

Meeting Minutes

Technical Working Group Meeting for Technical Training

Date: 12 April 2016, Tuesday

Time: 3 - 5 pm

Location: HRRP Office, Jwagal

Focal Point: Jeny Shrestha

Participant Organizations:

SDC, Minergy Nepal, Habitat for Humanity, Good Earth Nepal, HELVETAS, DFID, Innotech Nepal, EWB-USA, Care Nepal, HRRP

Agenda

1. Finalization of Detailed action plan for Training TWG
2. POs presentation and discussion on:
 - a. Analysis of 7 days DUDBC curriculum
 - b. Challenges in current training activities
 - c. Training Delivery Strategy

Discussion and decision

1. Finalization of Detail work plan for Training TWG

Training TWG finalized the detail work plan and deliverables within its three thematic areas:

- Training Curriculum Review
- Training Needs Assessment and Delivery Strategy
- Quality Assurance mechanism

2. POs presentation

- Presentation by Mr. Suraj Shrestha, Care Nepal
 - i. Review of DUDBC 7 days Mason Training curriculum
 - ii. Review of Training curricula developed by the Government, and provided by the POs
 - iii. Training need assessments and Gap Analysis
 - iv. Training Delivery Strategy

3. Discussion

Training Curriculum Review: DUDBC 7 days Mason Training curriculum

- Need to have a more structured approach for the curriculum
 - From Generic to specific topics
- Need to link the Training curriculum with the reality on the ground
 - Eg. Unavailability of suitable building materials for earthquake safe construction
 - More emphasis should be given to best utilize the available materials rather than using best materials "*Coping with constraints*"
- Missing elements in the curriculum
 - Wood and Bamboo treatment
 - Reuse of Salvage material
 - Training curriculum on rural housing has only 1 hour course on RCC structure, which is insufficient

The practical experiences of the Partner Organizations would be important to assess the relevance of the 7 days Training Curriculum

Training Needs Assessment and Gap Analysis

- Need to review 4W matrix of HRRP to find gaps in Training activities
- Recommendation to have KAP survey at VDC level to support VDC level for need assessment and Gap analysis
- Gap identification for training related activities through regular interaction with masons, trainers and sharing of experiences among Partner Organizations
- Cross monitoring of Training

Training Delivery Strategy

- Provision should be made to include On the Job Training in training modules
- Current focus is to train masons; but focus should also be towards training carpenters
- Promote usage of practical examples and common sense
- Need for sensitized approach to manage earthquake dynamics
- Power point module is more efficient method of training delivery: as it would be more easier for trainers to revise and build upon the existing materials
- Encourage masons to engage in training activities has proved beneficial in the past: Eg. Building paper models, hands on practices
- Need to develop strategies to include youth and women in construction activities
- Provide the Building Construction Guidelines prepared by DUDBC to the masons as a practical booklet to support safer building construction
- Emphasize on cascading approach for training masons
- Need to differentiate between :
 - o Training of Trainers (Product: Best Trainers) and Training of Masons (Product: Skilled Masons)
 - o Skill enhancement Training for masons Vs. Vocational Training for new masons

Homeowners need to be guided about

- Minimum requirements for earthquake resistant housing construction
 - o Try to advocate minimum 2-3 key knowledge regarding earthquake resistant construction material quality and construction technology
- Construction safe technology, particularly if they wish to reuse the old foundation
- Freedom to choose among the 17 designs proposed by DUDBC

Minimum requirement for homeowner's inspection

Important to have a set of minimum requirements of designs

Quality Assurance:

- Need to monitor the capacity and training ability of Trainers
 - o Key skill required: ability to transfer knowledge
- Pre and Post Test for participants
 - o Could include the participants' ability to understand the 10 key messages and adopt them in practice
- Consistence of allowance for participants in Training
 - o The current draft of Training Guidelines by NRA states that the allowance should be as per the Financial Act of Nepal
- Need to address issues related to
 - o DUDBC certification
 - o Harmonization of Training allowances
 - o Daily wages for Masons VS Training allowances
- Develop Advocacy Messages as recommendation for the Government Organizations, Partner Organizations and Home Owners

Additional Information: NRA has indicated the an option for the possibility of Top up 50,000 for landless from POs – need to be landless, most vulnerable, from rural areas

4. Action Points

For the Partner Organizations:

- Finalize the Detail Work Plan of Technical Working Group
- Start providing inputs as per the schedule of the work plan

5. Next Meeting and Agenda

- 19th April, 2016; 3 - 5 PM at HRRP
- Agenda:
 - Sharing of the activities completed/ in progress by the members of TWG

Meeting Participants List/Attendance Sheet

Organization	Name	Designation	Contact No.	Email
Minergy	Bijay K. Prajapati	Architect	9860206086	amplebijay@gmail.com
Innotech Nepal	Anjali Manandhar	Architect	9841619447	anzlee@gmail.com
HRRP	Jennifer Duyne	Team Leader		
HFHI	Prajwol Bajracharya	Architect		prajwol.bajracharya@habitatnepal.org
HFHI	Shristi Bajracharya	Architect		shristi.bajracharya@habitatnepal.org
HELVETAS	Pecnik Marianne	Architect	9808585034	marianne.pecnik@helvetas.org.np
SDC	Ivan Vuarambon	Program Manager	9808588882	ivan.vuarambon@edu.admin.ch
DFID	Priti Prajapati	Advisor		p-prajapati@dfid.gov.uk
EWB-USA	Rick Eavert	Structure engineer	9803367257	rick.ehlert@ewb-usa.org
Care Nepal	Suraj Shrestha	PM-Reconstruction	9851161870	Suraj.shrestha@care.org
Good Earth Nepal	Colin Hill			
HRRP	Jeny Shrestha	Technical Officer (Housing Training	9841408545	jeny.shrestha@hrrpnepal.org
