

The National Reconstruction Authority (NRA) organized the International Conference on Nepal's Reconstruction (ICNR) from 7-9 December 2021 to share its achievements, experience and learning from the post-earthquake reconstruction and rehabilitation with the national and international communities. Rt. Honorable Prime Minister Mr. Sher Bahadur Deuba addressed the closing session and expressed gratitude to all friendly countries, international agencies and community for their contribution in the rescue and relief works soon after the April 2015 earthquake as well as in the post-earthquake reconstruction. Prime Minister Deuba proudly added that "we have gained knowledge on disaster risk adaptation and resilience at the cost of the devastating earthquake." (Photo credit: NRA)

HIGHLIGHTS

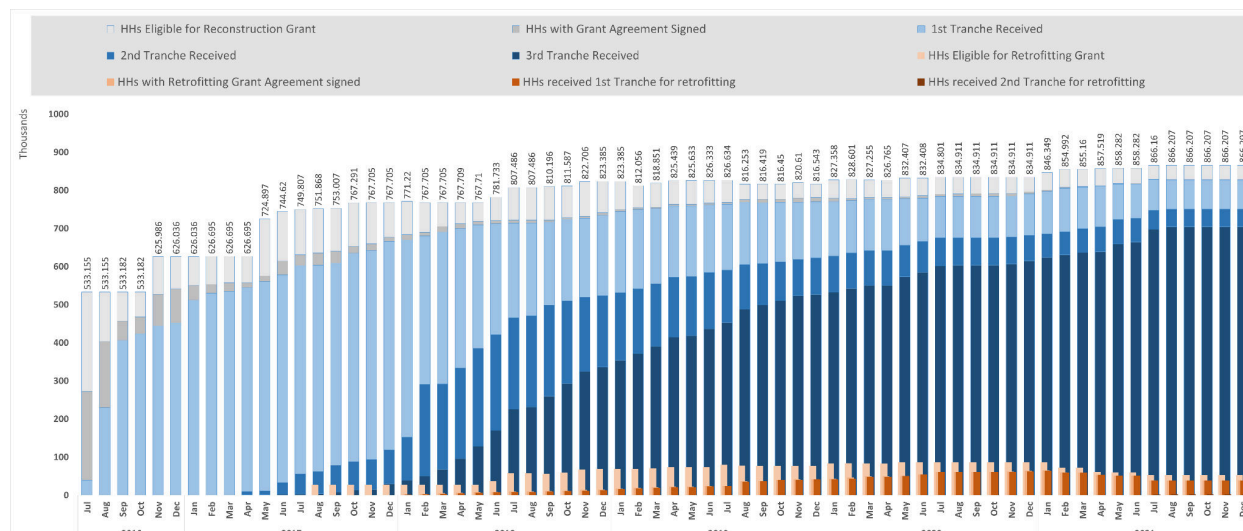

- National Reconstruction Authority handed over its assets and repository of knowledge and learnings after the end of its mandate on 24 December 2021
- International Conference on Nepal's Reconstruction (ICNR) 2021 concluded with a declaration for the need to build capacity of local governments to meet goals of building a disaster resilient nation
- HRRP's Presentation in ICNR 2021: Research findings of Housing Reconstruction for the Vulnerables
- National level sharing meeting on Nature based Solutions to Disaster Risk Reduction in Nepal
- HRRP provided technical support to conduct orientation program on NDRRMA Private Housing Reconstruction and Rehabilitation Guidelines 2077
- Updates of Damage Grade Assessment of houses affected by Lamjung earthquake

NATIONAL UPDATES

NRA, CLPIU- GMaI and CLPIU-Building, Grant Disbursement Data, as of 27 Dec 2021

Reconstruction Grant	31 August	27 September	25 October	6 December	27 December
Total No. Eligible HHs	858282	866160	866207	866207	866207
HHs Enrolled	818519	829483	828194	828194	828194
HHs Received 1st Tranche	816566	828628	827478	827478	827478
HHs Received 2nd Tranche	726819	747602	750683	750859	750859
HHs Received 3rd Tranche	664635	696906	704341	704341	704341
Retrofit Grant	28 June	26 July	31 August	27 September	27 December
Total No. Eligible HHs	53958	47786	47906	47906	47906

National Reconstruction Authority handed over its assets and repository of knowledge and learnings after the end of its mandate on 24 December 2021

The National Reconstruction Authority (NRA) has been formally closed amidst a formal handover program in presence of Honorable Home Minister, Mr. Bal Krishna Khand, Ministry of Home Affairs-GoN, as the tenure of NRA came to an end on December 24 as per the decision of the Council of Ministers on December 1, 2021.

