

Joint Collaboration between CRS Nepal, NHSRP, and Build Up Nepal in a World Bank-Funded Research Project: "Review of Resilient, Inclusive, and Sustainable Building Technologies in Nepal" are being conducted across eight municipalities in Nepal, aims to generate technical evidence on the resilience, sustainability, inclusivity, social development contribution, and scalability of various building technologies (housing typologies). Kickoff meetings and data assessments have been completed in Aathbiskot, Bheri, Suryodaya, and Maiwakhola municipalities in Karnali and Koshi provinces. The initiative also seeks to enhance the capacity of local entrepreneurs and construction professionals in these municipalities to adopt and integrate these technologies into their business models.

- IV. **World Cities Day and World Town Planning Day held in Kathmandu**
- V. **Discussion held to track the progress of temporary housing with Partner organizations.**

KEY GOVERNMENTAL UPDATES

COP 29 and Nepal's participation : President Paudel led the high level session

The 29th Conference of the Parties (COP29), held in Baku, Azerbaijan, brought together representatives from nearly 200 countries to address pressing climate issues, with a strong focus on climate finance. Negotiations at COP29 were organized into groups, facilitating the exchange of perspectives, the formulation of agreements, and the establishment of shared agendas. High-level sessions provided a platform for heads of delegations to present their countries' positions, priorities, and demands. While these speeches amplify national voices, the core of COP lies in the negotiations and resulting agreements. Nepal, representing the Least Developed Countries (LDC) group, emphasized that "The voice of LDCs is also of Nepal," as highlighted by Nepali experts and government officials. Nepal prioritized its concerns at COP29, participating in high-level meetings and securing agreements for grants to support its fight against the climate crisis. Nepali experts and officials led discussions on critical themes such as climate finance, loss and damage, enhancing transparency frameworks, carbon trading, capacity building, emission reduction, and inclusiveness in climate action.

In order to draw global attention to climate change impacts in Nepal, a high-level session was held on November 13, led by Right Honorable President Ramchandra Paudel during COP 29.. The session featured 'addressing loss and damage in mountain regions'. Nepal's pressing issues related to loss and damage, like that in Melamchi, Mustang, Kanchanpur, Thame and Kathmandu Valley. COP29 commenced with a grand opening ceremony on November 11 and is scheduled to conclude on November 22. Source news: [Nepal's agenda in COP 29 President Paudel hosted high-level session](#)

Nepal unveiled projects to build community resilience to climate change and enhance national transparency in climate action.

At the 29th Conference of Parties (COP 29) held in Baku, Nepal unveiled two significant projects funded by the Global Environmental Facility (GEF) to build community resilience to climate change and enhance national transparency in climate action. The launch event, organized in collaboration with the Ministry of Forests and Environment (MoFE) and GEF, was attended by key stakeholders, including representatives from GEF, Nepal's Ministry of Finance, and MoFE's Climate Change Management Division, as well as international participants. The two projects, titled "Managing Watersheds for Enhanced Resilience of Communities to Climate Change in Nepal" (MaWRiN) and "Building National Capacities of Nepal to Meet Requirements of the Enhanced Transparency Framework of the Paris Agreement" (CBIT), represent a vital step forward in Nepal's climate action strategy. Joint Secretary of the Ministry of Finance, Mr. Dhaniram Sharma, praised the CBIT project's role in enhancing transparency and accountability in Nepal's climate action. He also stressed the importance of MaWRiN project, which aims to improve climate resilience by managing watersheds and promoting sustainable, community-centered environmental strategies. He noted that while Nepal has received climate financing, more robust support is needed to meet the increasing vulnerability and impact of climate change. 12th World Urban Forum: Chandragiri Municipality presented the Voluntary Local Review Report

The Twelfth Session of the World Urban Forum (WUF12), organized by the United Nations Human Settlements Programme (UN-Habitat), successfully concluded in Cairo, Egypt, from November 4 to 8, 2024. Nepal was represented by Deputy Prime Minister and Minister for Urban Development, Prakash Man Singh, who effectively highlighted the challenges Nepal faces in urbanization, drawing global attention to the need for collaborative solutions. Nepal's participation strengthened international cooperation in urban development and provided a platform to showcase its progress while addressing ongoing challenges in urbanization efforts. During the forum, Chandragiri Municipality presented its Voluntary Local Review (VLR) report, with Mayor Ghanashyam Giri sharing insights on localizing specific thematic areas of the Sustainable Development Goals (SDGs). [Nepal's participation in World Urban Forum](#)

