Progress with the disbursement of the GoN housing reconstruction and retrofit grants based on NRA, GMAI CLPIU data as of 25 Jan 2021.

[The Asia Shelter Forum \(Virtual and abridged\) Full Report](#) The Asia Shelter Forum (ASF) 2020 was successfully hosted by MoUD-Nepal, NRA and DUDBC and supported by the HRRP and the organizing committee members namely CRS, IFRC, GSC, Habitat for Humanity, IOM, EU, and NGO Federation of Nepal as the major contributors for Asia Shelter Forum in Nepal. It was planned virtually as a half day workshop on 29 November

2020 to be followed by an extended event in April 2021. It provided a great platform to share best practices, lessons learnt, innovations, and other priority topics for the governments from Asia-Pacific as well as donor and regional, national and international humanitarian actors, academic institutions and civil society. The Forum explored best practices and shelter approaches and initiatives that are community-driven, urban focused, retrofitting oriented, considerate of the multi-hazard risk and appropriate shelter needs and even more contextual in the face of COVID-19.

Urban Webinar Series # 1 – “Recovery in a post-disaster context”, 20 January 2021: On 20th January 2021, HRRP together with Urban Technical Working Group (UR-TWG), organized the first Urban Webinar Series with a theme of “Recovery in a post-disaster context” using Zoom platform. The objective of the webinar was to share learnings from Nepal’s urban housing recovery connecting to longer term Nepal’s urban development process ensuring efficient, sustainable and inclusive urban settlement recovery. The webinar offered a platform for national and international knowledge sharing on urban housing recovery issues, best practices and success stories. In this webinar two speakers - Ms. Salena Sangachhe from ASF Nepal and Ms. Leah Campbell from ALNAP-UK presented their experiences and learnings. Ms. Sangachhe highlighted that there are different sets of challenges while working in housing recovery in urban and rural areas of Nepal. Further she recommended that there is a need for holistic planning & integrated support service centre / resource centre to support urban housing recovery. Ms. Campbell presented on the topic “Responding in Complex Urban contexts”. She stressed that humanitarians need to think & work differently to navigate the complexity of cities. While working in urban areas, its context must be understood well and any further actions should be context-relevant. The Webinar recording can be accessed [here](#). For more information or If you would like to contribute to UR-TWG, contact Rupesh Shrestha: uco@hrrpnepal.org

The 23rd National Earthquake Safety Day:

On 15 January 2021, National Disaster Risk Reduction Management Authority (NDRRMA), DUDBC, Madhyapur Thimi Municipality and NSET jointly with other governments and partners marked the 23rd National Earthquake Safety Day event at Madhyapur Thimi Municipality followed by series of virtual symposiums and digital exhibitions until 18 January 2021. The virtual symposiums covered two thematic issues namely a) Strategy on Implementation of Revised National Building Code, b) Multi-hazard Risk Assessment Initiatives in Nepal. The participants of the webinar discussed pertinent issues, challenges and opportunities and wayforward for disaster risk mitigation plans. The virtual events including digital exhibitions were participated by various organizations from national and international participants including representatives from Nepal Police, UNDP, NSET, Armed Police Force, CBDRM, Nepal Army, DPNET, DMG and Disaster Risk Management practitioners, academia, HRRP, UN Agencies and media professionals among others.

[NRA organized workshop on resilient reconstruction and development, Kavrepalanchowk 10 January:](#) The Earthquake Housing Reconstruction Project (EHRP) of the National Reconstruction Authority (NRA) conducted a four day workshop for local governments comprised of Municipal Chiefs, Deputy Chiefs, Chief Administration Officer, District Disaster

Management Committee Coordinator and government officials of Kavrepalanchowk district. The workshop was jointly inaugurated by Mr Sushil Gyewali, the CEO of NRA and Mr. Anil Pokhrel, the CEO of NDRRMA. The Project aims to conduct similar workshops in all the 32 earthquake affected districts as part of capacity building of the local government representatives in resilient reconstruction and disaster risk management.

[NRA organized district level interaction program to discuss reconstruction action plans to complete its private housing reconstruction, 25 January 2020](#): The National Reconstruction Authority (NRA) held district level interaction programs to discuss the reconstruction progress and reconstruction action plans to complete private housing reconstruction within its given time frame of mid May 2021. Teams from NRA have been mobilized across 32 earthquake affected districts to discuss on important issues of reconstruction followed by preparation of reconstruction action plans from all the districts with tight deadlines. On 25 January 2021, the NRA team held interactive workshops in Parbat, Baglung, Dhading, Solukhumbu, Lamjung, Sindhuli, Khotang, Dhankuta, Sindhupalchowk, Dolakha. The team will hold similar interactive workshop in Palpa, Tanahu and Myagdi on 26 January; Syangja, Makawanpur, Gorkha, Kavrepalanchowk, Ramechap, Okhaldhunga, Bhojpur and Sankhuwasava on 27 January; Nawalparasi, Rasuwa and Kaski on 28 January; Chitwan and Argakhanchi on 29 January and Gulmi on 30 January. The NRA has rolled out [Changed Intervention Plan \(CIP\) at the local level](#) The CLPIU-GMaLI in consultation with NRA and CLPIU-Building has rolled out changed intervention plan (CIP) across 32 earthquake affected districts aimed at enforcing the final tranche deadline for all private housing reconstruction beneficiaries. The CIP is rolled out through DLPIUs so that all reconstruction stakeholders put their effort to disbursement of remaining tranche within the given deadline. According to the NRA, the private housing earthquake beneficiaries are to receive their first tranche by the 30 December 2020 (Poush 15) and second tranche by 12 February (end of Magh 2077) followed by third tranche by 14 May (end of Baisakh 2078). For the same, [NRA Central Team has planned a field monitoring plan](#) across 32 earthquake districts as part of their field monitoring and information dissemination at a time when they are approaching to closing their housing recovery and reconstruction program by the end of July 2021. The NRA Central Team is visiting all 32 earthquake affected districts and interacting with local government officials to discuss pertinent issues, challenges and

