

USAID
FROM THE AMERICAN PEOPLE

Technical Workshop on

Current Status of Technical Assistance in Reconstruction and its Challenges

BALIYO GHAR PROGRAM

Pramod Khatiwada
District Coordinator

USAID
FROM THE AMERICAN PEOPLE

Objectives

- **Concept and Introduction of Baliyo Ghar**
- **How we work??**
- **Technical Assistance via Baliyo Ghar and its synchronization with TA model of NRA**
- **Achievements of Technical Assistance**
- **Challenges Faced and Recommendation for safer reconstruction**

USAID
FROM THE AMERICAN PEOPLE

BALIYO GHAR

Implemented by:
**National Society for Earthquake Technology-Nepal
(NSET)**

with funding support from
**United States Agency for International Development
(USAID)**

USAID
FROM THE AMERICAN PEOPLE

Baliyo Ghar Introduction

Name of the Program: Baliyo Ghar

Life of Project: October 2015 to September 2020

Goal: Support the GON's owner driven model of housing reconstruction by promoting disaster resilient construction standards and design and building back safer in earthquake affected districts

USAID
FROM THE AMERICAN PEOPLE

Goals

The program has two-fold goals:

- In shorter-term, the program aims at ensuring earthquake safer construction of all houses being reconstructed;
- For longer-term, the program aims to establish a system of disaster-resilient construction to achieve the goal of disaster-resilient communities in Nepal.

USAID
FROM THE AMERICAN PEOPLE

Reconstruction Technical Support Activities

- **Selection of Housing Technology appropriate to Nepal**
- **Curricula for Training Programs**
- **Mass Awareness Programs and Social Mobilization**
- **Training Programs for Capacity Building**
- **Building Permit System**
- **Building Code Compliance**
- **Financial Assistance**