World Cities Day and World Town Planning Day held in Kathmandu

Under the themes “Youth Climate Changemakers: Catalyzing Local Action for Urban Sustainability” and “Homes Start with Planning,” the Ministry of Urban Development/Department of Urban Development and Building Construction (MOUD/DUDBC), in collaboration with the Regional and Urban Planners Society of Nepal (RUPSON), UN-Habitat Nepal, and other stakeholders in urban development, jointly celebrated this year’s World Cities Day and World Town Planning Day on 25th November.

The event was honored by the presence of Hon. Deputy Prime Minister and Minister for Urban Development, Mr. Prakash Man Singh. A special presentation by Mayor Hari Prasad Mandal of Matihani Municipality, showcasing its urban development initiatives. An overview of the journey from the Nepal National Urban Forum (NNUF) to the World Urban Forum (WUF-12) by Ms. Pragya Pradhan of UN-Habitat Nepal. A review of the New Town Project was also shared in the program. The event witnessed active participation from MOUD/DUDBC officials and associated entities, RUPSON members, academia (including the Institute of Engineering and Khwopa Engineering College), UN-Habitat, and various organizations engaged in urban development.

Discussion held to track the progress of temporary housing

A discussion was held with the representatives of the partner organizations regarding progress updates of temporary housing for the affected people who lost their homes due to floods and landslides in this year's monsoon. The meeting was convened by NDRRMA with partner organizations involved in post-disaster response and the temporary shelter construction.

The Government of Nepal has identified 71 local levels across 20 districts as affected by this year's monsoon. Among these, 9 local levels are categorized as "severely affected," while others are marked as "affected" and "minorly affected." Approximately 18,403 households have been impacted. NDRRMA shared a presentation on current details of grant disbursement processes while representatives of partner organizations shared progress of activities. Discussions were focused on potential ways and activities to enhance temporary shelter enrollment and streamline the grant disbursement process.

PARTNERS' UPDATES

Strengthening disaster risk management systems in Southern Nepal

In Saptari district, a series of school orientation programs were organized to enhance students' understanding of local disaster risks, emphasize the importance of disaster preparedness and response, reduce the impact of recurring disasters, and promote community resilience. The initiative engaged 1,000 students from grades 9 to 12 across 11 secondary schools in various municipalities. An art competition along with a public awareness campaign focused on disaster risk reduction and safeguarding local culture was organized in Kanchanrup Municipality that aimed to promote students' understanding of impending disasters in the locality and to sensitize them to the importance of disaster preparedness and response. Similarly, public awareness campaign was organized these programs were jointly conducted by the National Society for Earthquake Technology – Nepal (NSET) and the Koshi Victim's Society (KVS) as part of the USAID/BHA-funded "Resilience" – UTTHAN program, aimed at strengthening disaster risk management systems in southern Nepal. [Source: NSET](#)

Cross-learning visit facilitated by the Pratibaddha Project

The Danish Red Cross, through the EU Civil Protection & Humanitarian Aid-funded Pratibaddha Project, facilitated a successful cross-learning visit in Sindhupalchok. The program showcased Disaster Risk Management (DRM) initiatives in Bhotekoshi Rural Municipality, focusing on: Relocation and Reconstruction; Early Warning Systems; Forecast-Based Action (FbA) and Shock Responsive Social Protection (SRSP). Local representatives from Gulariya Municipality, Bhajani Municipality, Punarwas Municipality, Janaki Rural Municipality, Laljhadi Rural Municipality, Barbardia Municipality, and Tikapur Municipality actively engaged with officials from Bhotekoshi Municipality and Community Disaster Management Committees (CDMCs). This interactive exchange provided a platform for sharing experiences and exploring innovative strategies to strengthen disaster preparedness and resilience across municipalities and at-risk communities. Review Study of Resilient, Inclusive and Sustainable Building Technologies in Nepal

CRS Nepal and NHSRP jointly collaborated and signed an agreement with Build Up Nepal for a World

Bank funded research project “Review of Resilient, Inclusive, and Sustainable Building Technologies in Nepal”. The study will be conducted in eight municipalities across Nepal. Kickoff meetings and data assessment have been completed in Aathbiskot, Bheri, Suryodaya and Maiwakhola municipalities in Karnali and Koshi provinces and four meetings are planned for early December 2024.

