

Main event of 43rd Social Service Day was marked on 22 Sept. 2022 in Kathmandu which was inaugurated by Rt. Honorable Prime Minister of Nepal, Mr. Sher Bahadur Deuba. PM Deuba thanked the national and non-governmental organizations for being development companions of the government while conducting social welfare based programs. PM Deuba lauded the roles of NGOs and INGOs in bringing helpless and socially and economically backward communities to the mainstream of development.

KEY HIGHLIGHTS

- i) Government of Nepal marked the presence in APMCDRR 2022; whole of the society approach is adopted by government to assure effective disaster risk reduction and management
- ii) 43rd Social Service Day marked: PM Deuba appreciated non-governmental organizations for taking roles of development companions
- iii) Country Climate and Development Report for Nepal underscores emphasizes investing in green resilient and inclusive development
- iv) 15th Executive Committee Meeting of NDRRMA; approved disbursement of funds to local levels affected by floods and landslides
- v) Heavy rain triggers landslide and flash floods in many districts; causing affected people's lives turned upside down
- vi) E-Learning platform prepared by NDRRMA to boost knowledge on disaster risk reduction and management
- vii) Interactive workshop on GEDSI Integration in DRRM were organized
- viii) Launch of Project on Achieving Low Carbon and Resource Efficiency in Nepalese Building Designs and Constructions
- ix) Training on designing climate resilient sustainable urban infrastructure
- x) NDRRMA completed Technical MToT on BIPAD Portal Localization

NATIONAL UPDATES

Government of Nepal marked the presence in APMCDRR 2022; whole of the society approach is adopted by government to assure effective disaster risk reduction and management

Hosted by the Australian Government and convened by the UNDRR, the 2022 Asia-Pacific Ministerial Conference on Disaster Risk Reduction ([APMCDRR](#)) was held in Brisbane, Australia from 19 – 22 September. APMCDRR is one of the most important gatherings in the Asia-Pacific to progress disaster risk reduction efforts. The APMCDRR has presented an opportunity for delegates from across the Asia Pacific to showcase and share experiences, action and innovation to help build a resilient future for the region. The conference also represents a final opportunity ahead of the Mid-Term Review of the Sendai Framework for Disaster Risk Reduction (2015-2030) in 2023, to focus on Sendai Framework progress and commitments in the Asia-Pacific Region. The theme for the conference was 'From Crisis to Resilience: Transforming the Asia-Pacific Region's future through disaster risk reduction.'

The Government of Nepal (GoN) also marked its presence in APMCDRR, for which National Platform for Disaster Risk Reduction (NPDRR) has done rigorous coordination to ensure the meaningful participation of all concerned agencies and stakeholders from Nepal. In APMCDRR 2022 position paper, GoN have highlighted on significant progress in policy, set up of institutional structures as well as plans and guidelines at national, sub-national and local level on disaster risk reduction and climate change management. The position paper further elaborates on progress in vulnerability and risk assessment and mapping of different hazards like earthquake, landslides, and floods. Integrated database systems such as DRR Portal, BIPAD Portal, Integrated Health Information Management System and Integrated Education Management Information System are in place. Access the detailed [APMCDRR 2022 Nepal Position Paper](#)

43rd Social Service Day marked: PM Deuba lauded roles of NGOs as development companions of the government

Main celebration event of 43rd Social Service Day was marked in Kathmandu which was inaugurated by Rt. Honorable Prime Minister of Nepal, Mr. Sher Bahadur Deuba. The Social Welfare Council has organized a programme at Bhrikutimandap premises on 22 Sept. 2022, driven by a theme of "National Campaign for Achievement of Sustainable Development and Periodic Goals, the Contribution of the Association for the Building Inclusive Society".

