

Meeting on Retrofitting Update

10th December, 2019, HRRP Office, Lalitpur

14:00-15:00

AGENDA

- Recap of the First Meeting
- Sharing of Norms for Rate Analysis (Build change, NSET & UNDP)
- Update on Retrofitting Activities in the districts (HRRP)
- Formalization of the Retrofitting_TWG & discussion on the chair and co-chair to lead Retrofitting_TWG

ATTENDEES

NSET, Build Change, UNDP & HRRP

(Detailed list of participants in the Appendix)

KEY POINTS

UNDP:

- Retrofitted seven houses under the program.
- Adopted splint bandage & CR Technology for the retrofitting.
- Focused on community mobilization and sensitization, IEC and behaviour change activity.
- Major 12 key elements for norms for rate analysis.

NSET:

- NSET/ Baliyo ghar has started retrofitting since 2018.
- GI wire mesh splint & bandage with GI wire jacketing techniques used for retrofitting.
- Under NSET/Baliyo ghar program fifty one model houses have been completed, the two houses are in under construction & four under design
- In all model houses, mason wages are covered from program & material cost covered by the owner.
- In total retrofit cost 47% of labor cost & remaining 53% is a material cost.
- Still challenging in convincing the people in doing retrofitting their own on.

Build Challenge:

- Two approaches in retrofitting
 - o Model house (Full support to house owner)
 - o Homeowner driven approach (70% covered by the program & 30 % by the homeowner)
- Two types retrofitting techniques being used
 - o Strong Back
 - o Splint & Bandage with GI wire Mesh Jacketing/As suggested by the Repair and Retrofitting manual
- The average retrofitting cost for both retrofitting techniques is 400 to 450 Sq.ft
- Under the program total 126 houses have been retrofitted.

HRRP:

- Started data collection of Retrofitting task force
- District level task force in 32 districts (20 DLPIUs covering 32 districts)
- Till date HRRP has collected 1,9617 household surveyed data, among them 4,463 are identified as not feasible for retrofitting & 5,830 beneficiaries have shown no interest in retrofitting

13	Monika Shrestha	HRRP	dmt.im@hrrpnepal.org	9849246349
14	Laxmi Prasad Bhatta	HRRP	techofficer2.national@hrrpnepal.org	9843112569
15	Ruplal Aidi	HRRP	nco2@hrrpnepal.org	9851016930

QUESTION & DISCUSSION

Question 1. Are the retrofitting beneficiaries getting second tranche when supported by PO's?

Answer from build change: Homeowner driven beneficiaries have received the second tranche.

Answer from NSET: In Dolakha there is a lot of confusion in DLPIU about the approval process so the most of the retrofitting beneficiary have not received the second tranche yet.

Question 2. Is it possible to share the retrofit design implemented by NSET/Baliyo ghar?

Answer from NSET: NSET has submitted 20 type design and got approval from CLPIU/building. The design are based on NRA Repair and Retrofitting manual. After discussion with senior team, it can be shared.

Next Meeting:

Scheduled: Friday, 20th December 3:00pm to 5:30pm

Tentative Agenda:

1. Discussion on shared format of norms for rate analysis by HRRP
2. Discussion on norms for rate analysis prepared in shared format
3. Update on retrofitting activities