Helping communities recover and rebuild by promoting Compressed Stabilized Earth Block

To support earthquake-affected communities in Jajarkot and Rukum West, Joint Recovery Action Plan (JRAP) is establishing green—CSEB (Compressed Stabilized Earth Block) and stone-cutting enterprises— across all 13 municipalities. These enterprises aim to provide affordable, sustainable, and earthquake-resilient construction materials while creating job opportunities and supporting local livelihoods. Entrepreneurs leading these efforts will receive machinery and comprehensive training in production, business management, masonry, and engineering techniques to ensure sustainable operations and adherence to safe building standards. With NDRRMA's leadership, UKAid and UNDP are enabling communities to rebuild with locally driven and sustainable solutions.

Construction of earthquake demonstration shelter underway in Jajarkot & West Rukum

CRS Nepal collaborated with Caritas Nepal to focus on strengthening community recovery and resilience, ensuring every family has a safe place to call home as they move forward from past challenges. The Jajarkot Earthquake Recovery Project II (JERP) initiative is paving the way for safe, secure & resilient homes for families to rebuild lives in Jajarkot and West Rukum districts through the earthquake-resistant demonstration shelter.

Empowering earthquake-affected families with sustainable livelihoods

As part of the Jajarkot Earthquake Recovery Project II (JERP), CRS Nepal in collaboration with Caritas Nepal, is conducting goat keeping and shed management training sessions in Wards 3 & 4 of Jajarkot district, with more sessions planned in Aathbiskot Municipality, Rukum West. These sessions are providing farmers with critical skills in - livestock care, proper goat shed management and administering basic medicines. The goals of livelihood extension support is to help

earthquake-affected families rebuild their livelihoods sustainably and adopt resilient farming practices. Participating families are already seeing the impact with improved livestock health and increased productivity which is paving the way for more resilient communities.

Landslide risk alert in Panauti Municipality, Ward -12

A rapid assessment of landslide risks was conducted in Panauti Municipality, Ward No. 12, Kavrepalanchowk district, Bagmati Province. The assessment was carried out by CRS Nepal-led consortia under the Start Fund Nepal-supported project, "Restoring Local Assets and Infrastructure through Emergency Financing (RELIEF)" (N-24), in collaboration with the local partner, Shanti Jana Adarsh Sewa Kendra (SJASK). The highlights of assessment reveals -i) Recent heavy rainfall has triggered shallow landslides (less than 1m deep) in multiple areas and ii) Long cracks and unstable soil conditions point to ongoing instability. Similarly, highlights of key risks include - Accumulated debris, including soil, gravel, and boulders, poses a threat of river blockages and potential outbursts during future monsoons and Community livelihoods are under threat, with agricultural lands at high risk of damage.

Based on the assessment of landslide risk in these areas, urgent actions encircle around- i) debris clearance from river channels to mitigate risks, ii) Strengthen drainage management in upslope areas and iii) Implement targeted restoration measures while addressing financial challenges.

