

An earthquake affected beneficiary residing in Ward no. 7, Nalgad Municipality (Jajarkot district), expresses joy over the construction of a temporary shelter, supported by materials from the Community Self-Reliance Center (CSRC). The beneficiary has received the first tranche from the government for shelter construction. According to [NDRRMA reports](#), Over 19,716 temporary houses have completed construction altogether in five districts as of 7 January 2024 and around 7,718 are ongoing-construction, thus benefiting more than 67, 780 thousand enrolled beneficiaries in Jajarkot, Rukum West, Salyan, Bajura, and Bajhang.

CASE STORIES ON TEMPORARY SHELTER CONSTRUCTION

In the heart of Ward no. 7 in Nalgad Municipality, nestled in the rugged terrain of Jajarkot district, a tale of resilience and community spirit unfolds. Gobinda Badi, a beneficiary still reeling from the impact of a recent earthquake, now finds himself wrapped in an embrace of joy, thanks to the completion of a temporary shelter that stands as a beacon of hope in the face of adversity.

The hero of this story, a local mason named Dip Bahadur Badi, emerges as a symbol of commendable initiative. Despite lacking formal technical training in construction, Dip Badi embarked on a journey to create a temporary shelter that transcends its basic purpose and resembles a semi-permanent structure. His determination and ingenuity have become a source of inspiration for the entire community.

Gobinda Badi, the grateful recipient of this labor of love, marvels at Dip Badi's innovative approach. With a sparkle in his eyes, he reveals that the entire project, including mason fees and timber expenses, came to a mere thirty thousand rupees. The magic behind this accomplishment lies not just in the cost-effectiveness but in the fact that it was achieved by a local artisan who relied on his instincts and passion for rebuilding lives.

A significant ally in this journey towards recovery is the Community Self Reliance Center (CSRC) at Jajarkot. Their pivotal role in contributing corrugated galvanized iron sheets to fortify the walls and roof of the shelter has amplified the impact of Dip Badi's craftsmanship. This collaborative effort underscores the power of community-driven initiatives and the importance of collective support in times of crisis.

What makes Dip Badi's story even more touching is the commitment to sustainability and local sourcing. The wood used in the construction was obtained from the nearest forest, a testament to the community's dedication to both rebuilding and preserving their environment. This serves as a poignant reminder that impactful results can be achieved, even in the face of limited formal training and resources. It is a compelling testimonial to the potential for scalable approaches in temporary shelter construction in earthquake-affected areas. The resilience and resourcefulness demonstrated by Dip Badi and the community stand as a powerful narrative, showcasing the positive impact that thoughtful, community-driven initiatives can have on disaster-affected housing recovery. In the midst of destruction, a new beginning has emerged, echoing the strength that lies within the bonds of a community determined to rebuild, one shelter at a time.

NATIONAL UPDATES

Advocacy at COP 28: Urgent Call for Global Action on Climate Justice in Nepal

The 28th meeting of the Conference of the Parties (COP) to the United National Framework for Convention on Climate Change (UNFCC) held in Dubai, United Arab Emirates, from 30th November until 12th December 2023. More than 70,000 delegates are expected to attend COP28, including the member states (or Parties) of the UNFCC. Business leaders, young people, climate scientists, indigenous peoples, journalists, and various other experts and stakeholders were among the participants.

Rt. Honorable Prime Minister of Nepal, Mr. Pushpa Kamal Dahal “Prachanda” actively participated in the high-level segments on climate change on December 1st and 2nd, where he also delivered an address on 2nd December. In his speeches, PM Dahal raised awareness within the global community about the adverse impacts of climate change on mountainous countries, emphasizing the urgent need for actions to prevent crimes against nature and humanity. He reiterated, "Our message is clear: mountains are tortured by rising temperatures. Save them first!". PM Dahal also delivered a brief statement at the Nepal pavilion, emphasizing that climate change is a significant concern for Nepal, evident through its participation, pledges, and commitments at national, regional, and global levels to combat its adverse impacts.

Speaking at an event organized by PM Dahal on the sidelines of the COP 28 United Nations Secretary General António Guterres highlighted his sharing –“Nepal, and other vulnerable mountain countries, are being pounded by a crisis that is not of their making. The country has lost close to a third of its ice in just over 30 years—a direct result of the greenhouse gas pollution heating our planet.” While in Nepal during October 2023, the UN Chief had assured of raising the issue of the climate crisis in the Himalayas and its impact on local communities. The countries

responsible for inviting this crisis should compensate Nepal, the UN Chief highlighted. Detail news: [Press release by MoFA on Nepal's participation in COP 28](#) [Extracts of PM Dahal's speech in COP28](#)