wayforward to complete all the private housing reconstruction within the given deadline of 14 May (end of Baisakh 2078). NRA has issued a very important notice concerning the final tranche disbursement deadline as mentioned hereunder.

NRA Notice on the Final Tranche disbursement deadline According to important notice issued by the NRA,

1. Beneficiaries who are eligible for reconstruction and retrofit grant are requested to sign the partner agreement by 15 December 2020 (end of Mangsir 2077), and receive first tranche by 30 December 2020 (Poush 15, 2077).
2. Beneficiaries who have received the first tranche must start their housing reconstruction and submit an application to the local government for verification process by 12 February 2021 (end of Magh 2077).
3. All reconstruction and retrofitting beneficiaries must submit an application for verification process to the local level government by 14 May 2021 (end of Baisakh 2078) to access third or the final tranche.

The NRA held a press Conference marking the completion of the fifth year of its establishment On 25 December, NRA held a press conference marking the completion of the fifth year of its establishment. The CEO, Mr. Sushil Gyewali, briefed national media persons, highlighting the overall accomplishments of NRA including his commitments to complete the private housing reconstruction within the extended timeframe of December 2021. He also informed that the remaining reconstruction works that are beyond their control, will be handed over to concerned line ministries and the local governments after the end of the NRA tenure.

COVID-19 live updates from Ministry of Health and Population (MoHP)

According to the Ministry of Health & Population (MOHP) [website](#) data, as of 24 January 2021, total cumulative new cases are 269,450 (male- 175,178 and female- 94,272), out of which 3312 confirmed cases are undergoing medical treatment in isolation and 264,137 are

discharged after recovery. So far 2001 have died due to COVID-19 in Nepal. There are a total of 145 in quarantine facilities.

The MoHP has operationalized two call centers **1115 (from 6 am to 10 pm)** and **1133 (24 hours)** to provide counselling services regarding COVID-19 prevention and treatment.

DISTRICT & MUNICIPAL UPDATES

In **Lalitpur**, DLPIU - GMaLI did a field visit at Bagmati Rural Municipality from 12 to 13 January 2021 to get updates on reconstruction progress, discuss on reconstruction challenges, and to inform about NRA deadlines. Municipal and ward based NRA engineers along with social mobilizers and mobile masons are consulting with beneficiaries receiving the first tranche only, so as to identify required technical support for them to complete house reconstruction.

In **Bhaktapur**, DLPIU - GMaLI organized Municipal Coordination Meeting to inform on the deadline of second tranche disbursement. Municipal Coordination Meeting was completed at Bhaktapur Municipality on 17 January 2021, Suryabinayak Municipality on 19 January 2021, and Changunarayan Municipality on 21 January 2021. Following the Municipal Coordination Meeting, respective municipalities also dispatched letters to wards stating to mobilize ward-based engineers along with ward members to track challenges faced by reconstruction beneficiaries who have received first tranche only and also to inform beneficiaries to apply for a second tranche by the end of B.S 2077 Magh. Social Mobilizers are facilitating and advising beneficiaries who have changed beneficiaries conversion from retrofitting to reconstruction and vice versa. Social Mobilizers are also engaged in collecting housing reconstruction commitment from the beneficiaries who have already taken the first tranche.

In **Kathmandu**, out of 177 beneficiaries who applied for conversion types, decisions of 52 beneficiaries conversion types from retrofitting to reconstruction and vice versa was approved. 73 beneficiaries are still waiting for NRA decision's on their application of respective conversion types. Municipal Coordination Meeting is completed at Gokarneshwor Municipality and Shankharapur Municipality on 24 December 2020,

Kathmandu Metropolitan City on 5 January 2021, Chandragiri Municipality and Nagarjun Municipality on 13 January 2021, Tarakeshwor Municipality and Tokha Municipality on 18 January 2021, and Kirtipur Municipality on 20 January 2021. DLPIU - GMAI led Municipal level Coordination Meeting to discuss progress and challenges of reconstruction and preparation of action plan to complete the reconstruction within the NRA deadline. DLPIU - GMAI also coordinated with municipalities to delist interested beneficiaries' names from earthquake affected beneficiaries grant support list. Details collection of the beneficiaries residing in public land, Government land, forest area, and landless are also on-going. Engineers and social mobilizers are also supporting the collection of missing partnership agreement numbers.

