NRA has launched an official web portal aimed at informing the world to join the International Conference on Nepal's Reconstruction (ICNR) scheduled to take place from 7 - 9 December 2021

On October 22, The Chief Executive Officer of the NRA, Mr. Sushil Gyewali, held a media briefing and unveiled the official web portal, <https://icnr.nra.gov.np>, designed to inform the world that the GoN is hosting an international conference on Nepal's Reconstruction (ICNR 2021) with the slogan **"From Reconstruction to Resilience"**. The ICNR 2021 event aims at sharing Nepal's learning and experiences with national and international communities from 7 - 9 December 2021. All the information regarding the conference will be shared through the website as mentioned above. Moreover, the website will be linked to the ICNR application for virtual participation.

During the conference, various research papers will be presented on different aspects of reconstruction such as private housing reconstruction, rebuilding of cultural heritage sites, reconstruction of public infrastructures, initiatives on livelihood and economic recovery and governance. Various issue-based sessions will also be organized during the three-day conference.

Convener of ICNR and Executive Committee Member of the NRA Dr. Chandra Bahadur Shrestha informed that NRA has invited national and international delegates from many development partners, experts and representatives of various organizations.

NRA would like to request every partner organization to disseminate this information on the ICNR event **scheduled to take place on 7-9 December 2021**, within their network as it will be held virtually. Partners and individuals are requested to register through this [Registration link](#).

NDRRMA organized interaction program through Zoom call on post-disaster reconstruction and rehabilitation for disaster focal persons of local governments including Chief District Officers/Assistant Chief District Officers, 24 October 2021

On 24 October 2021, National Disaster Risk Reduction and Management Authority (NDRRMA) organized an interaction program on post disaster reconstruction and rehabilitation. During the interaction program, NDRRMA made a brief presentation on [private housing reconstruction and recovery grant disbursement procedural guidelines-2077](#) for disaster focal persons of local governments including Chief District Officers/Assistant Chief District Officers.

NDRRMA made a brief presentation on the procedural guideline contents that included the disaster governance structure, provisions of disaster management fund at various levels, different types of grants for different types of disaster affected households primarily repair and retrofitting grant, reconstruction & recovery grant, temporary shelter construction grant, land purchase grant for landless households, new infrastructure development for integrated settlement among others. NDRRMA also highlighted some of the current challenges of grant disbursement mechanism such as strengthening system based documentation and reporting, lack of trained human resources to run the system, lack of technical human resource for housing reconstruction inspection, ensuring matching fund

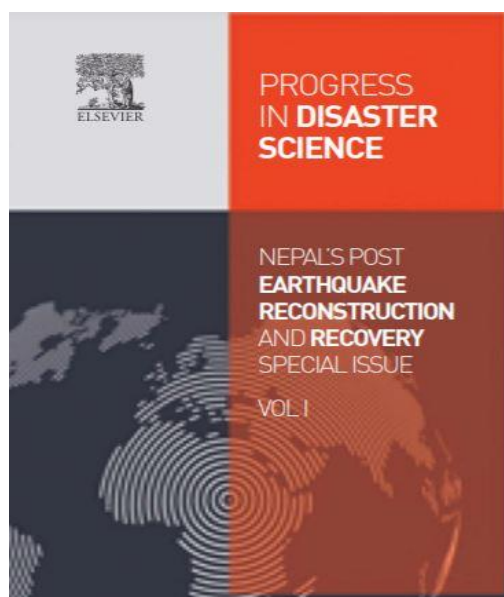

from provincial and local governments and ensuring swift access to housing grant by disaster affected households from District Disaster Management Committee (DDMC).

The CEO of NDRRMA, Mr Anil Pokhrel highlighted that NDRRMA is committed to supporting local governments in the post-disaster housing reconstruction and recovery of the affected households. NDRRMA has requested all NPDRR Thematic Groups, Association of International NGOs in Nepal (AIN) including HRRP for active collaboration in the coordination and communication to local governments, disaster affected households and mobilize partners at the

grassroots level for information dissemination, sensitization and implementation of the housing reconstruction and recovery grant disbursement guideline. The program was virtually attended by approximately 230 participants.

