Summary	Co-ordination meeting with CARITAS-Nepal was conducted for smooth transition of data in to 5W. This event was solely conducted so that CARITAS can show its progress made in the sector of WASH, Livelihood, and Protection which it has been conducting as a part of post-earthquake assistance in Sindhuli. However, due to lack of co-ordination with HRRP their presence was not	

felt in the district. As of now, HRRP took the initiative of making an approach to our Partner Organization and the were more than happy to learn about the 5W and after consulation with the headquarters have agreed to provide 5W data to HRRP from August.