In **Makwanpur**, with support from Centre For Community Development Nepal (CCDN), vulnerable beneficiaries house reconstruction at Thaha Municipality and Kailash Rural Municipality is in the final stage of completion. 123 vulnerable beneficiaries from Thaha Municipality and 66 vulnerable beneficiaries from Kailash Municipality have received all the subsequent tranches from Government Housing Grant. CCDN also rendered additional top-up support and technical assistance for vulnerable beneficiaries' house reconstruction at Kailash Municipality. On 24 December 2020, DLPIU - GMAI conducted an interaction program with banks and financial institutions to discuss installments and issues related with the bank on tranche disbursement. GMAI staff meeting was held on 10 January 2021 to discuss the formation of a special task team at district level and to prepare an action plan for all rural municipalities and municipalities of Makwanpur district. The special task team will organize a meeting with Rural Municipality/Municipality of the district for preparing a reconstruction database and carry out a field visit based on an action plan to take regular updates from local governments. An orientation on Building Code Implementation at Bakaiya Rural Municipality is completed, which was organized on 12 January 2021. Municipal Level Meeting was organized in different rural municipalities and municipalities of the district to discuss progress and challenges of reconstruction and formulate action plans to complete reconstruction within the time frame of NRA. So far, municipal level meeting is completed at Makwanpurgadhi Rural Municipality on 12 January 2021, Manahari Rural Municipality on 13 January 2021, Bhimpheedi Rural Municipality and Indrasarowar Rural Municipality on 18 January 2021, and Thaha Municipality on 19 January 2021. On 15 January 2021, the 'Earthquake Safety Day' was

celebrated in the district by organizing a rally. The program was organized by the District Administration Office and was participated by concerned district stakeholders including GMaLI and Building.

In **Sindhupalchowk**, DLPIU-Building and DLPIU-GMaLI jointly conducted municipal level coordination meetings to provide update on NRA's deadline on tranche disbursement, share reconstruction progress to date, discuss on reconstruction issues, provide update on grievance address from district, and develop action plan to ensure completion of reconstruction within the timeframe of NRA. Issues related to non-compliance, tranche duplication, tranche return, and partnership agreement collection are also discussed in the meeting. Municipality level Coordination meeting is completed at Chautara Sangachokgadi Municipality on 7 January 2021, Melamchi Municipality on 18 January 2021, and Indrawati Rural Municipality on 19 January 2021. An interaction program was organized in the district on 15 January 2021 to celebrate the 'Earthquake Safety Day'. The meeting was chaired by Chief District Officer of the Sindhupalchowk district, 'Mr. Umesh Dhakal' and was attended by district stakeholders; Nepal Police, Armed Police Force, Nepal Army and I/NGOs. In the program, HRRP-Sindhupalchowk did a presentation on the challenges in implementing Building Code and status of building code implementation at local level and basic introduction of the Building code.

In **Rasuwa**, out of 275 eligible vulnerable beneficiaries in the district, 229 vulnerable beneficiaries have received all the subsequent tranche from the Government of Nepal, where 254 beneficiaries have received the first tranche and 237 beneficiaries have received the second tranche. Pangling Integrated settlement Project for 51 households of Aamachhodingmo Rural Municipality-2 has kicked off. Aamachhodingmo Rural Municipality Chairperson, Mr. Buchung Tamang inaugurated and laid the foundation stone for integrated settlement.

In **Nuwakot**, GMaLI has drafted and shared reconstruction action plans among all reconstruction stakeholders of the district. Action plan is developed to complete reconstruction within the stipulated time frame of the NRA. Of 12 rural municipalities/municipalities of the district, ten municipalities have already prepared an action plan that is aligned with an action plan drafted by GMaLI. 406 reconstruction

beneficiaries converted beneficiaries' types from retrofitting to reconstruction, where 229 beneficiaries have already completed reconstruction and 99 beneficiaries completed reconstruction upto DPC level. In the district, the '23rd Earthquake Safety Day' was celebrated on 15 January 2021 with the presence of government officials, non-governmental organizations, Nepal Army, Nepal Police, Armed Police Force, and other district stakeholders. The program was chaired by Mr. Janka Nath Dhakal from District Administration Office and chief guest for the program was Mayor of Bidur Municipality, Mr. Sanju Pandit. After the formal opening program, an earthquake drill was conducted to prepare and understand key actions that need to be taken pre, during, and aftermath of earthquake hazard. Approximately 100 people observed the earthquake drill.

In **Lamjung**, municipal level coordination meeting with three rural municipalities/municipalities of the district was completed, which was led by the DLPIU - GMaLI. In the meeting, NRA deadline on tranche disbursement, reconstruction progress update along with reconstruction challenges were discussed. The meeting ended with preparation of an action plan and grievance address update from the district. Municipal level coordination meeting at Marsyangdi Rural Municipality was completed on 1 January 2021, Dordi Rural Municipality on 2 January 2021, and Rainas Municipality on 3 January 2021. The District Facilitation and Coordination meeting was completed on 12 January 2021 to discuss vulnerable top-up support. Accordingly, only 12 beneficiaries received approval from DCC for vulnerable top-up support because the remaining six rural municipalities/municipalities did not provide vulnerable beneficiaries list in the prescribed format of DLPIU - GMaLI. One more week has been added to send vulnerable lists in the prescribed format. Hereafter, DCC meeting will approve the list of vulnerable beneficiaries of the remaining six rural municipalities/municipalities.