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM SUDURPASCHIM

Technical support continued to the Ministry of Internal Affairs and Law (MoIAL), and provided technical support across various disaster risk reduction and management initiatives. This includes addressing housing-related queries within the NDRRMA reconstruction and resettlement procedural guidelines, extending assistance to municipal bodies throughout Sudurpaschim Province. Key responsibilities encompass the creation of user IDs, verification and approval of incident data, enrollment of local

government bodies, district-level inspection of reconstructed homes, and overseeing tranche release processes. Additionally, the team regularly supports the compilation of disaster data and information for inclusion in the Provincial Emergency Operation Center's (PEOC) disaster bulletin for Sudurpaschim. UPDATES FROM KARNALI

Initiatives under Joint Recovery Action Plan (JRAP)

Workshop on Reconstruction and Recovery Action Plan

is being conducted by NHSRP at all thirteen municipalities of Jajarkot and West Rukum. Till date, 10 workshops have been completed and 3 are underway. This event brought together key stakeholders involved in post-disaster recovery efforts, aiming to consolidate efforts for the sustainable rebuilding of the community. This collaborative event aimed to streamline efforts for sustainable community rebuilding. The active participation of municipal local officials was instrumental in shaping comprehensive and actionable Recovery & Reconstruction documentation.

Two trainings focused on Social Mobilization for social mobilizers and two trainings focused on Green, Resilient and Inclusive Development (GRID) are being conducted in Jajarkot and West Rukum district. These trainings are focused to capacitate local human resources to further support in housing recovery and reconstruction.

Orientation on Temporary Housing Grants to Disaster-Affected Households Standards, 2081

(referred to as Standards, 2081) are being conducted in Jajarkot and Rukum West districts. To facilitate temporary shelter tranche disbursement process, NHSRP district team have conducted four half-day orientations in four municipalities of Jajarkot and West Rukum. The orientation also focused on integration of temporary shelter beneficiaries data into the information Management Systems of the Bipad Portal.

By enhancing the capacity of local elected officials, along with key municipal personnel, these orientations laid a strong foundation for efficient, transparent recovery processes and a resilient future for disaster-affected communities in earthquake affected areas of Jajarkot and Rukum West district. Organized through JRAP (Joint

Recovery Action Plan), the NHSRP team facilitated engaging sessions and discussions, guiding participants through the action plan's development process.

JRAP was launched in 2024 by the National Disaster Risk Reduction and Management Authority (NDRRMA). Supported financially by the UK's Foreign, Commonwealth and Development Office (FCDO), this joint programme is being implemented by four UN agencies —UNICEF, IOM, UNFPA, and WFP—under the leadership of the UN Resident Coordinator's Office

UPDATES FROM LUMBINI

Technical assistance continued to District Administration Office (DAO) Gulmi, Dang and Pyuthan districts for the approval verification and tranche disbursement process of NDRRMA housing reconstruction grant. Similarly, the NHSRP team extended coordination support to the World Bank for a meeting at Rapti Rural Municipality Dang. The NHSRP province team has consistently provided extensive technical support to the provincial ministry, ensuring effective assistance throughout the process. For more information: prakash.basnet@hrrpnepal.org

UPDATES FROM GANDAKI

The NHSRP province team meticulously coordinated with the DRR focal person and technical personnels of local governments in several districts to document beneficiary information comprehensively mainly for release of second and third tranche of monsoon affected disaster housing reconstruction. Furthermore, technical support continued in disaster affected beneficiaries' information entry to the DRR focal person of Office of Chief Minister and the Council of Ministers (OCMCM, Gandaki Province) on Bipad Portal and RMIS tool. For more information: rajesh.sunuwar@hrrpnepal.org

UPDATES FROM BAGMATI

Bagmati Province hosted a productive discussion with the NDRRMA on November 24, 2024 for strengthening disaster risk reduction. Led by the Ministry of Internal Affairs and Law (MoIAL), the meeting focused on aligning annual programs and addressing policy concerns for DRRM. Hon. Suraj Chandra Lamichhane, Minister of Internal Affairs and Law, and Mr. Anil Pokhrel, Chief Executive of NDRRMA, led the dialogue, joined by MoIAL Secretary Purna Bahadur Gharti and senior officials. Secretary Gharti presented Bagmati Province's DRRM programs and outlined areas where NDRRMA's support is crucial for successful implementation. This collaborative effort highlights a shared commitment to enhancing disaster

resilience at the provincial level. For more information: laxmiprasad.bhatta@hrrpnepal.org

UPDATES FROM KOSHI

NHSRP has been providing coordination and data management support to NDRRMA

in response to the September Flood and Landslide, 5W collection and reporting is underway. The NHSRP Koshi Province team in collaboration with MoIAL Koshi & DAO Ilam, conducted surveys of 21 affected households in Sandakpur Rural Municipality. The team held coordination meetings, delivered guideline orientations, updated data systems and finalized MoUs with all 21 households for temporary shelter construction. As a result, several beneficiaries have already begun building their temporary shelters and the municipality is releasing the first tranche by December 2024.