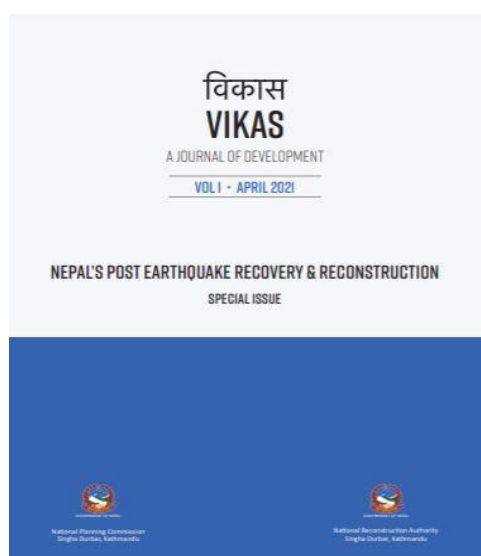

[**NRA published Nepal's Post-Earthquake Reconstruction and Recovery Special Issue, Volume 1 in collaboration with PDS journal**](#)

This special issue of the Progress in Disaster Science (PDS) journal has been published in association with the NRA of Nepal, an organization established by the Government to lead and coordinate reconstruction following the 2015 Mw 7.8 Gorkha, Nepal earthquake. The special issue records the progress achieved during the earthquake recovery process, in the belief that the significant achievements highlighted will be useful at national, regional and international levels, as a means of helping others to prepare for earthquake and other disaster events in the future and to mitigate the resultant impacts

likely to be encountered. The papers included in the PDS journal cover a number of important areas of reconstruction, ranging from private housing to governance, to cultural heritage, livelihoods, economic recovery, social impacts, disaster risk reduction and other cross-cutting issues. It is believed that the papers will be useful to researchers, policy makers, students and general practitioners engaged in the field of disaster management. Most importantly, they will serve as a mirror reflecting how Nepal completed its reconstruction after the 2015 Mw 7.8 Gorkha, Nepal earthquake.

[NRA published Nepal's Post-Earthquake Recovery and Reconstruction, Special Issue, Vol 1 in collaboration with the National Planning Commission](#)

As part of information sharing on Nepal's reconstruction and recovery, NRA has published this special issue of *Vikas* (means Development in English) with the aim of sharing lessons learned from Nepal's experience in post-disaster reconstruction and recovery, following the 2015 Mw 7.8 Gorkha, Nepal earthquake. This volume has been compiled under the auspices of the NRA, established by the GoN to lead and coordinate the post-earthquake reconstruction. The journal is published in collaboration with the National Planning Commission/GoN.

The papers included in *Vikas* cover a number of important areas of reconstruction, including private housing, cultural heritage, governance and other cross-cutting issues. It is believed that these papers will be useful to researchers, policy makers, students and general practitioners engaged in the fields of disaster management and disaster risk reduction, as well as to advocates and practitioners of disaster risk-informed development planning. The papers published in the publication will serve as a mirror reflecting how Nepal completed its reconstruction after the 2015 Mw 7.8 Gorkha, Nepal earthquake.

Unseasonal heavy rains from 17-19 October have left heavy loss of life and property to most parts of Nepal

The unseasonal and heavy rainfall that occurred amidst the Dashain festival in 3rd week of October has brought flood and landslides in many parts of Nepal, impacting the economy, inundating hundreds of houses, causing human casualties, flooding of ready to harvest paddy fields impacting negatively to livelihoods of many flood affected people. Destruction of paddy is a major setback for Nepal's overall economy. Climate change experts of Nepal are sharing their versions that differential rain patterns have impacted human lives and property which could lead to food insecurity. Experts stress on paying serious attention to the fact of climate change that extreme weather conditions are directly impacting the people and their livelihoods. Though the GoN has been conducting immediate rescue works and has decided to provide relief support to impacted people from recent rain induced disaster, climate change experts and development practitioners have voiced out for shifting significant focus to long term solutions in appropriate early warning systems, disaster risk reduction and reliable disaster preparedness initiatives.

NRA Earthquake Housing Reconstruction Project (EHRP) through Inclusive Consultants Pvt. Ltd. conducts vocational training for women masons

On 22 October, NRA Earthquake Housing Reconstruction Project (EHRP) through Inclusive Consultants Pvt. Ltd. commenced a 49-days-vocational training for women masons. Mr. Bharat Prasad Aryal, the Project Director of EHRP Project Management Unit (PMU), inaugurated the training program in Kathmandu. The overall objective of the training is to strengthen the skill of women mason to promote resilient housing construction at the community level thereby connecting with their livelihood skill for long term sustainability.