The Plea of Mountain: Unveiling Nepal's climate induced crisis in COP 28

A documentary titled '[The Plea of Mountain](#)' covering the repercussions of damages caused by the climate change and climate induced disasters in Nepal was screened at the COP28 in Dubai. The documentary captures the issue of the melting of the snow in the mountains including Everest and Annapurna and its effect on people's lives. Similarly, due to climate change, floods and landslides in Nepal's Manang, Mustang, Sindhupalchok's Helambu, Melamchi, Dolpa's Phoksundo, Terai Madhesh have been covered. The documentary features the voices of the residents of the affected areas and has drawn special attention to Nepal for climate justice. The documentary was screened at a special program organized by the Ministry of Forests and Environment (MoFE)/Government of Nepal and other organizations as part of the conference at the Nepal Pavilion. After the screening of the documentary, there was also an interaction between various experts. [Detail news on documentary](#)

Strategic consultation addressed mobilizing the support for post-earthquake reconstruction

A consultation meeting has been organized with the donor agencies in the Ministry of Finance/Government of Nepal, on 22nd December, regarding the reconstruction of private housing, public buildings and infrastructure damaged by the earthquake, and livelihood restoration, centered on Jajarkot, Bajhang and Doti districts. In the meeting, Finance Minister Dr. Prakash Sharan Mahat called on the development partners for their support as post-earthquake reconstruction is the government's priority and requires a large amount of resources. Minister Mahat urged to emphasize on reconstruction even if it is by restructuring the currently running programs. The heads and representatives of the donor agencies expressed their interests and commitment to extend the support in the reconstruction and informed about the probable areas that can be involved in the reconstruction. Chief Executive of NDRRMA, Mr. Anil Pokharel

presented a preliminary summary of the damage caused by the earthquake that hit three districts and stated that the reconstruction would cost about 69 billion rupees (519 million US dollars). [News source](#) [Ppt shared to donors](#)

Preparatory meeting on marking 26th Earthquake Safety Day program

A Preparatory Meeting of the 26th Earthquake Safety Day (ESD) programs was held with development partners in Nepal in leadership of NDRRMA on 29 December. Key representatives from Ministry of

Home Affairs (MoHA), Mayor of Chandragiri Municipality, Department of Urban Development and Building Construction (DUDBC), along with representatives of Development Partners (National / International organizations, public/private sector along with UN agencies) were present in the meeting, which was jointly organized in leadership of NDRRMA and NSET, the Member Secretary of the Earthquake Safety Day program. This year, the 26th Earthquake Safety Day is being observed on Tuesday, 16th January 2024 with weeks-long events nationwide.

The key decisions highlighted from the preparatory meeting were - Chandragiri Municipality (Kathmandu district) to host the National Program of 26th Earthquake Safety Program in which NSET will play a major coordination role to share a list of activities with development partners and other stakeholders for incorporating the activities and for multi-partnership. All development partners and stakeholders are requested to support 26th ESD activities and encouraged to conduct activities in their respective areas. Detail news: [ESD preparatory meeting](#)

The Role of WHO in Strengthening Disaster Preparedness and Response in Nepal

Recent Jajarkot Earthquake Highlights the Importance of Equipping Hospitals with Hospital Disaster Preparedness and Response Plan. To enhance the readiness of health facilities to cope with the challenges of a disaster, amongst many capacity-building activities, World Health Organization (WHO), Country Office for Nepal, has been supporting the Ministry of Health and

Population (MoHP), Government of Nepal in developing and updating the Hospital Disaster Preparedness and Response Plan (HDDRP) - an integral component of the hospital emergency response checklist, for all the 25 hub (referral) hospitals across the country. Dr Padam Giri, Hub Focal Person of Province Hospital, Surkhet, shares how the HDDRP has proven crucial in improving hospital response during disasters as evidenced in the aftermath of the earthquake that hit Nepal's Karnali Province last month. Having the HDDRP, Surkhet Provincial Hospital made a noticeable difference in response to the recent Jajarkot earthquake. It facilitated timely response, smooth communication, and sharing of resources and expertise among hospitals by treating over 40 patients in the first few days of the earthquake. As part of the efforts to strengthen emergency preparedness and response, WHO supported the MoHP to train over 400 hospital personnel (medical superintendents, emergency in-charge, nursing in-charge, doctors, nurses stationed in emergency wards, administration staff, and store staff) on HDDRP last year. Read detailed news: [Capacity enhancement of health institutions to cope disaster aftermaths](#)

PARTNERS' UPDATES

Consultation on the updated lesson plan of Master's degree course of Institute of Engineering

The collaborative effort guided by a two-way bridging and aligning interests with CRS led NHSRP through Homes and Communities Initiatives has resulted into updating the lesson plan of Institute of Engineering (IoE)/Tribhuvan University's Master degree in Disaster Risk Management (MSDRM)'s 60 hours course titled "Post Disaster Assessment and Response Planning". The lesson plan sharing workshop was conducted on 22nd December.

