Field Visit Reports (Rasuwa)

Visit 1

Date	Location	Participants
19 august, 2019	Ward no 4, Bidur Municipality , Battar	- Badri Pyakurel, District Coordinator, HRRP-Nuwakot - Manisha Rai, Hub Team- Information Management Officer, HRRP-Nuwakkot - Avimanyu Khadka, Ward Engineer, Bidur-4.
Objective(s)	- To study the retrofitting progress of the ward - Informal meeting with ward engineer for the progress of retrofitting	

Summary of visit.

Bidur Municipality Ward no 4 has 8 beneficiaries. 4 have received the first tranche but any one has not claimed for next tranche. We came to know that any beneficiaries came to the contact of ward office. HRRP team and Ward engineer has visited the two beneficiaries who claimed retrofitting. We found there is lack of information between retrofitting or maintenance. As per the ward engineer, he doesn't find the element of retrofitting and they don't contact technical person before retrofitting.

Name of beneficiary: Govinda Man Dangol. Retrofitted house claimed by beneficiary. Bidur Municipality ward 4. Has received 1st tranche of Retrofitting.	Name of beneficiary: Yam Kumar Khati. Retrofitted house claimed by beneficiary. Bidur Municipality ward 4. Has received 1st tranche of Retrofitting.

Housing Typology Report (Max 4 Photos, Select best photos from each district)

		
Name of beneficiary: Bhoj Bdr Shrestha Address: TAdi-2, Raluka (Before and during Retrofitting)	After retrofitting, Oxfam has supported for the retrofitting. Has received 1st tranche.	

Name of beneficiary: Guni maya Tamang
Address: TAdi-2, Raluka (before Retrofitting)

After retrofitting, Oxfam has supported for the retrofitting. Has received 1st tranche.

Case Story

Awareness is needed for the retrofitting

- Prakash Shrestha (Technical Officer-Engineer, Baliyo Ghar Program, Nuwakot, NSET Phone: 9841815006)

I have been working as a Technical Officer- Engineer in National Society for Earthquakes Technology –Nepal (Baliyo Ghar Program, Nuwakot) since July 2018. Various activities are conducted by Baliyo Ghar Program. One of them is Retrofit Training. I involved in 2 Retrofit training in Shivapuri Rural Municipality-8, Nuwakot and I am preparing for another training in the same area. Before conducting training, lists of retrofit beneficiaries are taken from ward office and their houses are visited. House owner of those houses which are applicable for retrofit are convinced for retrofitting. Then, drawing and technical report of the house are sent to head office. Structural drawings for seismic retrofit of the building is prepared and retrofit training is implemented as per design.

Figure 1: Taking Class during training

Figure 2: Closing of Retrofit Training

Problems/ Challenges of Retrofitting:

Both technical and social problems/challenges were faced in the beginning of retrofitting. Since, retrofitting is new technology, it was difficult to convince retrofit beneficiaries. Because of provision of transferring partial beneficiary to full beneficiary, people having retrofit applicable houses were also participated on that. So, initially no one were interested to retrofit. Moreover, Materials for retrofitting are not available in local level. Technically, it was difficult to continue splint due to obstruction of wooden member.

Problems/Challenges:

Orientation about retrofitting is conducted to aware people having earthquake vulnerable and earthquake damaged house. To achieve positive response on retrofit, continuous co-ordination with local authority and meeting with local authority and retrofit beneficiaries is carried out. Similarly, retrofit beneficiary are taken to retrofit conducting house to make real sense and feel of retrofitting to house owner. Experts on retrofit were called from head office to overcome technical problems.

Conclusion:

Initially, many social and technical problems/challenges were appeared during retrofitting because of new technology. Technical problems were solved by taking advice from experts. Co-ordination with local authority and orientation related to retrofitting is being conducted to control social problems.
