

 **BUILD**
  **UP**
 **NEPAL**

Major activities and outputs

Activities:

- CSEB and Stone Enterprise Development in Rural Nepal
- Create an entrepreneurial ecosystem in Rural Nepal
 - Create Livelihood
 - Introduce sustainable building practices in the reconstruction process
- Impactful reconstruction by involving all the important stakeholders such as micro contractors, local government, entrepreneur and donor organizations
 - Building support for the most vulnerable
 - On the job training for the locals

Introduction - part

- Coverage Areas
 - Pilot with Practical Action and DFID Nepal
 - Rasuwa and Nuwakot
 - Scale up with Practical Action and DFID Nep
 - Sindhupalchowk, Dhading and Gorkha
 - Other districts
 - 22 other districts including Kaski, Taplejung, Jajrkot, Shyangja, Doti

Our impact until now

Together with our partners & entrepreneurs

Reconstruction started in
130 villages

1550 Jobs
created in rural areas

1155 Homes
Rebuilt in 27 districts
Includes schools and community
buildings.

6000 ton CO₂
saved compared to the
use of fire bricks

Enterprise Development- CSEB

Types of Enterprises	No.	Total number of houses planned/ built	No. of Schools/ Public buildings	People trained	Jobs created		
					Male	Female	Total
Commercial	22	1299	38	1252	1245	476	1721
Subsidized	38						
NGO/ INGO	54						
Total	114						

Enterprise Development-Stone

Types of Enterprises	No.	No. of Targeted Houses	No. of Houses built	No. of Employment		
				Male	Female	Total
Subsidized	4	14	2	19	4	23

Major outcomes

1. Increase in demand of CSEB
2. Growth in faith on CSEB
 - Cheap machines can hamper the market growth
 - More regulation from government
 - Design Guidelines for CSEB
3. Increased demand of bigger stone machine
4. Increase in the number of masons
5. Sustainable development