The updated curriculum extends its scope to include international practices and lessons, recognizing that the learnings and experiences from Nepal alone are insufficient. The lesson plan for the course has been revamped to prioritize practical-oriented, analytical, and result-oriented students centric learning in the real-world scenarios. In the discussion workshop, the representatives mainly from the Humanitarian Country Team (HCT) shared their inputs in the updated curriculum. [Updated lesson plan](#) [Key notes from the sharing](#). For more information, contact Ms. Reshma Shrestha, Deputy National Coordinator at NHSRP. Email: reshma.shrestha@hrrpnepal.org

Meeting of Technical Working Group of Greening the Shelter Response

The third meeting of the TWG took place at the NHSRP Office on 22nd December. The Under Secretary of NDRRMA, Mr. Dhruva Bahadur Khadka shared key highlights on the current status of guideline implementation for temporary shelter construction in response to the Jajarkot earthquake. The TWG participants emphasized nature-based solutions for both temporary shelter construction and the subsequent reconstruction phase. Mr. Manish Timsina representing Shelter Cluster shared key highlights of ongoing status of temporary/ transitional shelter construction. Build Up Nepal's presentation focused on the resilience of undamaged structures made of Compressed Stabilized Earth Blocks (CSEB) in the recent Jajarkot/Rukum earthquake. Majority of structures made up of CSEB remained intact and undamaged during the earthquake.

The TWG discussion revolved around studying existing typologies in the affected areas around Jajarkot district, with the goal of initiating future plans for climate-friendly, safer, and more resilient reconstruction. The previous two TWG meetings addressed the ToR and proposed concepts for integrating greener solutions into government plans and procedures. [Details: GRID TWG Meeting Notes](#). For more information, contact Ms. Preeti Karki, Technical Coordinator- Partnerships and GRID at NHSRP. Email: Preeti.karki@hrrpnepal.org

NHSRP's technical assistance in post-earthquake phase in Karnali province

The collaborative efforts between the NDRRMA and the NHSRP in response to three earthquakes (Doti, Bajhang & Jajarkot) have made significant strides in earthquake recovery. NHSRP has been instrumental in providing technical assistance to various governmental bodies from national level to provincial and upto district and local governments' level. NHSRP assisted NDRRMA to develop the procedural guidelines on temporary shelter construction, developing survey tools, and transitional shelter designs. The collective efforts aim to offer temporary shelter construction housing grants to 92,000 households in municipalities affected by the earthquakes. Similarly, NHSRP's support extensively includes the PDNA report preparation that focused on quantifying losses and damages in

social, infrastructure, and productive sectors, forecasting the budget needed. The recovery data was gathered from relevant ministries, and sector-specific damages were analyzed, indicating NPR 471 million damage by the earthquake and the requirement of NPR 518 million for overall recovery and rehabilitation. NHSRP's technical support facilitated the unlocking of government grants on temporary shelter construction at the national level up to the local level. These funds are intended to benefit 67,780 identified beneficiaries, with 33,549 beneficiaries that are already enrolled. Along with this, extensive support was provided to development of Detailed Damage Assessment (DDA) forms. On top of this, comprehensive collaboration with NDRRMA is undertaking the development of a transitional shelter construction management information system to track individual household information, facilitating the disbursement of tranches for transitional shelter and recording data on the government system.

Furthermore, NHSRP collaborated with People in Need (PIN) to deploy technical staff at the provincial and district level (Jajarkot) to extend technical assistance related to post-earthquake recovery in affected Palikas. The field technical personnels are involved in lending technical assistance to districts and Palikas in localizing the temporary shelter construction guideline, along with monitoring of progress in temporary shelter construction and information management coordination in grant disbursement. For more information, contact Mr. Rijan Gajurel, National Technical Coordinator- Government Engagement/NHSRP. Email: rijan.gajurel@hrrpnepal.org

Collaboration for help desks set up and placement of community information boards

Consortium of Handicap International (HI), People in Need (PIN) and KIRDARC supported by Start Fund collaborated with NHSRP jointly to establish three help desks in Jajarkot and to design standardized communication materials for uniform information distribution. Similarly, the Frequently Asked Questions (FAQs) information board is installed at the Office of Barekot Rural Municipality (Jajarkot district) as well as in 13 community locations. The consortium is constructing 200 transitional shelters for the earthquake affected households and 10 inclusive demo transitional shelters targeting the people with disabilities at Barekot RM.