PM Deuba addressed the event by expressing social service as one of the means of bringing suppressed and helpless communities to the mainstream of development and could carry out social transformation. PM Deuba underlined the need for collaborative efforts between the government and non-government organizations to achieve sustainable development goals and periodic goals. He insisted organizations for the proper management and transparency of investment while being inclusive towards poor and marginalized communities and urged to reach the unreached places in remote rural areas and emphasized financial transparency. He further said that the necessity and presence of NGOs would be increased if NGOs could promote people's participation, sustainability, austerity, and maximum utility of locally-based labor, skill and technology while launching their activities. In Nepal, Social Service Day is observed every year commemorating the establishment day of the Social Welfare Council. Access detail news: [Social Service Day](#)

Country Climate and Development Report for Nepal underscores emphasizes investing in green resilient and inclusive development

On 15 September 2022, the World Bank released a Country Climate and Development Report (CCDR) of Nepal, which is the first of its kind in South Asia. Keeping in mind the worsening impacts of climate change in Nepal, the report recommends four main pillars in which Nepal should invest under a green resilient and inclusive development (GRID) framework.

- i) Firstly, improving systemic resilience of rural landscapes including food, freshwater and forest systems will be crucial to boosting adaptation, livelihoods and food security, says the report unveiled in Kathmandu.
- ii) Secondly, harnessing Nepal's significant hydropower opportunities as the means of clean and alternative energy is essential.
- iii) Third, managing urbanization and environmental quality to build resilience and improve health is of importance, says the report.

- iv) Finally, the fourth pillar the report outlines is investing in low-carbon and resilient connectivity, particularly road networks, to improve Nepal's growth and services.

In order to sustain progress in these four areas, the report outlines three key enablers: scaling up finance by partnering with private sectors, strengthening household and community resilience, and strengthening governance for climate change and disaster risk management. 15th Executive Committee Meeting of NDRRMA; approved disbursement of funds to local levels affected by floods and landslides

The 15th Executive Meeting of NDRRMA approved the release of funds from the Disaster Management Fund for emergency protection work in four local levels that have been severely damaged by monsoon-induced floods and landslides this year and last year.

In a meeting held on 2 Sept., the executive committee chaired by Minister of Home Affairs (MoHA) have approved to provide 30 million 14 lakh 68 thousand rupees from the Disaster Management Fund to Belaka Municipality of Udayapur district, Pyuthan

Municipality of Pyuthan district, Palungtar Municipality of Gorkha district and Ganyapadhura Municipality of Dadeldhura district that were affected by flood and landslides from monsoon of this year. The authority has done a detailed assessment and geological study of the monsoon induced damaged areas in coordination with various agencies. The meeting has also approved the disbursement of 64.5 million rupees from the MoHA to the District Disaster Management Fund of various districts from 28 January 2022 - 16 July 2022. Likewise, the meeting has also approved NDRRMA to formulate "Earthquake Affected Private Housing Reconstruction and Rehabilitation Subsidy Procedures" for the reconstruction, rehabilitation and rehabilitation of private housing affected by last year's earthquake and directed the Authority to submit in the next meeting. Minister. Access detail news: [15th Executive Committee Meeting of NDRRMA](#)

Heavy rain triggers landslide and flash floods in many districts; causing affected people's lives turned upside down

Heavy monsoon rain has triggered several landslides and floods in Achham district in Sudurpaschim Province on 17 Sept. 2022, that have caused 23 people in Achham district alone to lose their lives while at least leaving other 10 people critically injured (bipadportal.gov.np data as of 20 Sept).

Heavy rain has also caused some flooding in areas of Bardiya, Kailali and Dadeldhura districts also. According to NDRRMA, there were at least 5 severe landslides across the municipalities of Dhakari, Kamalbazar and Turmakhad Rural Municipalities of Achham which is about 100 km south of Darchula district which saw deadly landslides earlier this month. Several of those injured were airlifted by a military helicopter to provincial hospital at Surkhet for treatment while other minor injured people were treated in different local and district level hospitals. Over the last few days landslides have occurred in the districts of Baglung, Myagdi, Sindhupalchowk, Dailekh, Kailali, Surkhet and Rukum West, causing material damage but no loss of life. On 15 Sept., 3 people died in a landslide that struck Bethanchowk Rural Municipality in Kavrepalanchowk district. Local media speculated that the landslide was caused by mining in the area. Meanwhile, following incidents of floods and landslides, Home Minister Mr. Bal Krishna Khand has directed the concerned administration and security agencies to immediately manage treatment, and launch rescue and relief efforts for those affected by flooding and landslides in various districts. Stating that the government is committed to saving people's lives, Minister Khand also directed the use of helicopters as per the need for the efforts. News source: [NDRRMA and several other news sites](#)

