Masons Trained through Short Training

- No masons trained
- <=50 %
- 51 % - 100 %
- 101% - 200 %
- 200 % - 430 %

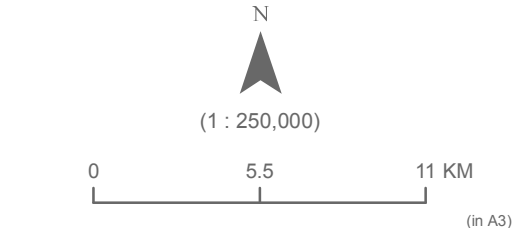

Total trained masons: 6,662
Total masons target: 6,042

Note:

This map highlights the percent of masons trained through 7 days short training curriculum as per HRRP 4W-R34, based on the targets (mason required per HH) defined in ward-level key informant survey conducted in Gorkha district by HRRP in Jan 2016. The survey indicates how many existing masons per HH are there and assuming all the existing masons should be trained through the 7 day training. However, please note that an official target for the short training is still absent from NRA. Further, the labels in the map (Example: Batase- 13) means that 13 more masons should be trained as per target in the respective VDC/Municipality.