Furthermore, in the lead of NDRRMA and technical support by Habitat for Humanity Nepal (HfH) and NHSRP has published a communication information board to inform those affected by the Jajarkot earthquake and FAQs regarding NDRRMA's temporary shelter government grants for building temporary shelters. These IEC boards are placed in various locations of 77 Wards of 7 Municipal bodies of Jajarkot district, along with the broadcast of Public Service Announcement (PSA) from 4 local FM radios for 3 months. Similarly, 2 online newspapers of Jajarkot are sharing this similar public sensitization information for 3 months. For more information, contact Mr. Rijan Gajurel, National Technical Coordinator- Government

Engagement/NHSRP. Email: rijan.gajurel@hrrpnepal.org

Kanchanpur Conference 2080 showcased declarations on DRRM and building resilience

The "Third Kanchanpur Conference-2080" was organized by Dodhara Chandani Municipality on 15th December, in collaboration with technical and managerial support from Dan Church Aid Nepal (DCA) and Nepal National Social Welfare Association (NNSWA) Kanchanpur. A ten-point declaration has been issued to address disaster risk reduction and management stemming from the impact of climate change, building resilience and sustainable development. At the event, the Kanchanpur Resilience Mayor's Forum focussed on localizing resilience, fostering shared learning about disaster preparedness, early warning systems, disaster risk management, and climate change to build a resilient community. The conference thoroughly discussed various measures of strengthening anticipatory action approach to disaster and building resilience of the communities by participatory modality. For more information: Mr. Dinesh Gurung, DRR

& Humanitarian Response-Programme Manager at DCA Nepal. Email: digu@dca.dk

FOREWARN's workshop: Fostering collaboration for anticipatory action in crisis response

In its inaugural workshop held in Kathmandu from 21st -22nd December, FOREcast-based Warning Analysis Response Network Nepal (FOREWARN), a part of [Start Fund Nepal](#) focusing on Anticipatory Action (AA), brought together nearly 70 participants, including over 20 local NGOs. This marked the first joint meeting with the Community of Practice on Anticipatory Action. Key takeaways included the necessity of NGO involvement in AA dialogue platforms, the need for enhanced technical understanding among NGOs, increased data sharing among organizations, support for government systems, the importance of pre-hazard-season meetings, and the crucial role of private organizations in promoting AA tools and resources. FOREWARN aims to foster collaboration and contribute to a more anticipatory and effective crisis response. Some of the tools that Start Fund Nepal developed and showcased in the workshop were- [Pahiro Alert](#) (open-source tool for landslide mapping and risk assessment) and [Heat and Cold Waves Toolkit](#) (open-source tool for anticipating heat and cold waves).

Formation of DPNet Province Level Committee in Madhesh Province

DPNet Nepal organized a meeting in Bardibas Municipality (Mahottari district) to establish the DPNet Province Level Committee in Madhesh Province on 21st December. The meeting was attended by DPNet members from Madhesh Province. During the meeting, Mr. Surya Bahadur Thapa, Chair of DPNet highlighted DPNet's essential role as the National Platform for DRR Secretariat (NPDRR) at the federal level in leadership of NDRRMA. Emphasizing the need for collaboration among Madhesh Province members, stress on the importance of strengthening disaster risk reduction and management within the province was a major highlight of the consultation. Following a constructive discussion and the members' commitment to collective efforts, the Province Level Committee in Madhesh Province was formed to effectively enhance disaster risk reduction efforts across the Madhesh province. Detail news: [DPNet in Madhesh Province](#)

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM BAGMATI

Geohazard assessment conducted for identifying relocation sites

Geohazard assessment study was carried out from 6th -10th December for tracking and identifying safer relocation sites in various municipal locations of Sindhupalchowk district mainly for the landslide affected people who were displaced by severe Lidi landslides during monsoon 2020. The affected people belong to Jugal, Bhotekoshi and Balephi Rural Municipalities and Barhabise Municipality. The technical support in the geohazard field assessment was provided by the technical team of Community Self-Reliance Center (CSRC) and NHSRP and field visit was accompanied by technical team members of targeted Palikas and by some local people.

UPDATES FROM GANDAKI

Enhancing capacities of local bodies in disaster management initiatives

Continuous technical support in information management was extended by NHSRP Gandaki team to The NHSRP Gandaki team presented crucial insights from the NDRRMA information management system regarding post-disaster housing reconstruction and rehabilitation, at a program organized by the Nepal Red Cross Society (NRCS) on 12th December where the team addressed technical personnel and local representatives of Pokhara Metropolitan City.