E-Learning platform prepared by NDRRMA to boost knowledge on disaster risk reduction and management

NDRRMA's e-learning digital platform is primarily targeted to enhance the knowledge and skill-based capacity of NDRRMA officials and its extended team at federal, province, district and local government along with targeted to include non-government agencies working on Disaster Risk Reduction and Management. The courses are focused on DRRM thematic areas and GESI. These capacity development training modules and sessions on DRRM have been prepared for the digital e-Learning platform to be integrated with BIPAD Portal. The modules and sessions are drawn largely from three key documents; Disaster Risk Reduction National Strategic Plan of Action 2018-2030 prepared by MoHA, Disaster Risk Reduction and Management Act 2017, and Sendai Framework for Disaster Risk Reduction 2015-2030. Access detail news: [NDRRMA e-learning platform](#)

Interactive workshop on GEDSI Integration in DRRM were organized

A two-day capacity-building workshop on "Gender Equality, Disability & Social Inclusion (GEDSI) Integration in Disaster Risk Reduction and Management" was organized from 14-15 Sept. by NDRRMA and supported by NHSRP/CRS-Nepal with the objective of integrating

GEDSI in the eight identified priority areas under DRR National Strategic Plan of Action (2018-2030) and National Disaster Resilience Framework 2030. The workshop largely focussed on i) to discuss various aspects of GEDSI integration approaches, tools, and techniques in DRRM and ii) to strengthen NDRRMA GEDSI strategic action plan implementation, monitoring & evaluation through tracking progress to address challenges at all levels. Joint Secretary of NDRRMA and Chair of the GEDSI Working Group, Ms. Anita Niraula highlighted the 8 key priority areas and stated the beginning of the process of GEDSI integration in DRRM along with the drafting of GEDSI Strategic Action Plan 2022 to advance in the pathway from risk to resilience. The discussions in this workshop were facilitated by Ms. Sharu Joshi Shrestha, Senior GEDSI Consultant. The members of the GEDSI Working Group, GoN Sectoral Line Ministries represented by SWC, MoFAGA, MoHA, along with staff members of NDRRMA, NHSRP, National Federation of Disabled -Nepal (NFDN), a representative from the British Embassy (UKAid) including AIN organizations represented by PIN, Plan International, CARE Nepal, CRS Nepal participated in the workshop.

Launch of Project on achieving low carbon and resource efficiency in Nepalese building designs and constructions

Minister for Urban Development (MoUD), Mr. Met Mani Chaudhari and EU Ambassador to Nepal, H.E. Nona Deprez, jointly inaugurated the project “Building Energy Efficiency in Nepal (BEEN)”, which is supported by the European Union. This EU investment aims to support Nepal in achieving low-carbon and resource-efficiency in the Nepalese building designs and constructions. Addressing the project launch, Ambassador Ms. Deprez said, “The

Building sector in Nepal is the largest energy consuming sector, hence decarbonizing the building sector will be a key for Nepal to achieve its net-zero greenhouse gas emission target by 2045. The EU-funded Switch Asia Project is implemented under the leadership of University of Innsbruck, Austria in consortium partnership of MinErgy Pvt Ltd-Nepal, Greentech Knowledge Solutions Pvt Ltd-India and Asociación Española de Normalización-Spain (UNE). BEEN projects were also shared to the Department of Urban Development and Building Construction (DUDBC) team which will be the key government stakeholder for the formulation, planning and implementation of green building guidelines and codes in Nepal. Access more: [launch of BEEN Project](#)

Training on designing climate resilient sustainable urban infrastructure conducted

