

BaliyoGhar Program Activities at Dolakha District

BaliyoGhar Program is providing technical blanket assistance at district and local level through and Local Reconstruction Technology Center (LRTC), whereas District Reconstruction Technology Center (DRTC) is providing the technical assistance at Municipality and also supporting the respective LRTCs.

BaliyoGhar Program Activities in 13 VDCs and 1 Municipality

To support the reconstruction program at Dolakha District, NSET-BaliyoGhar Program is being run at 13 VDCs namely, Laduk, Lamidanda, Alampu, Chilankha, Bigu, Babare, Magapauwa, Katakuti, Malu, Japhe, Jhule, Bhirkot, Chyama along with Bhimeshwor Municipality. All six technical assistance packages are being implementing in all its program VDCS. The results of full package TA is now seen safer and compliance buildings in the program implemented VDCs. The door to door technical assistance shows very effective to encourage beneficiaries to reconstruct their houses with current code compliance. The implemented technical assistance activities based on the NRA guideline line are as follows;

I) Awareness Raising Program:

Awareness is one of the important factors that aware the community people to be safer from disaster and build safer houses. The awareness raising program is carried out through orientation program and information hub. BaliyoGhar Dolakha conducted **105**, orienting **1652** male and **819** female participants about earthquake safety and preparedness.

I.1 Orientation Program

In three months, **105 orientation programs** oriented **two thousand four hundred seventy-one community peoples** at 13 VDCs and 1 Municipality. Basic earthquake safety and preparedness focused orientation covered **one thousand six hundred fifty two male and eight hundred nineteen female participants**. Likewise, the basic components of earthquake resistant building were also briefed during the orientation program.

I.2 Help Desk

BaliyoGhar team Dolakha has established a permanent Help Desk at Bhimeshwor Municipality Office to troubleshoot the problems and guide the house owners/beneficiaries on building permit process. The building permit is a mandatory rule to be followed by the house owner before the construction of houses in Municipality. Likewise, the Help Desk also provides the technical assistance to the house owners through orientations and distribution of IEC materials.

2) Capacity enhancement Program:

As a part of capacity building program **5 Mason ToT**, **4 mason training**, and **1 social mobilizer training** were organized in January, February and March month. Altogether, **157** technical professionals, 136 local masons, 32 social mobilizers enhanced their capacity through the respective trainings.

3) Door to Door Technical Assistance:

The reconstruction of houses has increased rapidly in the second year of reconstruction program. Likewise, the community peoples including the house owners and local masons are in need of technical assistance in safer housing construction. Therefore, BaliyoGhar Dolakha mobile team provided technical assistance at 1055 under construction houses at different level. The mobile teams reached at most of the housing construction site to provide the technical assistance through mobile clinic accordingly. According to mobile team, stone-mud and timber along with zinc-sheet mixed type of houses are under construction at Dolakha Distirct.