Concurrently, the team provided regular technical support to Ghiring Rural Municipality (Tanahu district), Pokhara Metro City (Kaski district), Mangala (Myagdi district), and BhimsenThapa RM (Gorkha district). This

support focused on the Reconstruction MIS system, facilitating the release of second and third tranches and overseeing the inspection process for the first and final tranches. Additionally, the team played a vital role in assisting the provincial ministry during the visit of the Independent Evaluation Group of the World Bank. They shared updates on Gandaki province's progress over ten years in provincial capacity building, outlined planned interventions in Disaster Risk Reduction and Management (DRRM), highlighted the Provincial Emergency Operation Center (PEOC), and reported on progress of monsoon-induced housing reconstruction.

UPDATES FROM LUMBINI

Comprehensive technical assistance in disaster management initiatives

NHSRP Lumbini Province provided ongoing technical support, focusing on verifying and validating around 48 numbers of files for the third tranche release in Pyuthan district. Furthermore, the team has strengthened the capacities of IT Officers of pilot municipalities related to updated know- hows of using the BIPAD portal. Surveyor user IDs were also created to carry out surveys of monsoon/fire affected households using BIPAD Apps and its integration in RMIS.

UPDATES FROM KOSHI

Comprehensive technical assistance in disaster management initiatives

Continuous technical support was provided by the NHSRP Koshi team to the municipalities where disaster affected reconstruction and relocation works are underway. The support was provided mainly through virtual mediums to Yangbarak Municipality (Panchthar district), Pakhribas RM (Dhankuta district) and Maiwakhola RM (Taplejung district) and Katari Municipality (Udayapur district) to solve issues related to survey, enrollment and tranche release as per the reconstruction and recovery guidelines. The team also conducted coordination meetings with the Disaster Management Department of MoIAL Koshi to discuss the recently finalized provincial budget on DRRM and on activities that could be jointly conducted and technically supported by NHSRP.

UPDATES FROM MADHESH

Capacity enhancement of local government in housing reconstruction initiatives

NHSRP Madhesh Team provided technical guidance to DRR focal person on 22nd December to conduct a survey of fire-affected houses in Ishnath Municipality (Rautahat district) by using NDRRMA's BIPAD Apps. One house located at Ward -5, Ishnath Municipality caught fire and was completely destroyed. After the survey, the affected household members were provided a Nissa Number (household identification number).

Empowering local governments by integrating DRR data into BIPAD Portal

Nepal Red Cross Society (NRCS) in support of UNFPA and in collaboration with NHSRP has successfully organized 3-days training on BIPAD Portal from 8th -10th December for municipal officials of Rautahat district. Organized at Gaur, the training covered various topics related to DRRM policies and procedures of NDRRMA, data collection, analysis, visualization, action-plan preparation, hands-on exercises and interactive discussions. As a result of the training, the 10 local levels of Rautahat agreed to upload their DRR data in the BIPAD portal, which is linked to NDRRMA.

Furthermore, the technical support by Madhesh team has strengthened the capacities of IT Officer and Computer Operator of Rajpur Municipality related to use of BIPAD portal. Two surveyor IDs were also created to carry out surveys of monsoon/fire affected households using BIPAD Apps and its integration in RMIS.

UPDATES FROM SUDURPASCHIM

Inter-provincial collaborative efforts to Jajarkot earthquake response

The Sudurpaschim Province team of NHSRP played a crucial role in offering technical assistance during the distribution of temporary shelters and winterization kits for the communities affected by the Jajarkot earthquake. A total of 130 temporary shelters were initiated for construction, and 800 sets of winterization kits were distributed in Ward no. 1, 2, and 3 of Bheri Municipality at Jajarkot. Additionally, the team supported the installation of four community information boards to raise awareness about the temporary shelter guidelines facilitated by HfH and NHSRP. Furthermore, assistance in documentation and data management was provided in coordination with DAO Jajarkot.

UPDATES FROM KARNALI

Extended technical support of NHSRP in Jajarkot earthquake response

Two technical team members from NHSRP provided technical support to DAO Jajarkot mainly in proceeding the grant distribution based on Procedural Guideline on Temporary Shelter Construction. The coordination support included focusing on facilitating the grant distribution according to the guidelines for constructing temporary shelters. Noteworthy activities included

successfully coordinating two District Disaster Management Committee (DDMC) meetings in Jajarkot with the participation of NDRRMA officials, political parties, Palika chairpersons, development agencies, CBOs, security forces, and various other stakeholders. Additionally, a Shelter Cluster Meeting was organized collaboratively by NHSRP and NRCS/IFRC to establish a shared understanding among partner organizations operating in the district, aiming to prevent duplication and ensure comprehensive coverage at the local levels. Meetings with security focal personnel, field visits, orientation on temporary shelter construction, and data collection on geo-hazard assessments were conducted successfully in Jajarkot and Rukum West.