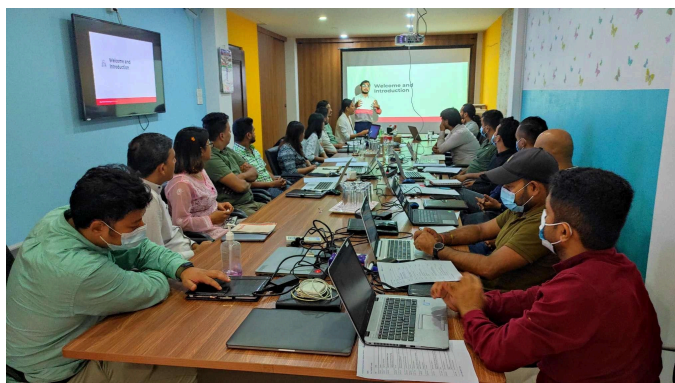

A two-day long training on “Advocating climate resilient and sustainable urban infrastructure” was conducted from 14-15 Sept in Kathmandu that aims to minimize the impact of natural disasters and to strengthen climate resilient infrastructure at the local level. A total of 30 officials including municipal engineers and chiefs of the Departments of Environment from 15 municipalities of seven provinces are participating in the training organized by Town Development Fund (TDF), under the EU supported Municipal Finance and Capacity Building (MFCB) Programme. This training event was one of the important workstream of the 4 yearlong MFCB program that began in January 2019, and has been providing technical assistance to enhance the capacity of municipalities and the TDF to nurture local economic development through blending financing. Two-days long training was targeted to scale up the capacities of municipal officials to design action plans for mitigating climate change impacts through designs of sustainable infrastructures. The technical sessions that range from weather and climate, climate resilient infrastructure to disaster risk reduction and urban health, and resource efficiency are being facilitated by Climate Change Experts, Dr. Ashok Kumar Pokharel and Dr. Ngamindra Dahal. Access more: [TDF-MFCB programme](#)

NDRRMA completed Technical MTot on BIPAD Portal Localization

5-days Master Training of Trainers (MTot) on “BIPAD Portal Localization” were conducted from 1- 5 Sept. in the leadership of NDRRMA with technical support from NHSRP and YI-Lab, concluded with graduation of 16 youths represented from NDRRMA, Mercy Corps,

PIN, Habitat for Humanity, NSET, CRS-Nepal, Caritas Nepal and NHSRP. The trainees underwent walk-through on using BIPAD Portal, collected field data from nearby locations, connecting the portal with Tathyanka App etc. were among the brainstorming exercises during the training. This Portal is developed in the coordination of steering committee and technical committee from 11 ministries and departments and hosted on the Government server. The Chief Executive of NDRRMA stressed on the need to conduct such capacity building initiatives more often and cascade down at the provincial and local level maximizing the knowledge, skill set and act as an extended arm of NDRRMA to ensure informed decision-making process for disaster risk reduction and management at all levels of the government.

PARTNERS' UPDATES

Sharing of Urban Recovery Strategy Paper

One day workshop was organized on 28 Sept. by NHSRP-CRS regarding “Urban Recovery Strategy Paper” in presence of representatives from Ministry of Urban Development (MoUD) and Kathmandu Valley Development Authority (KVDA), CRS, NHSRP, NSET and concerned experts. The participants expressed their feedback regarding the adoption and implementation of the report by MoUD. Joint Secretary-MoUD, Mr. Koshnath Adhikari, Development Commissioner of KVDA, Ms. Januka Dhakal and Deputy Development Commissioner Mr. Nabaraj Pyakurel appreciated the hard work on preparing the report and suggested for its wider consultation.

Disability Inclusive DRR were emphasized during preparedness activities and in disaster response too

Attulya Foundation has completed the two-day conference on "Accelerating Inclusive DRR: Multi-Stakeholder Conference on Disability Inclusive DRR (DiDRR)" from 6-7 September. The conference was organized by emphasizing on connecting stakeholders and organizations of People with Disabilities jointly in advocating for inclusive disaster risk reduction measures to be forwarded during preparedness activities as well as in the periods of disaster response. During the conference, Nepal Government, and the MoHA took ownership of the "Disability Inclusive Get Ready Guidebook" in English, Nepali, and Braille. The guidebook has been prepared to minimize the loss of life and property of persons with disabilities due to disasters.

This conference was instrumental in identifying issues related to DiDRR, exploring existing scenarios and progresses in DiDRR, exploring emerging gaps, and paving the way forward.

Several plenary sessions were organized involving representatives of organizations of People with Disabilities and people from various walks of life that have contributed in interventions for People with Disabilities and government. These discussions shed light on DiDRR issues and also identified existing challenges and constraints, both structural and non-structural, as well as their underlying causes and possible solutions.