Post-monsoon recovery and reconstruction efforts in Phidim

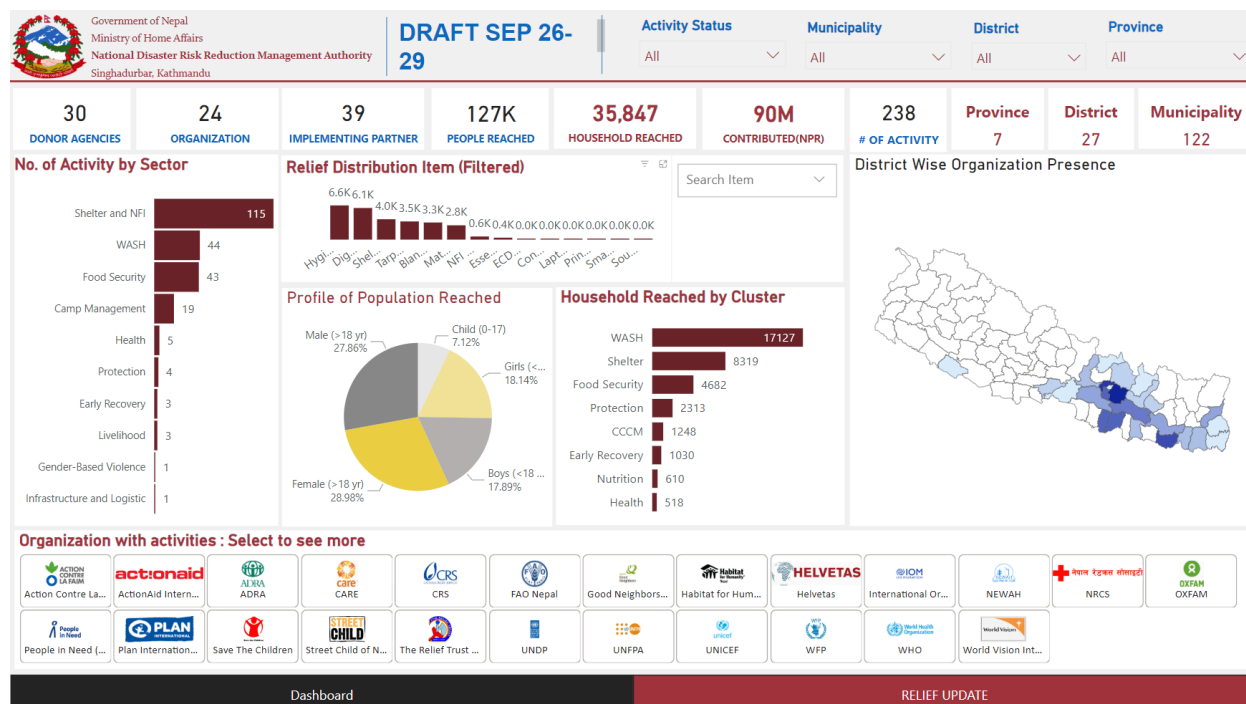

Municipality started with the coordination forwarded by NHSRP with DAO Panchthar and Phidim Municipality which was declared as a crisis hit zone. In Phidim, 125 houses were fully damaged, and 193 households partially affected. Targeted recovery initiatives included - conducted sessions on temporary shelter construction; socio-technical assistance for surveys and data updates in the Bipad portal, held discussions with Phidim Municipality leadership and Caritas Nepal, which plans to distribute relief materials to families with fully damaged homes, organized meetings with DAO representatives for temporary shelter efforts, and facilitated a field visit to engage with affected families and oversee recovery activities. The municipality and ward teams have begun data collection, updated the Bipad portal, and are finalizing MOUs with families to expedite temporary shelter construction. These efforts aim to ensure timely support and rebuild community resilience.
