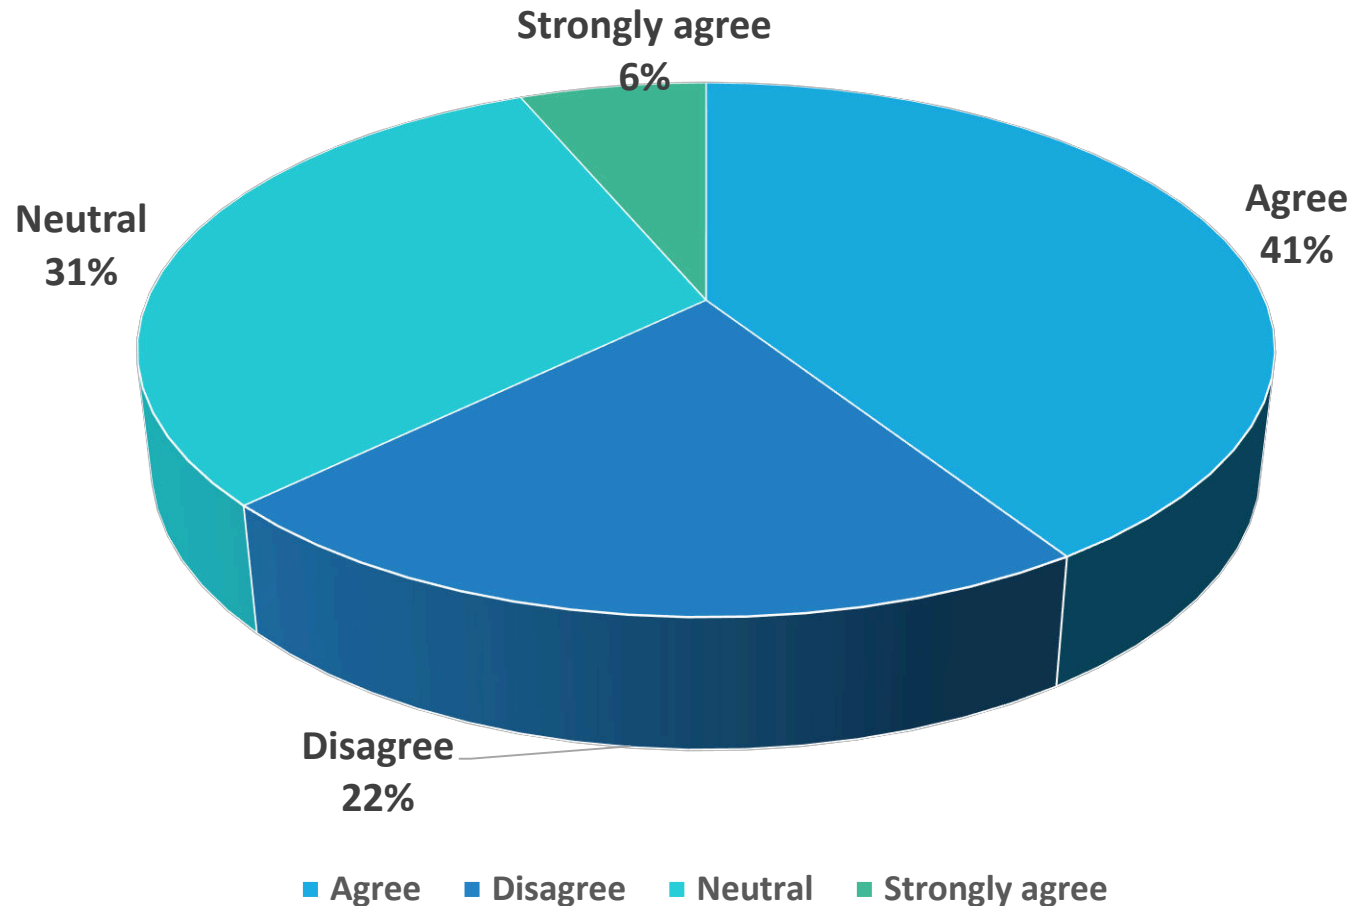

**How much do you agree with the statement:
The HRRP has reduced gaps and prevented
duplication in reconstruction efforts?**

How much do you agree with the statement: HRRP has supported strengthening of emergency preparedness and response?

How much do you agree with the statement: HRRP has promoted and mainstreamed Gender Equality and Social Inclusion (GESI) in reconstruction work?

Please briefly provide suggestions on how HRRP could improve the coordination services it provides:

- Coordination meetings have not been helpful in addressing our concerns and issues with concerned government officials, but more like reporting from our side
- GESI-related data is always shared but there is no consistent focus from NRA-HRRP national and HRRP district on GESI as an important topic to be regularly discussed in meetings and/or visits
- More support to local government, more focus on 17 districts
- You seem to be doing a great job and we cannot think of anything else you can do
- This is not needed and is a waste of money