USAID
FROM THE AMERICAN PEOPLE

Safer Housing Reconstruction

Not only stone masonry but also RCC buildings collapsed

Every houses reconstructed must be earthquake resistant

Owner/masons/Engineer are directly involved in a building

Each building requires a trained mason in the reconstruction

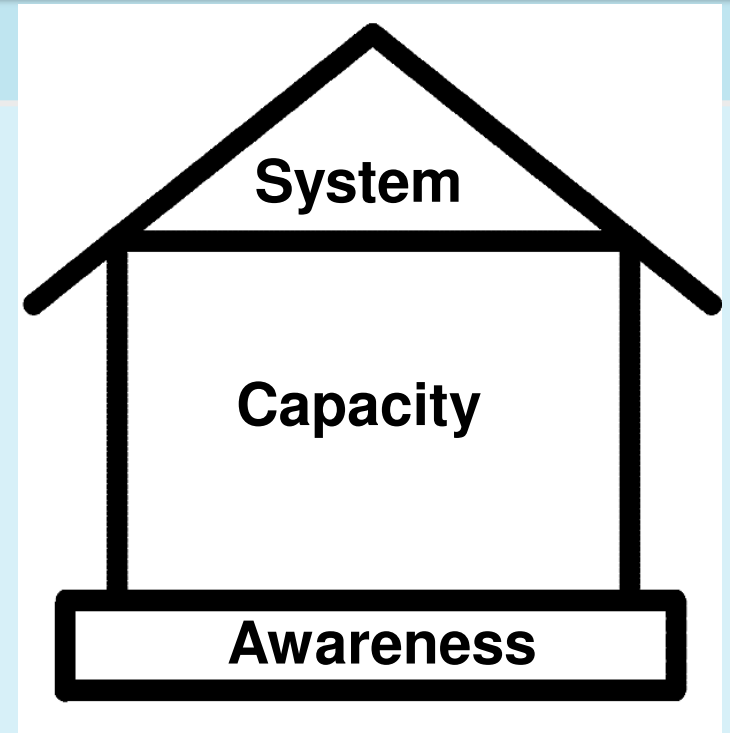

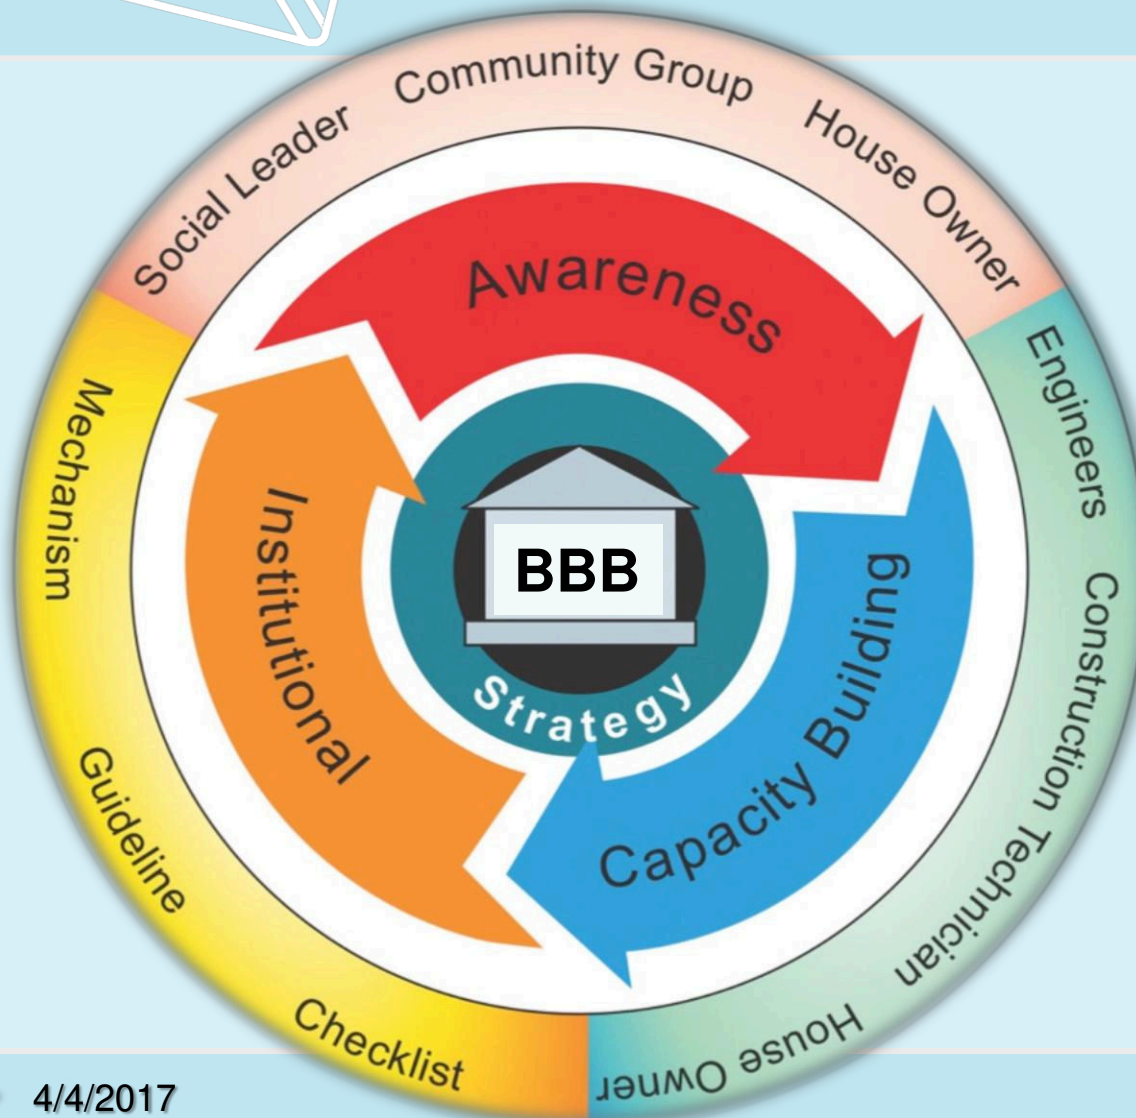

The house owners should know:

- **What & how is an earthquake resistant building constructed**
- **How and from where to get technical & financial assistance**

USAID
FROM THE AMERICAN PEOPLE

Baliyo Ghar Concept 1: Comprehensiveness

- Counting Impact!
- Trust
- Accountability
- Sustainability
- Institutionalization

10

USAID
FROM THE AMERICAN PEOPLE

Baliyo Ghar Concept 4: Blanket Technical Assistance

Blanket Technical Support to Every Household in the VDCs we work

There are sufficient lessons from around the World:

- On Technology
- On Process

Reconstruction as an Opportunity for Building Disaster Resilient Communities in Nepal

USAID
FROM THE AMERICAN PEOPLE

Challenge!

Not to confuse People!

Same Technology, **Same Standard**, Same
Curricula, **Certification**, Same Guidelines,
Same Manuals, Same System,**Same**....

USAID FROM THE AMERICAN PEOPLE

Program Activities at Different Level

National

- Technical support on Curricula, Guidelines, Manuals, Advocacy etc.
- National Reconstruction Technology Centre (NRTC)
- Develop Instructors for Other Districts

District

- District Reconstruction Technology Centre (DRTC)
- Training to Trainers
- Support Project Teams

Local

- Establishment of Local Reconstruction Technology Centers (LRTCs)
- House to House Technical Support in selected VDCs
- Training
- Campaign