The conference was conducted with the support of the MoHA and USAID TAYAR Nepal-Improved Disaster Risk Management Project which were participated by representatives from different disability organizations. Access here: [DiDRR Disability Inclusive Get Ready Handbook](#)

Continuation of DRRM Localization Manual Training in local units

Training on [Disaster Risk Reduction Management \(DRRM\) Localization Manual](#) targeting the entire 753 local bodies of 7 provinces, elected representatives and municipal staff were continued in various Palikas on different dates of September 2022.

This DRRM training has been conducting under “PARIWARTAN Project” as part of IOM Nepal’s technical assistance and USAID Nepal’s support to Ministry of Federal Affairs and General Administration (MoFAGA) Nepal and implemented by Lutheran World Federation-LWF Nepal, Practical Action and consortium led by NSET.

Humanitarian support were forwarded to floods and landslides affected people in Sudurpaschim province

Caritas Nepal and its local partners have supported nearly, 10000 families that were facing humanitarian crisis after the flash floods and landslides occurred in Darchula, Accham, Kailali, Kanchanpur, and Bardiya districts. Humanitarian assistance included rapid response by providing food relief support with Rice (40 qtl), Lentils (6 qtl), Oil (200 ltr) & Salt (100 kg) and established emergency community kitchen program in Rajapur Municipality, Bardiya district and Bhajani Municipality, Kailali district. Due to the support by Caritas Nepal, nearly 5350 people are getting access to two cooked meals through 7 community mess centers in coordination with Bhajani and Rajapur Municipalities.

Similarly, CARE Nepal in collaboration with the District Disaster Management Committee (DDMC), local government, security forces, NDRRMA, NEEDS Nepal and Community Rural Development Society (CRDS), launched an emergency response to distribute urgent needs like ready to eat and cook foods to 89 families. The

shelter of these affected families were either completely collapsed, partially damaged and some were on the verge of collapsing due to monsoon induced devastating floods and landslides in Mahakali Municipality and Naugad Rural Municipality of Darchula. Shelter kits, dignity kits, hygiene kits were also distributed to 135 families with pregnant women, lactating mothers, infants, people with disability and elderly people being the main focus of the support.

Panel session held by NHSRP to discuss over localization of DRR activities

NDRRMA in joint coordination with NHSRP has organized a 4-days team-building workshop (6-9 Sept.) to review and reflect on its work priorities aligned with National Strategic Action Plan for Disaster Risk Reduction (2018-2030) including to strengthen its strategic partnership and collaboration with partners for robust and harmonized coordination mechanism at all levels of government. During closing a panel discussion was held with representation from various institutions, organizations and partners, where the panel members highlighted the scope of work for NHSRP as well including localization of DRR activities to strengthen multi-disaster housing recovery and reconstruction functions at national and provincial levels.

Flood Resilience Housing Solutions Working Group Meeting

The problems of flooding and inundation in the Terai are more critical due to change in climate in general and change in the rainfall pattern/ intensity in particular. To find the best possible housing reconstruction solution to combat flooding in Terai, an effort was put forward by NHSRP for compilation of flood resilience design of houses by exploring the best practices and best learnings from the partners and proposed few flood resilience design options to NDRRMA. The future direction is to update the 'monsoon induced disaster affected private housing reconstruction and rehabilitation operational procedure', adding more clarity on flood inundation impact and support for reconstruction and recovery. Some expected steps ahead for flood resilience design compilation support are – connecting and teaming up with interested partners to share their experiences and document guidance related to flood resilience designs & best practices; conduct desk review on probable flood resilience designs; networking with other experts; formation of working group and regular meetings and develop design options based on partners learnings.

Cash and voucher assistance program conducted to add value in future humanitarian assistance

Under the Youth and Women Leadership for Community Resilience and Humanitarian Action Project; ActionAid Nepal, and its implementing partner Kamaiya Mahila Jagaran Samaj (KMJS) has conducted two days training on Cash and Voucher Assistance Programme in Rajapur of Bardiya district dated 8 - 9 Sept. The objective of this training was to build up the capacity of local stakeholders for successful planning, implementation, monitoring of the programme and preparedness of it in the future humanitarian programme. There was participation of local elected representatives, government officials, youths from Yuwa Bakheri and members from community disaster management committee (CDMC). Similarly, a workshop on sharing reports of loss and damage of Rajapur Municipality was facilitated by KMJS on 15 Sept. The study was done by some research students working on compiling loss and damage by monsoon induced disasters.