Furthermore, NHSRP played a pivotal role in developing and disseminating tools such as the geo-hazard assessment data collection tool, templates for data collection (e.g., 4/5W Matrix, enrollment status update, shelter construction updates), and a tracking system for disaster relief items by forming group messaging in WhatsApps and a dedicated email to facilitate efficient information flow and coordination with all Palikas and involved partners demonstrating a comprehensive and strategic approach to post-earthquake recovery efforts in the region.

Along with this, the team also monitored the on-the spot temporary shelter construction by the affected families. The team also collected experiences of successful temporary shelter construction from the beneficiaries in various Palikas of Jajarkot along with focussed Key Informants Interviews with the district and Palikas officials regarding identifying the gaps and issues in grant disbursement for temporary shelter construction and in post-earthquake response and rehabilitation phase.

PUBLICATIONS - NDRRMA

Community Information Board (FAQs) on Temporary Shelter Construction

अस्थायी आवास अनुदान सम्बन्धी जिज्ञासा

१. अस्थायी आवास लाभग्राही कसरी कायम हुन्छ?

- आवास पूर्ण वा आंशिक रूपले क्षति भएता पनि बसोबास गर्न योग्य नभएको हुनुपर्नेछ ।
- स्वधोषणा सहितको निवेदन र बढाको सिफारिसका आधारमा स्थानीय विपद् जोखिम न्यूनीकरण तथा व्यवस्थापन समितिले लाभग्राही कायम गरेको हुनुपर्नेछ ।

२. अस्थायी आवास लाभग्राही कायम हुनका लागि बढाका निवेदन सँगै बुझाउनु पर्ने कागजातहरू के-के हुन्?

- पूर्ण वा आंशिक रूपले क्षति भएता पनि बसोबास गर्न योग्य नभएको संरचनाको फोटो
- प्रहरीको मुचुल्का (प्रत्येक घरघुरीको मुचुल्का नभएको अवस्थामा सामूहिक मुचुल्का पनि मान्य हुने)
- परिचयपत्रको प्रतिलिपि (नागरिकता वा राष्ट्रिय परिचयपत्र वा मतदाता परिचयपत्र वा बढाको सिफारिस)
- बैंक तथा वित्तीय संस्थामा रहेको खाताको विवरण वा चेकको प्रतिलिपि
- घरमूली उपस्थित नभएको अवस्थामा, मजुरीनामा सहितको निवेदन

३. के अनुदान किस्ताका लागि लाभग्राहीको बैंक खाता हुन आवश्यक छ?

- पहिलो किस्ताका लागि बैंक खाता भए बैंक खातामा र बैंक खाता नभएका लाभग्राहीको हकमा नगदे रकम उपलब्ध हुनेछ ।
- तर अन्तिम किस्ताका लागि बैंक खाता अनिवार्य छ ।

४. अस्थायी आवास निर्माणका लागि प्रत्येक लाभग्राहीले कति अनुदान रकम पाउनेछन्?

- सम्प्रेता पछात पहिलो किस्ता रकम रु. २५,०००/-
- अन्तिम किस्ता रकम रु. २५,०००/-
- यसरी दुई किस्तामा गरी जम्मा रु. ५०,०००/- पाउनेछन् ।

५. अस्थायी आवासका लागि आफैले टहरा निर्माण गर्दा अनुदान रकम पाइन्छ वा पाइदैन?

- पाइन्छ तर कार्यविधि अनुसार सबै प्रक्रिया पूरा गरी लाभग्राही कायम हुनुपर्छ ।

६. भूकम्पअघि एउटै आवासमा बस्दै आएका तर अलग्गिएका परिवारले छुट्टाछुट्टै अस्थायी आवासका लागि अनुदान पाउन सक्छन्?

- सक्दैनन् । भूकम्प गएका बखत एउटै आवासमा बसोबास गरिराएका जतिबुकै परिवार भएता पनि ती सबैलाई एउटै परिवार मानि एउटा मात्र अस्थायी आवास लाभग्राही कायम गरिनेछ ।

९. अनुदान रकम पाउनका लागि लाभग्राहीले जोखिमयुक्त घर भत्काउनु पर्छ वा पर्दैन?

- पराक्रमहरू आइरहेका हुन्छन् । यस्तोवेला फेरि पनि जोखिमयुक्त घरहरूमा बसिरहनु उचित हो र ? दफा ११ को उपदफा (५) मा स्थानीय तहको विशेष भूमिकामा 'लाभग्राहीका भूकम्पबाट बच्ने, भत्केका जोखिमयुक्त भवन भत्काउन लगाउने' स्पष्ट व्यवस्था गरिएको छ ।

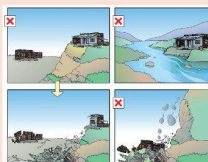

१०. अस्थायी आवास अनुदान रकम लिएर आवास निर्माण नगर्ने लाभग्राहीलाई के हुन्छ?

