Name of Activity	Technical Orientation		
Program Name:	One Day Technical Orientation on Retrofit		
Location	Ward no 9, Marsyangdi Rural Municipality, Lamjung		
Date	15 Feb, 2020		
Organizer	1. DLPIU-GMaLI		
Targeted Groups	Retrofit Beneficiaries, Masons		
Number of participants	Male	Female	Total
	41	20	61
Resource Persons from HRRP	Biren Shah, District Technical Coordinator-Lamjung		
Counterpart Coordinator	Biren Shah	Contact No:9817396852	
Program Brief	One Day Technical Orientation Program was organized by DLPIU-GMaLI targeting the retrofit beneficiaries and masons to enhance their knowledge and increase willingness in the retrofit process. The program was chaired by Ward chairperson Mr. Narayan Bahadur Thapa. Various ward level stakeholders, school management committee members were present in the orientation. The sessions were focused on the methods of retrofitting stone masonry in mud mortar house, financial parameters and its feasibility to the houses present in the ward. The sessions were taken by District Support Engineer-Mr. Umesh Dangol and District Technical Coordinator-Mr. Biren Shah, HRRP.		
Session and Observations			
Lists of Session/support from HRRP	This was the first orientation in this ward regarding retrofitting process. Maximum of the beneficiaries has no idea about the process and methods. The confusion between repair and retrofit is one of the major cause for the delay in the progress of the retrofitting of the house and low progress of second tranche to the retrofit beneficiaries.		
(For Example: Coordinated for the orientation/technical session etc.)	District Support Engineer-Mr. Umesh Dangol and District Technical Coordinator-Mr. Biren Shah, HRRP coordinated in the technical sessions which majorly focused on the various methodologies of retrofit, concept of retrofit and financial parameters.		
Good Aspects of the Program & Area of Improvement	The beneficiaries shared that they were unknown about the retrofit methods and had a concept that they would receive the final tranche of the retrofit just by repairing their houses. But after the orientation, now they come to know that these two terms are completely different and only after retrofit they will receive the final tranche. Many of the beneficiaries convinced to retrofit their houses after the orientation and asked for the
