Working in Cluster Approach

Date:- 2018/06/14

Cluster Approach

- **Aarma Parma**
- **Community people working together for their common Benefit/Goal**

Common practice in Nepal for Aarma/Parma

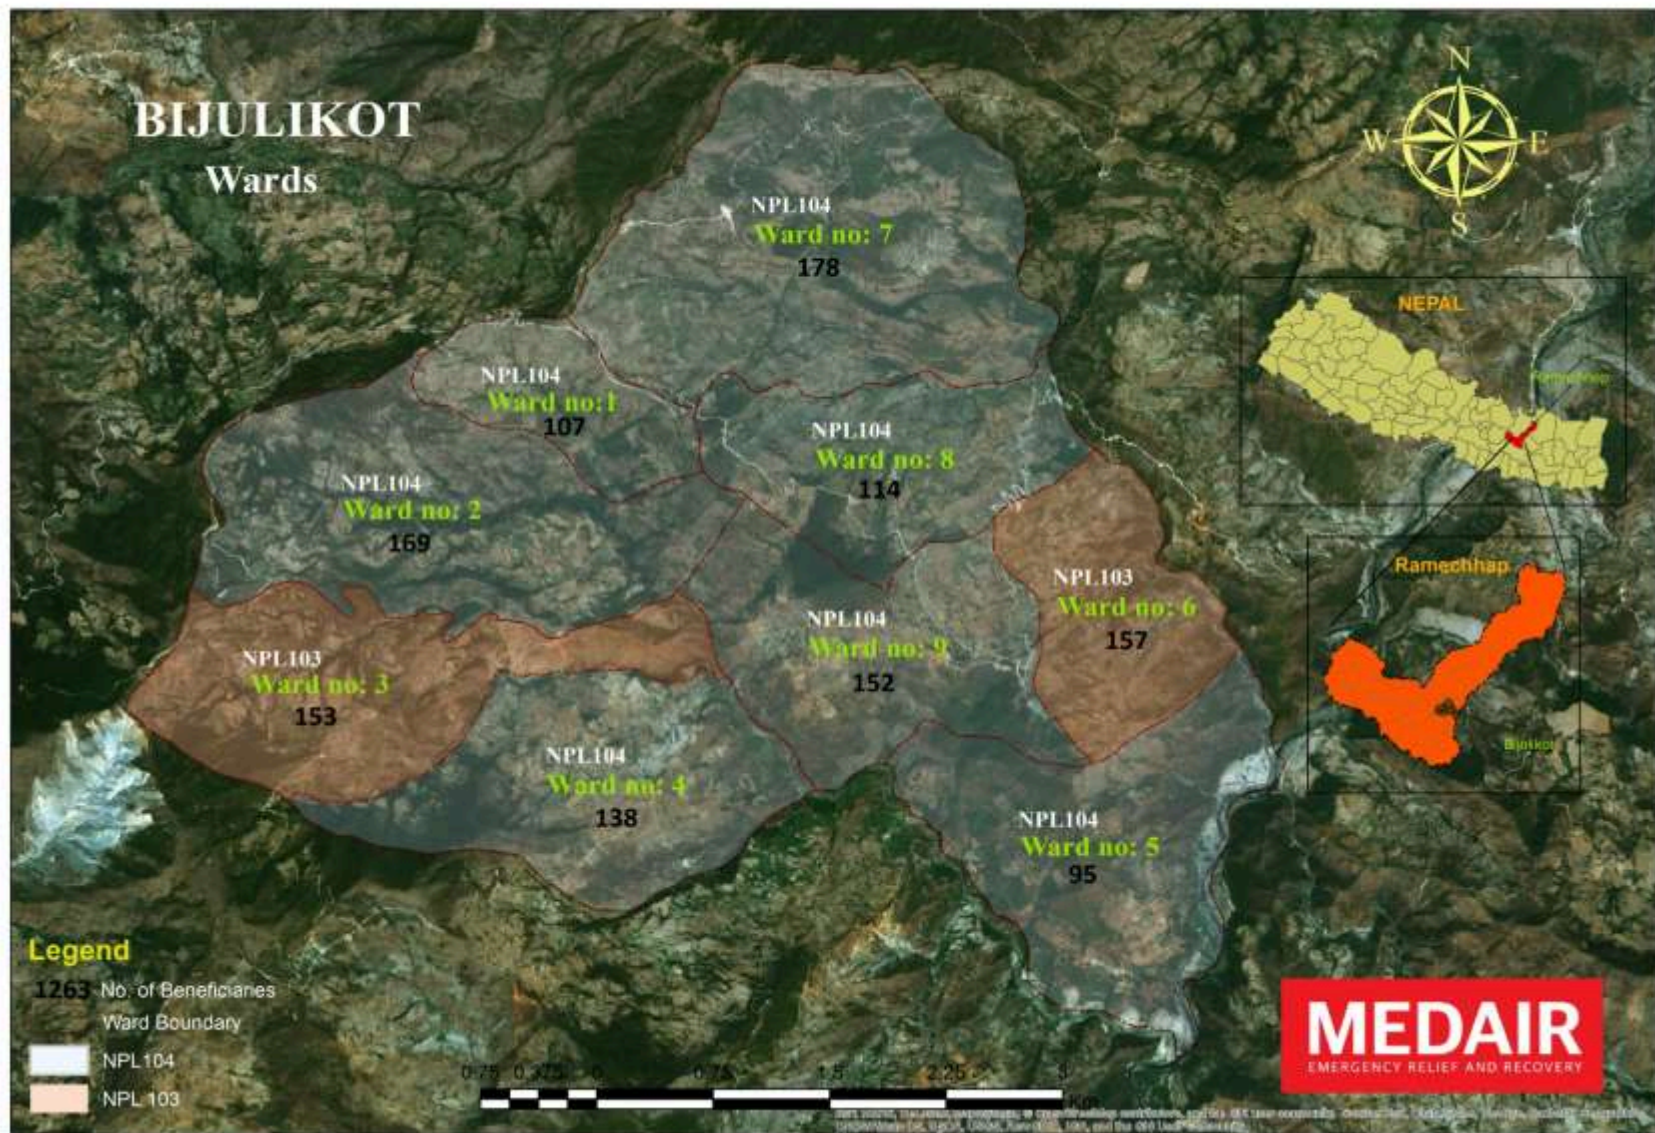

Necessity ?

- Complete reconstruction process in stipulated time frame
- Manage their cost saving of unskilled mason
- Develop sufficient mason for reconstruction (labour-semi skilled-skilled mason)
- Ownership feeling

Necessity ?

- **Creating communal harmony**
- **Support for vulnerable people through community members themselves**
- **Transfer of Knowledge (One-One)**
- **Positive Competition between clusters**
- **Empowerment among community members**

Where we work ?

Formation

- 7-10 HHs from their locality
- Each HHs members to join on cluster
- Support In demolition of their cluster house
- Support In reconstruction of their cluster house
- Orient them on social harmony and benefits of working in cluster

Formation of Clusters

Support them

- **Provide them safety PPE and toolkits**
- **Orient them in proper demolition and**
- **Supervise their works**
- **Provide Guidance in Starting their Reconstruction Works (layout, foundation, Plinth band)**
- **Train and coach them to become a skilled manpower**

Cluster member in Demolition

Cluster member In Reconstruction

Cluster member In reconstruction

Cluster member in reconstruction (added masons for specific job)

Some Examples

Some Examples

Some Examples

Advantage (Financial)

Converting Labour Charge in Money

Almost 25000 Per HHs in Demolition

Reconstruction:-

More Than 70000 Saving on Unskilled Manpower