In **Kavrepalanchowk**, DLPIU - GMaLI completed a judicial hearing process of 50 beneficiaries who are not listed on the NRA beneficiaries list. From the list of 772 vulnerable beneficiaries, the District Facilitation Meeting approved top-up support for 246 vulnerable beneficiaries who have not received a third tranche yet. On 15 January 2021, the '23rd Earthquake Safety Day' was celebrated in the district by organizing an earthquake drill to build a culture of safety in earthquake hazard and develop preparedness for appropriate response during earthquake hazard. Mr. Shivaram Pokhrel from the District Administration

Office chaired the program and was attended by representatives of government and non-government stakeholders, district stakeholders, Nepal Army, and Armed Police Force. DLPIU-Building has been working on the beneficiary's hard copy file management, which is led and coordinated by the District Support Engineers. DLPIU - Building also mobilized Social Mobilizer to extend technical support for vulnerable housing reconstruction.

In **Solukhumbu**, Joint Monitoring Field visit was conducted at Solududhkunda Municipality from 11 to 13 January 2021. Joint Monitoring Field visit was accompanied by Environment Specialist, Social Specialist, and Focal Engineer from GMaLI along with a representative from HRRP. Ward number 1, 2, 8, and 10 were visited and ward level meetings were also conducted to discuss progress and challenges incurred during reconstruction at ward level. Major issues identified during the field visit are (i) beneficiaries are not granted with third tranche, though they have applied for third tranche, (ii) some of the beneficiaries are not aware of reconstruction time frame of NRA, and (iii) beneficiaries, who converted damage category of house from partially damage to full damage category, did not want to demolish the damaged house rather they want to build new house. Downstream villages affected from landslides that triggered after the Nepal Earthquake 2015 and settlements near the riverbank of Sisa River were also visited.

In **Okhaldhunga**, one day refresher training for social mobilizer was organized by DLPIU - Building on 28 December 2020. The training was attended by 21 participants including 14 social mobilizers, seven focal engineers, and two trainers.

In **Dolakha**, the '23rd Earthquake Safety Day' was celebrated at Kalinchowk Rural Municipality. Kalinchowk Rural Municipality's chairperson led the program, which was attended by representatives from DAO, DCC, DLIPU - GMaLI, DLPIU - Building, I/NGOs, and other key stakeholders. In the program, design of proposed earthquake memorial park situated at ward-7 of Kalinchowk Rural Municipality was also shared.

HRRP District Coordination Team Bhaktapur, Lalitpur Monthly Report, 24 Dec 2020
- 20 Jan 2021

Ward No. 5, Konjyosom Rural Municipality, Lalitpur: Two rooms with stone in mud mortar house. The house owner received all the tranches from Government Housing Grant.

HRRP District Coordination Team Dolakha, Ramechhap, Sindhuli Monthly Report,
24 Dec 2020 – 20 Jan 2021

Ward 8, Bhimeshwor Municipality, Dolakha: Single storey house made up of brick in cement mortar with RCC bands. The house owner has received all the tranches from the Government Housing Grant.

HRRP District Coordination Team Kathmandu Monthly Report, 24 Dec 2020 – 20 Jan 2021

Ward 2, Gokarneshwor Municipality, Kathmandu: One storey load bearing brick in cement mortar structure with CGI roofing. The house owner has received all the tranches under Government Housing Grant.

HRRP District Coordination Team Kavrepalanchok Monthly Report, 24 Dec 2020 – 20 Jan 2021

Ward 13, Banepa Municipality, Kavrepalanchowk: Brick in cement masonry with two-roomed single storey house. The house owner has received all subsequent tranches from the Government Housing Grant.

HRRP District Coordination Team Makwanpur Cluster Monthly Report, 24 Dec 2020
- 20 Jan 2021

Ward 4, Thaha Municipality, Makwanpur: Two rooms with single storey house under construction. Load bearing structure with CSEB material being used. All horizontal bands and vertical reinforcements are provided. The homeowner received a second tranche from the Government Housing Grant and is in the process of applying for third tranche.

HRRP District Coordination Team Lamjung Cluster Monthly Report, 24 Dec 2020 -
20 Jan 2021

Ward 4, Rainas Municipality, Lamjung: Single storey brick masonry in cement mortar house with plinth area less than 1000 sq feet. Two-roomed house with horizontal and vertical RCC bands at all levels with light CGI roofing. House reconstruction is completed and the house owner has also received all three tranches from the Government Housing Grant.

HRRP District Coordination Team Solukhumbu Cluster Monthly Report, 24 Dec 2020 – 20 Jan 2021

Ward-8, Solududhkunda Municipality, Solukhumbu: Wooden frame structure with CGI and wooden Plank house under construction. The house owner has received the first tranche from Government Housing Grant and has applied for a second tranche.

HRRP District Coordination Team Rasuwa, Nuwakot Monthly Report, 24 December 2020 – 20 Jan 2021

Ward 13, Bidur Municipality, Nuwakot: Mobile Mobile mason and ward volunteers have supported to complete vulnerable house reconstruction. The house owner has also applied for subsequent tranches under Government Housing Grant along with additional top-up support.