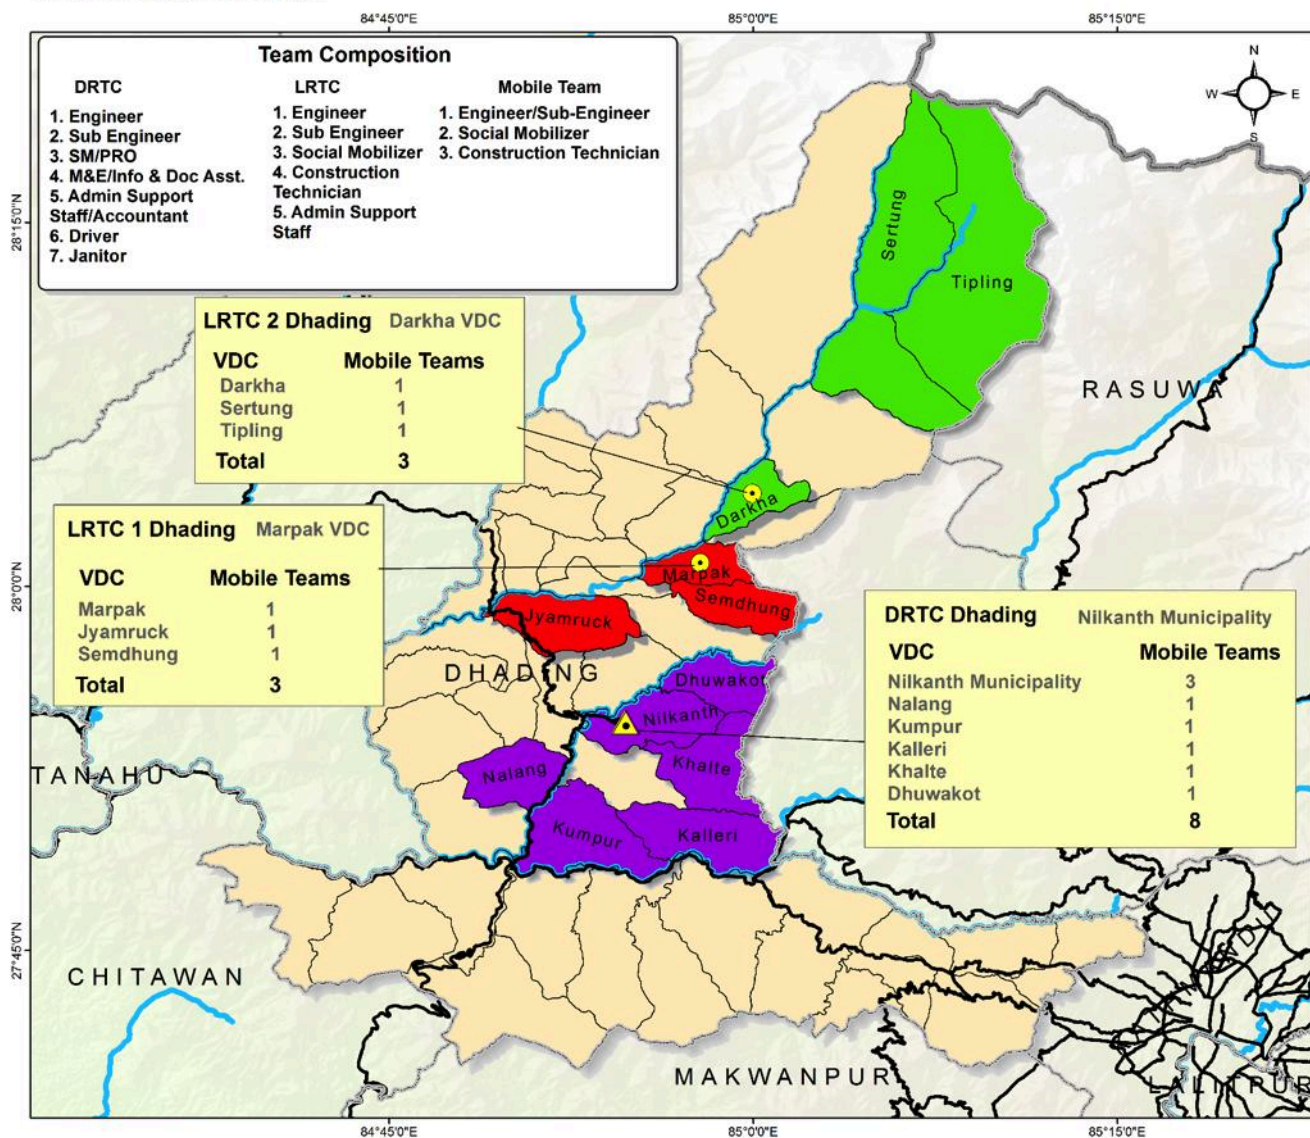

4/4/2017

USAID
FROM THE AMERICAN PEOPLE

Target group

The project targets mainly following five beneficiaries at various levels:

- 1. Technical Professional:** engineers, sub engineers, architects, structural engineers
- 2. Construction Workers:** masons (brick-layers, stone-layers, concrete workers), carpenters, bar- benders, contractors: termed as “mason” in general
- 3. Common people:** house-owners, consumer groups and other groups of people such as Mother’s groups
- 4. Social mobilizers:** community mobilizers, social activists
- 5. Policy and decision makers** – officials at municipalities and VDCs, political leaders, officials at ministries and departments

USAID
FROM THE AMERICAN PEOPLE

Technical Assistance Components (as per NRA)

- **Short Training for Masons**
- **Vocational/ On the Job Training for Mason**
- **Community/Household Orientation (BBB Messaging)**
- **Technical Supervision (Mobile Technical Support)**
- **Help Desk / Technical Assistance Centre**
- **Demonstration Construction**

USAID

Challenges

- **Replication and dissimilarity of similar program activities at VDC by partner organizations.**
- **Coordination with government organizations, political members in initial phase.**
- **How NGOs and INGOs are looked upon.**
- **Remoteness of the District**
- **Cognitive Biasness among local people in VDC.**
- **Houses constructed but do not comply**

4/4/2017

45

USAID
FROM THE AMERICAN PEOPLE

Major Learning

- Including government bodies, leaders and forward people of the community is the best way to conduct program to achieve the expected objectives.
- Detailed Data Collection of VDC

USAID
FROM THE AMERICAN PEOPLE

Suggestions/Recommendations

- **Involving government officials in discussion and workshop**
- **Coordination with DLPIU Engineers for uniform message dissemination**
- **Proper selection of participants for activities**
- **Coordination, Discussion and sharing platform between Pos**

USAID
FROM THE AMERICAN PEOPLE

Thank You!
