

Experience Sharing: District Technical Workshops for POs

Housing
Recovery and
Reconstruction
Platform (HRRP)

District Technical
Workshops, Summary
Report

March 2017

Introduction

- 736,372 households eligible to receive the 300,000 NPRs GoN housing reconstruction Grant
- 49567 households have started construction.
- HRRP district teams reported lots of confusion amongst district stakeholders regarding technical assistance – Workshop for POs organized by HRRP to address this
- Workshops were conducted during February 2017 in 12 districts.
- Objective of the workshop was to collect the challenges on the technical assistance and possible ideas to improve it from the field.

Workshop Content

- Experience Sharing on Technical Assistance in the District from POs
- Evaluation of Reconstructed Houses w.r.t. Standard Operating Procedures (SOP)
- Challenges in Technical Assistance in the Reconstruction Works
- Possible ideas to improve the technical assistance to make reconstruction more smooth and compliance standards
- Overview on Published Documents by GON and its Current Implementation Status

Participation Ratio

Total Workshop Participation 288

Glimpses of Workshop

Summary of Challenges

1. Availability of Trained Mason:

- Limited availability
- Due to gap in training coverage
- Trained mason migrated or not working as masons after training
- Migrated with out training
- Unethical influence on trainee selection
- Took long duration to get approval for training activities

2. Community / HH Awareness and Access to Technical Assistance:

- Lack of awareness to HH on government policy and procedure
- High level of non-compliance due to lack of TA
- Duplication of activities in the same areas from Pos
- Lack of consistency on TA aadvices from GON engineers and Pos
- HH trust more to local leader rather than Engineers
- Lack of trust to Pos from Political leader, community, and Press

3. Presence and Overload of VDC Secretaries' and DL-PIU engineers

- VDC secretaries and DLPIU engineers not presence on the working area
- Lack of transportation and logistic facilities to DLPIU engineers
- Lack of VDC secretaries understanding on the reconstruction process

Summary of Challenges Contd.

- 4. Compliance Criteria:**
- 5. Access to and quality of materials**
- 6. New Emerging technology;**
- 7. Municipal by-laws and DOR standards**
- 8. Water Scarcity**

Summary of Recommendations

1. Availability of Trained Mason:

- Increase coverage of training
- Need to follow strict criteria to select the trainee
- Refresher training for mason as part of the training follow up
- District wage rates need to be strictly followed by all training providers
- Conduct training for migrant masons
- Expedite approval process for expansion of coverage or additional activities.

2. Community / HH Awareness and Access to Technical Assistance:

- All district stakeholders need to work together to expand coverage and quality of technical assistance
- To ensure common understanding (DL-PIU and POs) technical assistance should be delivered collaboratively
- POs door to door technical assistance teams should be provided with a legal/official document
- Households should be provided with information on a regular basis

Follow Up

- Continue to support efforts to improve coverage of 6-activity technical assistance package.
- Organise orientation / training / workshops at Gaupalika / Nagarpalika level for DL-PIU engineers, Ward, and municipal staff, as well as POs working in the area.
- HRRP district teams to facilitate formation of joint technical assistance teams (NRA, MoUD DL-PIU, and POs) and strengthen engagement of Gaupalika/ municipal staff.
- Technical comparison of the Nepal National Building Code and the Inspection Manual to identify any differences .
- Support to the NRA technical group working on corrections manual, retrofitting guidelines, compliance criteria for new construction materials / technologies, and flexibility on compliance.

Follow Up Contd.

- Document water scarcity and coordinate with WASH Cluster and DWSS to address these issues.
- Conduct frequent field visits to document common non-compliance cases .