HRRP District Coordination Team Sindhupalchowk Monthly Report, 24 Dec 2020 – 20 Jan 2021

Ward 12, Melamchi Municipality, Sindhupalchowk: Interlocking block masonry house in an integrated settlement. The House owners have received all tranches from Government Housing Grant.

FEATURED STORY

Srijana Rijal, Social Mobilizer at DLPIU (Building), Bhaktapur: Thousands of houses were devastated in Nepal Earthquake 2015, but more than that, the earthquake destroyed thousands of dreams and faiths. Within a moment of great shocks, many families became homeless, lost their dear ones, and deprived of their livelihoods. Social Mobilization in such a complex situation was a great challenge. Despite all those odds and challenges, Srijana Rijal accepted challenges to mobilize communities affected by the earthquake

to turn into opportunities to bring back smiles on the faces of earthquake survivors, who lost their houses in mega-earthquake 2015.

From the past one year, Srijana Aryal has been working as a Social Mobilizer at DLPIU (Building), at Changunarayan Municipality of Bhaktapur district. As a social mobilizer, she is responsible to provide socio-technical assistance, conduct awareness and orientation for house owners on housing reconstruction, conduct social gatherings and meetings to discuss problems and difficulties faced during the reconstruction phase in order to complete housing reconstruction. She has been working tirelessly to complete housing reconstruction within the timeframe of the NRA. In her opinion, land tenureship and finance are the key issues that make obstacles in housing reconstruction. Issues related with land tenureship are dispute among family members on land ownership rights, land owned by 'Guthi' or 'Government', lack of land certificate, and confusion regarding *Mohi* land ownership. In the present situation, pandemic situations arise due to COVID-19 is also a factor for slow progress in reconstruction. Srijana is committed to housing reconstruction within the timeframe stipulated by NRA. Therefore, she has been actively engaged in tracing vulnerable beneficiaries for mobilization of mobile mason to support their house reconstruction. She also convinced local contractors to provide 10,000 bricks for vulnerable

beneficiaries. Besides this, she also requested local cooperatives to give credit without interest for vulnerable beneficiaries for reconstruction.

CASE STORY

"Tea House before retrofitting starts" (Story and Photo Credit-UNOPS)

Meet Mithu Maya Lama, who lives in the rural municipality of Manedobhan, in the Kavrepalanchowk District. She is one of the strong women, and single mother of two daughters, who benefited from her house being retrofitted by the project, after all the hardships she has had to endure. Her house, which she built on her own land from her small earnings, was damaged during the earthquake of April 2015.

Not long ago, she was still running a small tea shop from inside with the help of her daughter, despite the obvious cracks and damage inflicted by the earthquake and it being unsafe for living.

Mithu and her small family relocated to a temporary shelter beside their house, presenting them with the difficulties of living together in such close quarters. As the original house was

still standing, it would cost a great deal to demolish it and build a new one. In addition, building a new house would mean losing a large portion of the old house due to an expansion project for a new road implemented by the government. The family was approached by engineers and social mobilisers working in the field from UNOPS and Build Change, and came to know that their house could become safe again through the cost effective and locally adaptable proposal of retrofitting. She readily agreed to retrofit her home, in order to establish a safer building and secure future. The process of retrofitting, supervised by a female engineer, involving many female labourers and members of Build Change and UNOPS providing expertise and technical assistance, took 65 days (2.5 months) to complete.

86 years old Maili Tamang's dream to live safer and secure is fulfilled

Maili Tamang, aged 86, residing in Bidur Municipality ward no 13. Though she made a partnership agreement for housing reconstruction and received the first tranche of NPR 50 thousands, she could not make way for house reconstruction. According to her, with her single effort only she is not able to complete house reconstruction and she also did not have enough money. Therefore, she spent her 4 desperate years in temporary shelter. She has bitter experience living in temporary shelter. Her neighbours had already completed their houses reconstruction two years back. She had a wish to stay in a permanent house, which is

safer and secure to live in.

One day, a social worker of ward visited her house and informed about the extra support of NPR 50 thousands for the vulnerable. She initially denied constructing a new house. Social worker visited the next day with his colleagues and assured her to support in completing house reconstruction. NRA appointed mason to Bidur Municipality to support

vulnerable house reconstruction. As she did not have money to buy construction materials, but they supported her to get all construction materials from the nearby market.

Mobile mason and ward volunteers have been supporting her to complete house reconstruction. Her house reconstruction is in the process to complete. She is also eligible to get second, third, and extra top up. Grant support from NRA is sufficient to pay back all the material cost. Now, her dream to live safer and secure is fulfilled.

Maili Tamang's newly reconstructed house

Retrofit Case Story from Bhimeshwor Municipality, Dolakha

Mr. Maadhab Prasad Uppreti is the owner of the house. He lives at Bhimeshwor Municipality, ward no. 6, charikot, Dolakha. His house was damaged by the Nepal Earthquake 2015 and was listed into the retrofitting beneficiary category. He was in a dilemma on whether to demolish the existing house and construct a new one or proceed to retrofit the existing one which is a double story stone in a mud mortar house with an attic. Moving ahead towards reconstruction, Maadhab prasad Upreti decided to retrofit his house in support of NSET-Baliyo Ghar, Dolakha. Most of the retrofit beneficiaries do not want to retrofit their house because of the belief that only newly constructed houses are earthquake resilient. On the other hand, the government grant support for retrofitting a house is lesser compared to the fully damaged house beneficiary which is in a ratio of three is to one.