Through this training, EHRP-PMU is driven by a motive of equipping women masons with skill based vocational training on housing construction matters so that they are confident enough to become self-reliant by taking independent tasks in various construction works such as wall raising, fencing, flooring, tiling, plastering, roofing, painting etc. The training is being held in office premises of Inclusive Consultants where the first phase is focussed on theory classes followed by practical lessons in second phase. 149 women masons from earthquake affected districts are participating in this residential training. For more information, please contact Mr. Shyam Mani Kafle, Deputy Project Director, NRA-EHRP PMU.

Urban Recovery Strategy Study update: HRRP is coordinating the ongoing Urban Recovery Study (March-September 2021) on urban issues commissioned by NRA with technical support by NSET, CRS and HRRP and UKAID. The objective of the study is to collate learning elements and prepare ground for integration of evidence-based urban strategies into specific government acts, policies, working procedures and regulation.

The study team has been asked to submit a draft report to NRA by 29 October 2021 followed by final publication of the report by 15 November 2021. The published report will be shared in the NRA's upcoming ICNR scheduled to be held on 7-9 December 2021.

Economic Impact Study Update: HRRP is coordinating the Economic Impact Study executed by a team of three independent consultants, technically supported by NRA. The consultants are now in the process of finalizing the first draft report by 29 October 2021 followed by final publication of the report by 15 November 2021. The published report will be shared in the NRA's upcoming ICNR scheduled to be held on 7-9 December 2021.

For more information, contact HRRP District Management Team - Coordinator, Mr. Sufi Mohammad Faiz (9851241401) dmt.coord@hrrpnepal.org

HUMANITARIAN SITUATION UPDATE

[COVID-19 update from Ministry of Health and Population \(MoHP\)](#) (as of 24 October 2021): According to the MoHP [website](#) national COVID-19 data, as of **24 October 2021**, a total cumulative new cases are 809,056 (via RT-PCR test) out of which 787,507 patients (97.3%) have recovered. Likewise, as per national death tally, a total of 11,348 (1.4%) people have succumbed to the virus as of 24 October MoHP data. For more information, click in the given link [COVID-19 Response and Preparedness Plan](#) released by UN-RCO Office and Situation Report (SitRep) as of 6 September (covering the period from 6-17 September) of [Nepal -COVID-19 Pandemic Sitrep #47 \(27 September\)](#)

PROVINCIAL UPDATES - GANDAKI

Lamjung Earthquake Response Program (LERP) Update: The LERP was a short term project implemented to cater the emergency response of the Lamjung earthquake affected population. The project came to an end in October 2021. As of 25 October, 65% of the total 2520 earthquake affected households' damage grade assessment have been completed. For more information contact Mr. Rijan Gajurel, National Coordination Officer: rijan.gajurel@hrrpnepal.org

PROVINCIAL UPDATES - BAGMATI

In **Bhaktapur**, reconstruction and rehabilitation of traditional monuments of cultural and historical importance is ongoing in various Municipalities. Such as *Falcha* (traditional resting place), temples and ponds. The roofing works of *Lancha Falcha* located in Ward no 10, were observed by a team including Member of Parliament, Mr. Prem Suwal and by Mayor of Bhaktapur Municipality, Mr. Sunil Prajapati. The local communities of Ward no 10 also contributed their labour in roofing works of *Lancha Falcha*. Similarly, the Mayor of Bhaktapur Municipality also inspected the reconstruction works of Ranipokhari pond and Bhajupokhari pond located at Ward no 1 Sallaghari.

In **Suryabinayak Municipality** Bhaktapur district, 'Guideline on Building Construction and Building Permit 2021' has been prepared and endorsed with a purpose of ensuring the

systematic urbanization, safe housing construction and appropriate building permit around its territory. In preparing this guideline, Suryabinayak Municipality has followed and taken references from the National Building Code 2060 and Urban Housing Development Plan and Building Construction Guidelines 2072.

