To include details of upcoming events and meetings in the next bulletin, please share details with reshma@hrrpnepal.org by COB Wednesday of each week.

Field Visit Report

Date	Location	Participants
8 th March 2018	Bhumlu Gaupalika (Chaubas, SalleBhumlu, Bhumlutar)	HRRP Kavre (Ishor Neupane, Reshma Shrestha)
Objective(s)	- To conduct HRRP Survey on Women in Reconstruction - To collect possible housing reconstruction updates during the survey	
Summary	The field visit was basically targeted to conduct the survey on Women in Reconstruction, Mason. In coordination with HELVETAS, the visit was planned as Vocational Trainings have been conducted by the PO. During the survey, masons at the frontiers working as contractor, head masons, supporting masons and some masons who were unable to continue as masons were interviewed. At Bhumlutar, two temporary local brick kilns were visited. Both with the capacity of 35,000 productions per batch fire the kiln twice a year. The bricks are sold locally at NPR 12. Local clay is used for the bricks. Bricks are sun dried for at least 3 days and piled in layers with fuel (coal, timber, hopped straw) at regular intervals. To seal the kiln, 4-5 courses of refractory bricks are laid and topped with mud. The kiln is burnt for 24 hours and left to rest for a week.