During the retrofitting process, NSET supported the beneficiary with 25 days on the job training (OJT), under which 6 masons were provided. An amount of one lakh sixty thousand rupees was supported as in-kind support along with human resources. Now, the retrofitting of the house has been completed. Beneficiary has also received NPR 50 thousands under government housing grant as the first tranche and waiting for the last tranche. After the completion of retrofit, the house looks good with strong walls and earthquake resilience.

Retrofitted House of Madhaab Prasad

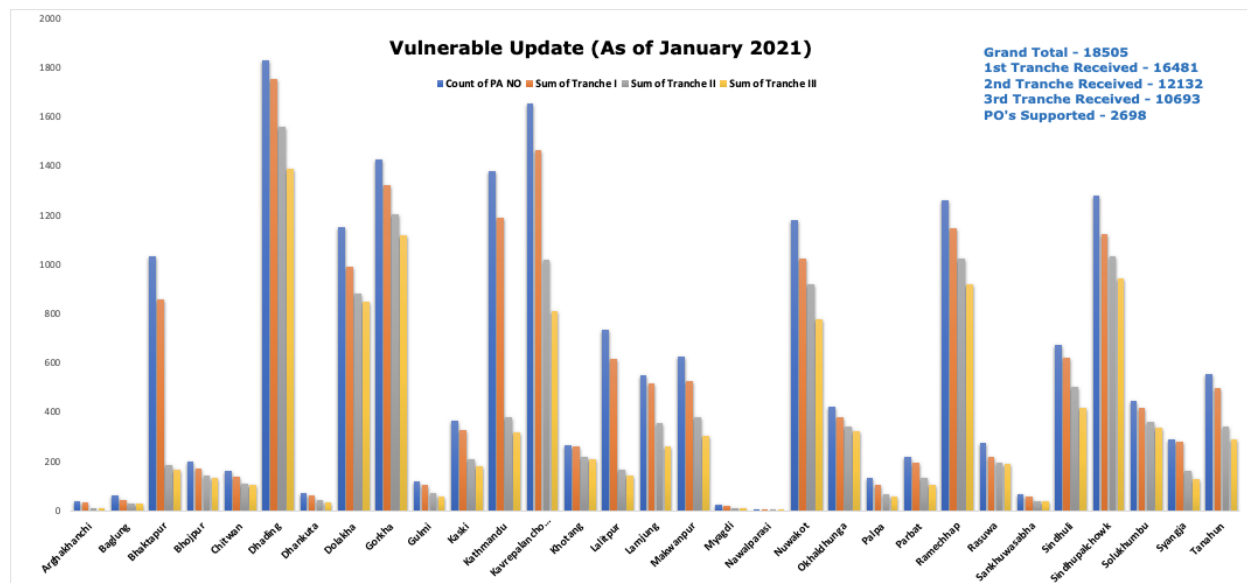

Households Grant Type Conversion

Number of households switching to grant type (January 2021): This data has been collected from the DLPIU offices by the HRRP District Coordination Teams. It will be updated as more information is received.

Vulnerable Households Reconstruction

Vulnerable Households Reconstruction (January 2021): Of the total **18,505** NRA identified vulnerable households, 89% (**16,481**) have received the first tranche, 65% (**12,132**) have received the second tranche and 58% (**10,693**) have received the third tranche. In total 2,698 HHs have been supported by various partner organizations.

Grievance Update: As of January 2021, **25,463** grievances have been addressed by NRA, out of which **17,146** HHs have been enlisted as reconstruction beneficiaries and **8,317** as retrofitting beneficiaries.

