Agenda

- 1. Introduction and Welcome**
Er. Dilip Bhandari, BUDBC Dhading division engineer, chaired the HRRP Technical Meeting. Er. Bharat Chalise was the facilitator of the meeting. All the participants of the meeting introduced themselves with their associated organizations.
- 2. Coverage of Technical Assistance in District**
Technical information and requirements were made focus and all partner organizations were requested to support NRA, DUDBC on reconstruction process through technical assistance coverage within the district.
- 3. Current Field issues (Community demand and compliance and non-compliance issues)**
As there has been less dissemination of 2nd tranche to all the beneficiaries within the district, people haven't got enough fund to support the construction of their houses. Furthermore, less availability of government engineers at ward level has even caused much issue.
- 4. Six new NRA approved low cost housing designs (DUDBC/HRRP)**
DUDBC DE, Dilip Bhandari mentioned about newly approved low cost housing designs and its implication into field. These low cost designs will surely benefit beneficiaries of the quake. NRA, who has developed a design of cost effective model houses keeping in mind the rural belt of earthquake-hit districts. A two-room building could be constructed at the cost of Rs 292,000 as per the new design. According to the new design, one-storied quake-resilient house made up of stones, clay and cement could be constructed. The victims can construct houses as per their choice on design.

Miscellaneous Items / AOB:

Decisions Made:

- Continuation of technical assistance from all partner organizations within the district.
- Understanding of all 17 designs from NRA and additional designs.
- Conduct exceptional and correctional manual orientation to all partner organization technical staffs in support and collaboration of POs, HRRP and government.