<https://www.suryabinayakmun.gov.np/sites/suryabinayakmun.gov.np/files/Bhawan%20Nirman%20Nirdeshika-2078.pdf>

In **Kavre** district, DLPIU Building and Housing Office is engaged in Health Post reconstruction and monitoring through the DLPIU engineers. Less numbers of tranche application files have been submitted at DLPIU Office by beneficiaries as the number of technical staff has decreased and site visit in Ward areas has not progressed from past few months. not speeding. Similarly, DLPIU Building Office has stopped the tranche reimbursement due to delay of releasing the budget from the government.

MEDIA COVERAGE & COMMUNICATION ON RECONSTRUCTION NRA & NDRMA CORNER

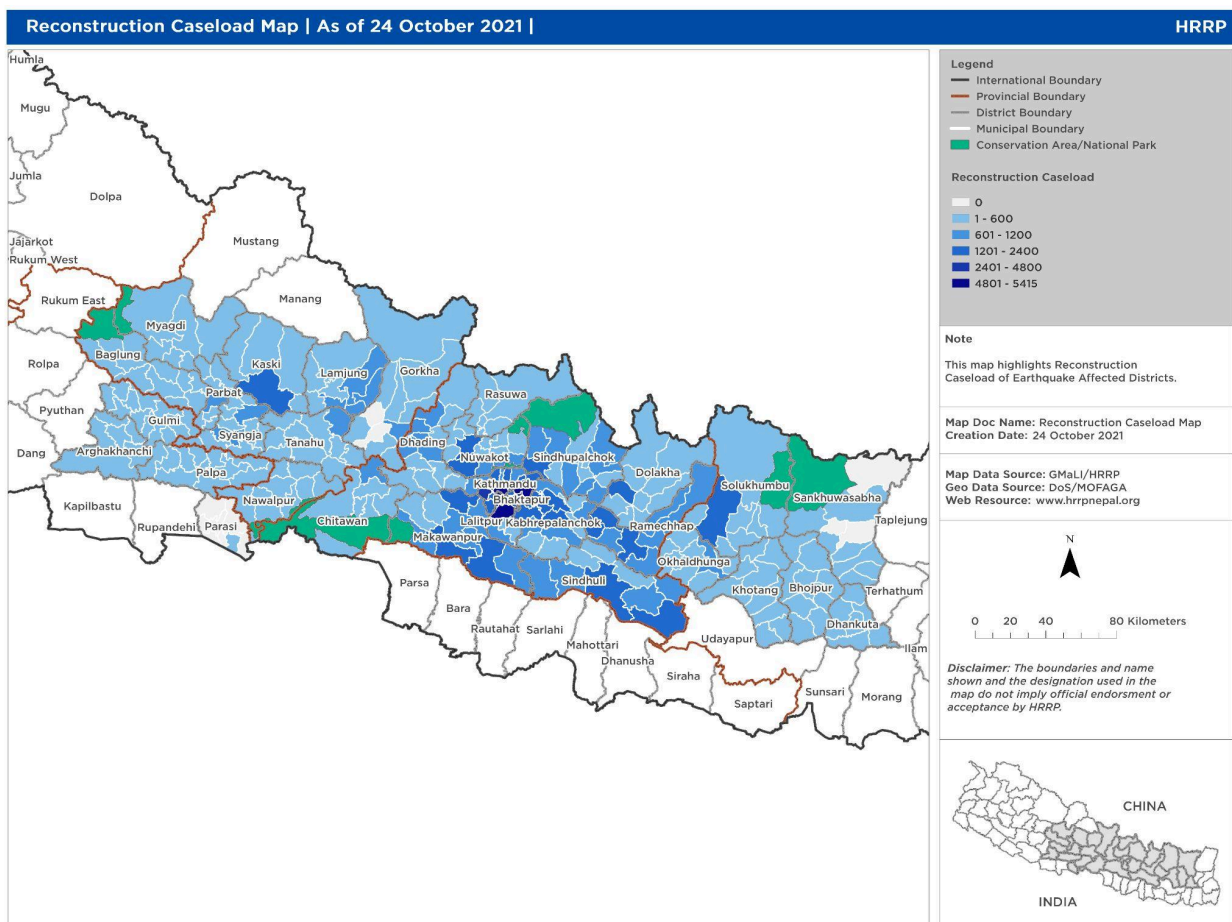

Baliyo Ghar Surakshit Nepal- Episode 63 | 22 October 2021: This episode #63 focused on the Community Action Plan of Panauti Municipality. The program airs on Nepal Television every Friday 7:00 pm and every Saturday 10:30 pm.