- अनुदान रकम लिएर निर्माण सम्पन्न नगर्ने लाभग्राही र निजका परिवारलाई नेपाल सरकारबाट उपलब्ध गराइने पुनर्निर्माण तथा अन्य सेवा सुविधाबाट बञ्चित गराइनेछ साथै अनुदान बापत लिएको रकम सरकारी बाँकी सरह असुल उपर गरिनेछ ।

बिषेश नोट: भूकम्पका लाभग्राहीको एक वा सो भन्दा धेरै जति घर क्षति भएता पनि सो लाभग्राहीले एक मात्र अस्थायी आवास बनाउनका लागि अनुदान रकम पाउनेछन् ।

अस्थायी आवास निर्माण स्थलको छनोट र परीक्षण

निर्माणका लागि उपयुक्त नहुने स्थान यस प्रकार छन्:

- पानी जम्ने स्थान
- हुइँडा खस्ने स्थान
- पहिरो जान सक्ने स्थान
- माटो भरेको वा पुराना माटो भएको स्थान
- नदीको बगर वा सीमसार स्थान
- स्थायी, सडक तथा गहिरो भौगर्भिक चिरा भएको स्थान
- भिरालो स्थान (अधिकतम २० डिग्री भिरालो सम्ममा मात्र निर्माण गर्नु पर्छ)

निर्माण स्थलको निरीक्षण गर्दा कम्तिमा २ वटा २ मिटरसम्म गहिरो खाल्डो खनी परीक्षण गर्ने ।

पहाडी क्षेत्रमा चट्टान भएको सतह भेटिएमा गहिरोई कम तिन सकिनेछ ।

४. अस्थायी आवासका लागि आफैले टहरा निर्माण गर्दा अनुदान रकम पाइन्छ वा पाइदैन?

- पाइन्छ तर कार्यविधि अनुसार सबै प्रक्रिया पूरा गरी लाभग्राही कायम हुनुपर्छ ।

५. लाभग्राहीले अस्थायी आवास निर्माण गर्दा स्थानीय स्रोत साधनहरू प्रयोग गर्न पाउनेछन् वा छैनन्?

- पाउनेछन् र सकेसम्म स्थानीय सामग्रीहरूकै प्रयोगमा जोड दिनुपर्नेछ ।

६. कुनै संघसंस्था वा अन्य निकायको आर्थिक सहयोगले अस्थायी आवास निर्माण गरिएको खण्डमा अनुदान रकम पाइन्छ वा पाइदैन?

- पाइदैन । तर, लाभग्राहीले आफ्नै लागतमा निर्माण गरेको र कार्यविधि अनुसार सबै प्रक्रिया पूरा गरी लाभग्राही कायम भएको खण्डमा भने अनुदान रकम पाइनेछ र यस प्रक्रियामा श्रमदान गर्न वा गरेको भएमा बाधा पर्ने छैन ।

७. अस्थायी आवास निर्माणका लागि प्रत्येक लाभग्राहीले अनुदान रकम पाउनेछन्?

- सम्झौता पश्चात पहिलो किस्ता रकम रु. २५,०००/-
- अन्तिम किस्ता रकम रु. २५,०००/-
- यसरी दुई किस्तामा गरी जम्मा रु. ५०,०००/- पाउनेछन् ।

८. भूकम्पअघि एउटै आवासमा बस्दै आएका तर अलग-अलग परिवारले छुट्टाछुट्टै अस्थायी आवासका लागि अनुदान पाउन सक्छन्?

- सक्दैनन् । भूकम्प गएको बखत एउटै आवासमा बसोबास गरिरहेका जतिबुकै परिवार भएता पनि ती सबैलाई एउटै परिवार मानी एउटा मात्र अस्थायी आवास लाभग्राही कायम गरिनेछ ।

९. अनुदान रकम पाउनका लागि लाभग्राहीले जोखिमयुक्त घर भत्काउनु पर्छ या पर्दैन?

- दफा ११ को उपदफा (५) मा स्थानीय तहको विशेष भूमिकामा "लाभग्राहीका भूकम्पबाट चर्के, भत्केका जोखिमयुक्त भवन भत्काउन लगाउने" स्पष्ट व्यवस्था गरिएको छ ।

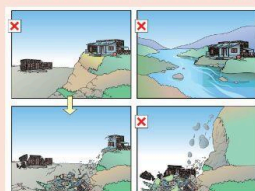

१०. अस्थायी आवास अनुदान रकम लिएर आवास निर्माण नगर्ने लाभग्राहीलाई के हुन्छ?