MEDIA COVERAGE & COMMUNICATION ON RECONSTRUCTION

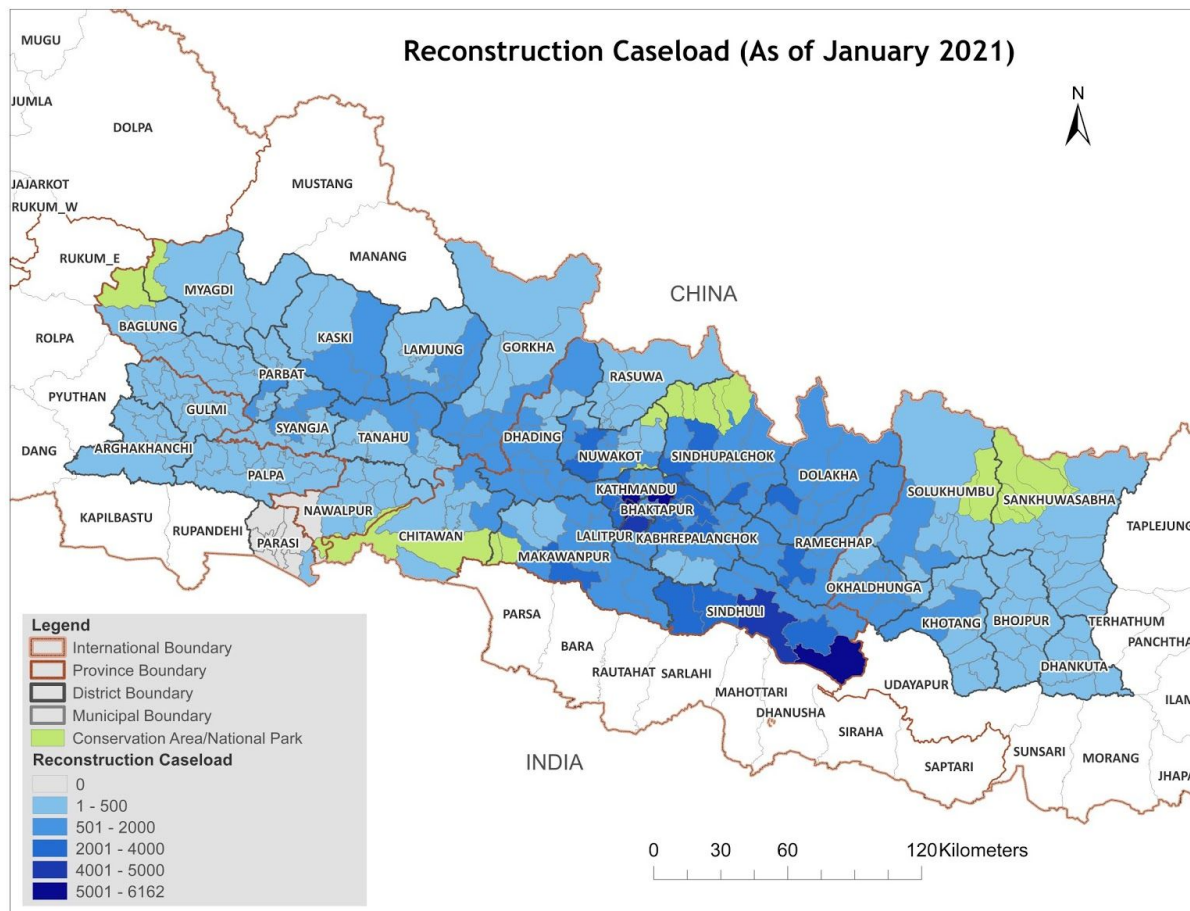

[**Baliyo Ghar Surakshit Nepal | 1 January 2021:**](#) This episode focuses on five years of National Reconstruction Authority (NRA), its accomplishments, including handing over its institutional memory to National Disaster Risk Reduction and Management Authority (NDRRMA) including other concerned line ministries and local governments for sustainability. This program airs on Nepal Television every Friday 7:00 PM and every Saturday 10:30 AM.