Coordination and Collaboration (major activities and outputs

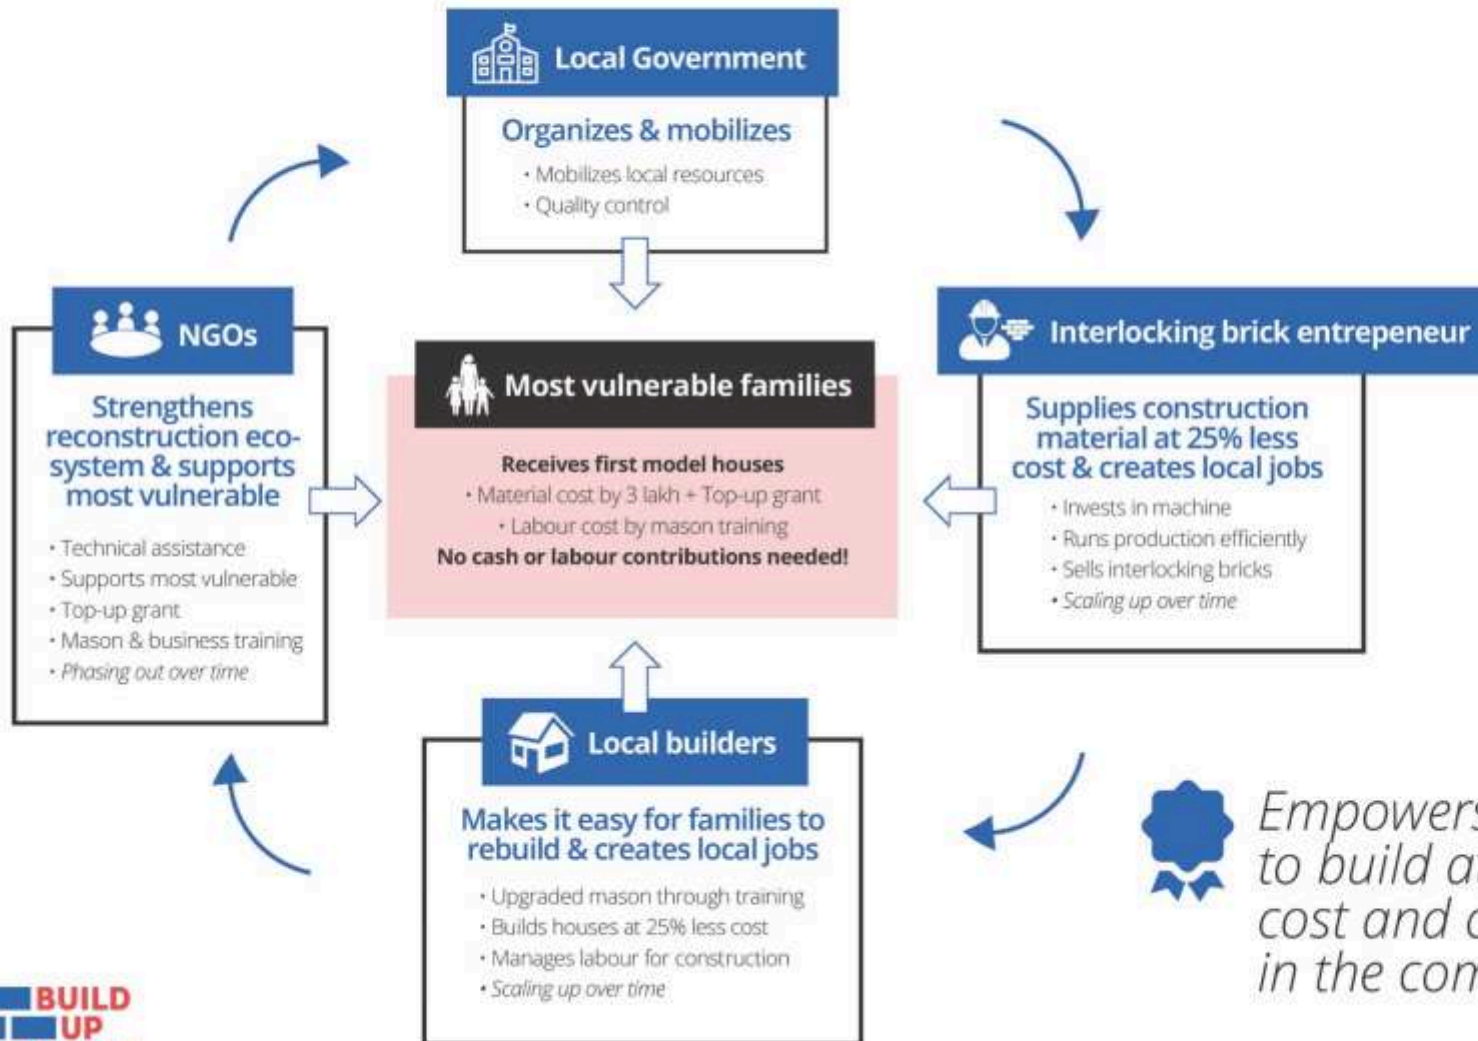

1. Implementing partner with Practical action for DFID's "Strengthening the Supply Chain of Construction Materials" to ensure the timely supply of construction material at competitive price
2. Implementing partners for Samaritans Purse, Rayleigh, OXFAM, Tibet Relief Fund and many others
3. Partnering with Private firms like CG, B and R lawyer firm (Sweden)

Target vs achievement

Plan Expected Output	Progress status	Main Outputs
1: Support each enterprise with Business and technical training for scaling up quality CSEB for the use in construction		
2. Work on demand side	Started advertisements	We want the house owners to get involved in QC. We want to incentivize masons/ house owners to encourage them to build with CSEB in rural Nepal
3. Involve important stakeholders	Started coordinating more closely with CLPIU/ DUDBC and NRA	Information exchange and get in touch with them to set up chambers/ society for CSEB for more regulated outcome
4. More trainings for NRA/CLPIU	Engineers recommendation can work in demand	Every engineer should be able to recommend CSEB for the house owners and for that there should be no doubt amongst themselves

Developing the reconstruction eco-system

Allowing the most vulnerable to rebuild at minimal cost

Empowers all families to build at 25% lower cost and creates jobs in the community

Success Stories- Jeewan Adhikari, Chanaute, Gorkha

CSEB Entrepreneur and contractor

Success Stories- Parbati Sunar, Charaundi, Dhading)

Success Stories- Santa Tamang, Semjong, Dhading

Success Stories- Kamal Thapa, Ramati, Nuwakot

Issues and Challenges

Issues and challenges	Proposed action to be taken
Many houses DPC already done	Modification to be made on the design
Lack of drawings	Architect and draftsman working on them
Power issues	Introduction of alternative means such as solar power
Untrained govt. officials	Trainings in every district
Lack of local resources	Training of the local engineering firms and architects
Lack of awareness amongst the engineers/ Architects	Capacitating the DLPIU architects and engineers

Work - Plan

S.N.	Activities	April-June	July-Sep	Oct-Dec
1	Setting up new enterprises	5	4	5
2	Business training (District wise)	3	2	2
3	Mason training	7	12	12
4	District offices	1	1	1
5	Promotion in the :Local media	9 times/ day	9 times/ day	9 times/ day
6	Engineers training	125	175	175
7	Support to scale up existing entrepreneurs	3	5	7
8	Reach Gau-palikas	90	90	90

Work – Plan-Stone

S.N.	Activities
1	Start 5 more enterprises that have already been signed
2	Mobilize in districts particularly Gorkha and Dhading
3	Conduct more demonstrations

Healthpost in Jyamrung which is generating a lot of interest for CSEB in the area

Many people in Ghyalchowk, Gorkha
feel CSEB is the way to go forward

Capacitate masons and local communities