- अनुदान रकम लिएर निर्माण सम्पन्न नगर्ने लाभग्राही र निजका परिवारलाई नेपाल सरकारबाट उपलब्ध गराइने पुनर्निर्माण तथा अन्य सेवा सुविधाबाट बञ्चित गराइनेछ साथै अनुदान बापत लिएको रकम सरकारी बाँकी सरह असुल उपर गरिनेछ ।

विशेष नोट: भूकम्पका लाभग्राहीको एक वा सो भन्दा धेरै जति घर क्षति भएता पनि सो लाभग्राहीले एक मात्र अस्थायी आवास बनाउनका लागि अनुदान रकम पाउनेछन् ।

अस्थायी आवास निर्माण स्थलको छनौट र परीक्षण

निर्माणका लागि उपयुक्त नहुने स्थान यस प्रकार छन्:

- पानी जम्ने स्थान
- ढुङ्गा खस्ने स्थान
- पहिरो जान सक्ने स्थान
- माटो भरेको वा पुरुवा माटो भएको स्थान
- नदीको बगर वा सीमसार स्थान
- स्थायी, सक्रिय तथा गहिरो भौगर्भिक चिरा भएको स्थान
- भिरालो स्थान (अधिकतम २० डिग्री भिरालो सम्ममा मात्र निर्माण गर्नु पर्छ)

निर्माण स्थलको निरीक्षण गर्दा कम्तिमा २ बटा २ मिटरसम्म गहिरो खाल्डो खनी परीक्षण गर्ने । पहाडी क्षेत्रमा चट्टान भएको सतह भेटिएमा गहिरोई कम लिन सकिन्छ ।

****CDRI Fellowship Programme 2024-25****

CDRI Fellowship 2024-25 will be awarded to promising, actionable solutions that have demonstrated impact in a local context, with potential for scale. Proposals are considered in various aspects of multi-hazard disaster risk management and for creating resilient infrastructure and community wellbeing. Links: [Fellowship FAQs](#), [Apply online](#).

Last Date of Application: **15 January 2024** (Saturday, 11:59 pm IST)

CDRI FELLOWSHIP PROGRAMME 2024-25

The CDRI Fellowship Programme invests in cutting-edge research and **innovative solutions towards disaster and climate resilient infrastructure**. The Fellowship provides financial support, peer learning and capacity development opportunities to promote **transformative, actionable and scalable solutions** for real world issues related to disaster resilience of infrastructure.

LOCAL SOLUTIONS FOR GLOBAL INFRASTRUCTURE RESILIENCE CHALLENGES

Accelerated climate action is critical to meet the enormous challenges posed to communities and ecosystems across the globe by the unrelenting climate crisis. While most national governments have committed to meet the global goals and targets, these commitments need to be backed by decisive, credible actions. Enabling and amplifying local actions and on-ground solutions led by local actors and change agents with the potential to transform infrastructure systems will be critical to inform global responses.

THEMES FOR FELLOWSHIP 2024-25

- Gifts for Infrastructure Resilience
- Multi hazard Early Warning Systems
- Resilient Food Systems
- Resilient Infrastructure to Withstand Extreme Heat
- Climate Resilient Infrastructure in High Mountain Regions
- Infrastructure Vulnerability to Secondary Hazards

ELIGIBILITY CRITERIA

Researchers from academic institutes and practitioners from government agencies, non-governmental, private and civil society organizations who are nationals of CDRI Member Countries.

SELECTION PROCESS

The proposals will go through a rigorous four-tiered selection process including a double-blind peer review. The final decision will be taken by the Fellowship International Jury.

DURATION 12 months

GRANT AMOUNT US\$ 15,000

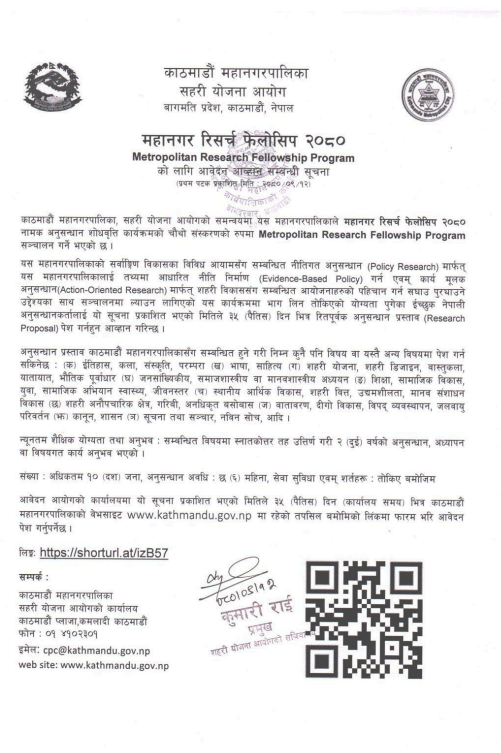

Last Date of Application: **15 January 2024 (11:59 pm IST)**