Lessons of Resilient Communities Initiatives shared

Lessons of Resilient Communities Initiatives shared in an event jointly organized, on 25 Sept. by Ministry of Federal Affairs and General Administration (MoFAGA) and NSET in Kathmandu under USAID/BHA supported "Mero Surakshit Gaun" (Technical Support for Resilient Communities-TESREC) program. Speakers emphasized the need to scale up the efforts towards building resilient communities in Nepal. More than 100 participants including representatives from Federal, Provincial and local governments, I/NGOs, development partners, civil society organizations & DRR professionals joined the sharing event.

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM BAGMATI

"Shelter Contingency Plan of Bagmati Province 2079" was prepared through technical assistance of NHSRP, coordinated by Senior Divisional Engineer-Ministry of Physical Infrastructure Development (MoPID), Bagmati Province, Mr. Naveen Kumar Singh. An eight-members working group was formed in leadership of the MoPID. Dated 28 Sept, "Shelter Contingency Plan of Bagmati Province 2079" was handed over to the Ministry of Internal Affairs and Law by MoPID. NHSRP has been thanked and appreciated for the technical support to develop the plan.

UPDATES FROM GANDAKI

A Socio-technical inspection and Geo-technical assessment of 36 resettlement beneficiaries located in Ward no 8, 13 and 14 at Waling Municipality, Syangja district has been completed during 16-19 Sept. That was recommended from the local level for the next level of resettlement. This assessment has been carried jointly through coordination between NDRRMA, DAO Syangja, Waling Municipality and NHSRP Gandaki Province team. Geo hazard assessment was also carried out in Ward no. 7, Dordi Rural Municipality, Lamjung district where a heavy landslide hit the Majhkhark area has directly affected one secondary school, healthpost and 12 households And above 200 households were affected due to the blockage of the road network as well. The assessed

areas were found to be geographically vulnerable from landslides. The displaced beneficiaries have shifted to nearby safe areas and some have already purchased land for reconstruction too. The Gandaki team also provided release of first tranche in Marsyangdi Rural Municipality. 68 beneficiaries received their first tranche on Land Purchase, 68 beneficiaries received their first tranche on Resettlement and 18 beneficiaries received their first tranche on Reconstruction through Reconstruction MIS system at Marsyangdi Rural Municipality.

UPDATES FROM LUMBINI

NHSRP Lumbini Provincial team have conducted gap assessment in fourteen local units of Rupandehi district and with some private sectors and educational institutions too. Crucial information such as availability of skilled human resources, fund allocation and availability of DRR related policies & plans were assessed. Majority of palikas have DRR fund mobilization guidelines while only some of them have DRR policies and guidelines as well. It was revealed that engineering consultancies are mostly involved in designing of the houses and a handful of them have good knowledge on the building code however many of them rely mostly on municipalities bylaws while designing the building drawing. The team also provided support to Rampur Municipality, Palpa district for collection of primary data of households affected by monsoon induced disaster starting from the past two years back (from 2020 July onwards till date). Rampur municipality has requested for the Orientation on relevant NDRRMA guidelines to support monsoon affected households.

UPDATES FROM PROVINCE 1

NHSRP Province 1 Team has conducted Gap Assessment in 8 municipalities including Morang and Sunsari districts using the standard Kobo form for gap assessment. Remaining assessment will be completed by the end of September 2022. Similarly, the team has carried out Stakeholders Mapping at province and at palika level (both governmental and non-governmental bodies) which will

further help to identify the like-minded organizations/stakeholders at the province who will directly or indirectly be involved in the entire cycle of the NHSRP's initiatives. On top of this, an initial preliminary meeting with Province 1, Ministry of Road Infrastructure and Urban Development has been fruitful to discuss the preparation of a contingency plan for the province.

An introductory program chaired by the Minister for Internal Affairs and Law, Province no. 1, Mr. Kedar Karki, was held on 21 Sept. During the program, the overall goal, vision, mission and objectives of NHSRP along with its engagement plan with the Province no. 1 and municipalities were presented. The Ministry provided guidance on the way forward for the implementation of the activities during the program.