HRRP PRODUCTS

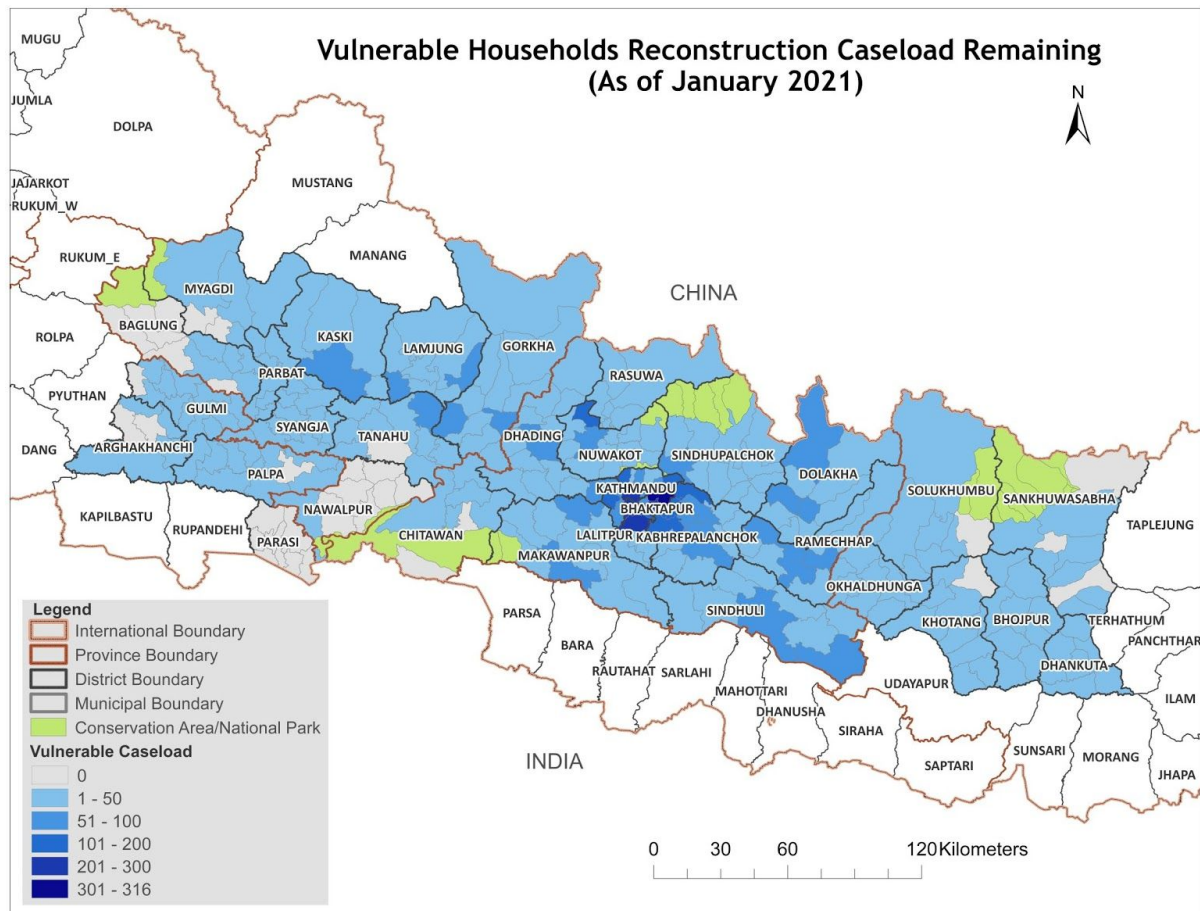

Reconstruction Caseload Remaining (January 2021)

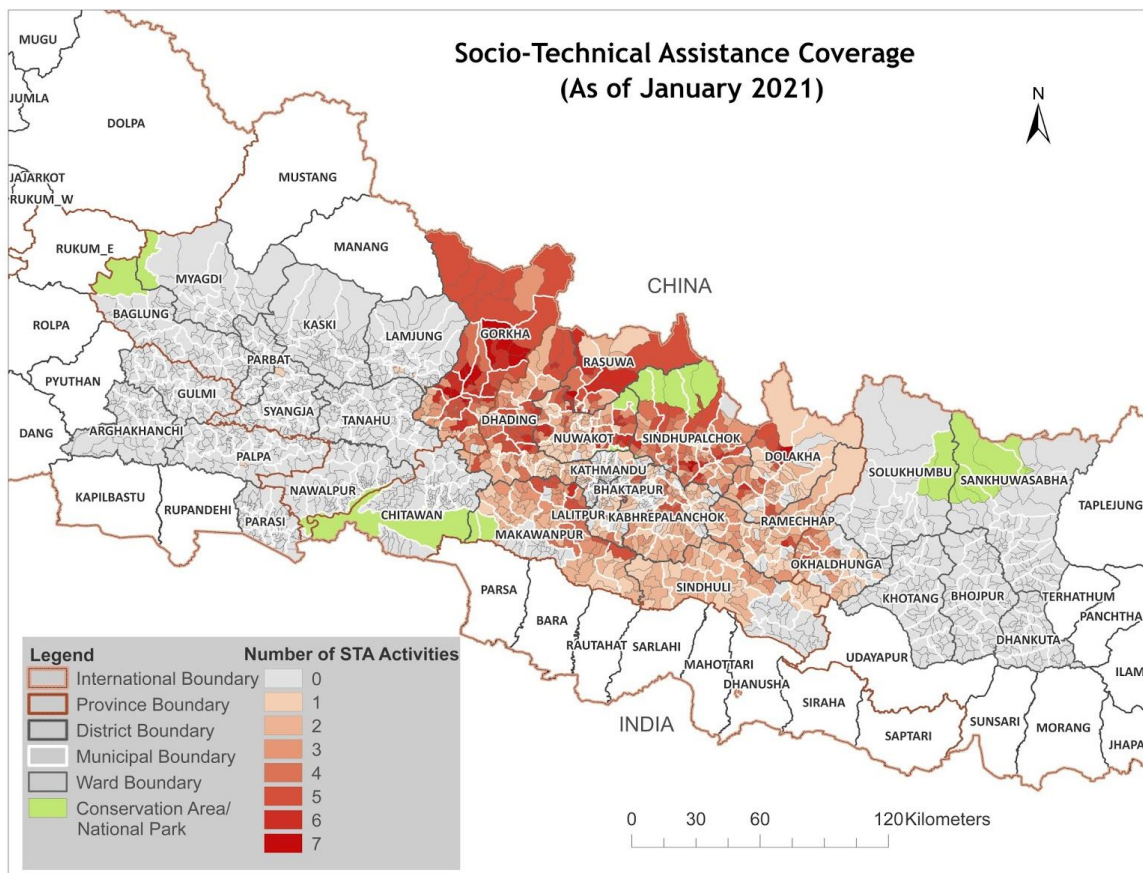

Retrofitting Caseload Remaining (January 2021)

Vulnerable Households Reconstruction Caseload Remaining (January 2021)

Coverage of Socio Technical Assistance (January 2021): This is based on 5W data collection, January 2021.

Palika Profiles (Municipal reconstruction profiles)

The recovery profiles contain various updates on the reconstruction and recovery at the Municipal level for all 282 earthquake-affected municipalities. The municipalities are updating the profiles on a monthly basis with technical support from HRRP.

Reconstruction and Retrofitting Information Pack

This highlights the reconstruction and retrofitting progress in all 32 earthquake-affected districts at the municipal level. This data is updated by HRRP district staff in close coordination with municipal focal persons. The links will be automatically updated to provide the reconstruction snapshot (PDF) for the month.

Municipal dataset on Reconstruction

CSV, PDF

A composite dataset for 282 municipalities (urban status, damage grade, reconstruction, retrofitting and vulnerable HHs as identified by NRA can be assessed here as CSV and PDF). The dataset is updated by the municipalities with support from HRRP.
