Field Visit Reports

Date	Location	Participants
12 January 2018	Bagmati Rural Municipality, Lalitpur	- Chief, Bagmati Rural Municipality - Ward Chairpersons, Bagmati Rural Municipality - Ward secretaries, Bagmati Rural Municipality - NRA, Lalitpur - DCC, Lalitpur - Engineers, DLPIU-MOUD - Women user group - HRRP
Objective(s)	- To orient local elected bodies about the principles of the reconstruction and tranche distribution. - To notify the roles and responsibilities of various governmental institutions in the reconstruction process. - Grievance management	
Summary		

Orientation and interaction program to the local bodies on the reconstruction was organized by EHRP-MOFALD at Bagmati Rural Municipality. The program was mainly targeted to the ward chairperson, ward secretary regarding the current reconstruction work and its principles, the government guidelines and policies and roles of various government institutions. The program began with brief background of the earthquake history in Nepal and the census of the damaged due to such events including 2015 Gorkha Earthquake. The session was led by Yamnath Giri, Monitoring and Evaluation specialist, EHRP-MOFALD and Sarita Maharjan, District Coordination Committee (DCC), Lalitpur. The orientation sessions included the reconstruction updated including tranche distribution of Lalitpur district, Institutions involved in reconstruction and their roles and responsibilities, Grant agreement and distribution process and grievance management. The orientation mainly focused on the role and responsibilities of the local elected bodies to fulfill the objective of the reconstruction with the slogan of build back better.

The roles of the local bodies were highlighted as follows:

- Identification of the beneficiary and avoid duplication.
- Grievance management, grant agreement in coordination with DCC.
- Supervision and evaluation of the technical staffs deployed by DLPIU for the effective work and see that technical assistance have reached all the areas.
- In case of mason deficiency coordination with the other local bodies and municipalities for the provision of the trained mason.
- Coordination with the vendor for the provision of the reconstruction material in their area.
- Monitoring and Evaluation of the reconstruction in their respective area.
- Support in the relocation and resettlement of the people having land in vulnerable area, undocumented land government land, public land as per the government land and provision of additional grant support of NRs. 200,000 to buy land.
- Create awareness in the community for safer reconstruction, government policy for the reconstruction and tranche distribution process.
- The detail of the attendees is given below.

	22	Sweata Sijapati	District Technical Coordinator, HRRP	9861796464
Challenges / Issues Identified		Action Required	Responsible	Timeframe
Though majority of households have received 1 st tranche, reconstruction has still not begun.		Community orientation and awareness program must be conducted in the area to encourage beneficiaries for reconstruction of houses in time. Engineers should also notify the timeframe set by the NRA for those who have already received the 1 st tranche.	Local elected bodies, District NRA, DLPIU deployed engineers	
Majority of the people are living in unregistered land which is delaying the reconstruction process.		Reconstruction in such land should not be promoted and beneficiary should be requested to start reconstruction in other land or buy a land incase no other land are available.	Local elected bodies, District NRA, DLPIU deployed engineers	
People are living in landslide prone are but are still the land are still not survey by the government for the relocation.		With the request from the ward office to district NRA, a team will be send for the identification of such land and relocation of the beneficiary	Local elected bodies	
People are interested to build house in the neighboring district.		Before the reconstruction in the neighboring district were allowed but now only if the beneficiary has as no land or land in the vulnerable area will only be allowed to reconstruct in neighboring district and receive the government grant. So this kind of request from the beneficiaries should not be promoted	Local elected bodies, District NRA, DLPIU deployed engineers

Housing Typology Report

Pikhel ward no 5, Changunarayan Municipality, 2 storey RC structures. The new house has been joined with the old house. The 2nd tranche request has been forwarded to DLPIU Bhaktapur.

Pokharel gaun, Ward no 4, Changunarayan Municipality 2 storey RC structures. Beneficiary has received first tranche.

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
Some of the real beneficiaries have still not been listed in the grant agreement list even after the resurvey and reverification. How can this problem be addressed?	Ward Chairperson	The grievance management is done at three levels among which one is from the ward level comprising of ward chairperson, ward secretary and engineer. The beneficiary can do the grant agreement with the approval from the ward level grievance committee.(EHRP-MOFALD)
People are building houses in different plot number than the one provided during the grant agreement. Are there any provisions for such issues?	Ward Chairperson	People must build the house in same plot provided during the grant agreement unless the land lies in vulnerable area, government land or public land. Beneficiary must be made clear not to do such illegal activities or else they will not be able to receive the grant. (DCC)
In Malta, ward no 2 reconstruction has already began in the vulnerable land. What are we going to address these reconstruction practice?	Ward Chairperson	There is provision for relocation of beneficiaries living in vulnerable land and government also has provision of providing additional grant of NRs. 200,000 to buy land if the beneficiary doesn't have any other land. A request must be made to district NRA from local bodies for the verification and identification of vulnerable land. (EHRP-MOFALD)
Why is their delay in the tranche release?	Ward Chairperson	After the inspection for the tranche, the file has to go through different intuitions such as DLPIU-MOUD, EHRP-MOFALD, which might cause delay in the process but for reducing such hassle, the compliance file will be

Questions Collected

		forwarded directly to EHRP-MOFALD and only non-compliance files will go to DLPIU-MOUD. This will also reduce the time frame for the tranche release. (EHRP-MOFALD)

Challenges and Way Forward

Challenge	Way Forward
Majority of local elected ward representatives of Bagmati rural municipality agreed that the reconstruction process is slow and people have not begun reconstruction.	Beneficiaries must be made aware of the reconstruction deadline set by the government to receive the tranche. Community awareness program must be done and motivate people to begin the reconstruction.
There is duplication in the beneficiary list.	A system should be developed to identify the beneficiaries based on the citizenship number. This will also reduce the chances of mistaking beneficiaries with same name and living in same area.
Some POs have started the work without approval from the NRA.	Such activities should be immediately stopped and notified to the district NRA. It should also be made clear to the POs that there might face legal issue such activities.