The 21st meeting of the NRA Steering Committee followed by the 148th meeting of the NRA Executive Committee of the NRA held on 22 December 2021 has expressed gratitude to the international community, political parties, all three tiers of the government, government employees, security agencies, civil society, private sector, non-governmental organizations, academic sector, media, local communities and all the earthquake-affected people for directly and indirectly contributing in the post-earthquake reconstruction and rehabilitation of structures damaged in the earthquake of April 25, 2015.

The Steering Committee meeting also decided to handover its rights, liabilities, property, accounts, documents including its remaining works to various line ministries, departments and concerned local governments. As a successor of the NRA, the National Disaster Risk Reduction and Management Authority (NDRRMA) has been handed over legal and policy arrangements, implementation of decisions and orders received from the Appeal Committee, responsibilities of facilitation, coordination and monitoring of remaining reconstruction and rehabilitation works that has been handed over to concerned ministries, departments and agencies.

Mr. Sushil Chandra Tiwari, NRA Secretary handed over documents related to major structures reconstructed including Dharahara, Singha Durbar, Ranipokhari, Shantibatika among others to Mr. Maniram Gelal, Secretary of Ministry of Urban Development (MoUD). Similarly, on 24 December, Mr. Sushil Gyewali, the NRA Chief Executive Officer (CEO), handed over the forthcoming authority charge and responsibilities to Mr. Anil Pokharel, the CEO of NDRRMA in presence of NRA Secretary, the NRA Executive Committee members and other senior officials from NRA and NDRRMA.

According to records of NRA, 92 percent of private housing, 85 percent of archeological sites, and 92 percent of government buildings have been completed so far. Educational buildings completion rate is 85 percent, health institution is 80 and integrated settlement is 60 percent. The building of the security forces has been completed 100 percent.

International Conference on Nepal's Reconstruction (ICNR) 2021 concluded with a declaration for the need to build capacity of local governments to meet goals of building a disaster resilient nation

The National Reconstruction Authority (NRA) successfully organized the ICNR 2021 from 7-9 December to share its achievements, experience and learning from the post-earthquake reconstruction and rehabilitation with the national and international communities. Right Honorable President of Nepal, Ms. Bidhya Devi Bhandari inaugurated the International Conference on Nepal's Reconstruction (ICNR 2021) on 8th December. In her inaugural address, President Bhandari said that the international community's support has turned into a milestone in carrying out the post-earthquake reconstruction and rehabilitation in Nepal. She also expressed satisfaction over the international support being materialized as committed.

Addressing the closing session, Rt. Honorable Prime Minister of Nepal, Mr. Sher Bahadur Deuba stated that the post-earthquake reconstruction has contributed to the national economy and Nepal successfully managed to turn destruction into an opportunity with the confidence of building back better.

CEO of NRA Mr. Sushil Gyewali informed that the participants of the conference exchanged many positive practices and shared experience and learning of the reconstruction and rehabilitation. He expressed with confidence that these learning will not only be useful for the future generation but will be an example on the international stage.

The declaration through ICNR 2021 has stressed on the need to build the capacity of local governments in planning, technical and managerial capabilities and provide clear mandate, structure, rights and autonomy to the NDRRMA to meet the goal of building a disaster-resilient Nepal.

The hybrid model of ICNR conducted sharings through different thematic sessions, scientific paper presentations, research studies and roundtable discussions on both 8-9 December where the NRA officials, experts, researchers, academias and concerned stakeholders discussed various aspects of post-earthquake reconstruction, recovery and rehabilitation of the last six years.

The representatives of various development bilateral agencies and of the concerned support providing diplomatic missions provided the recorded video messages as well as some were on hand available to address the inauguration ceremony as well as during the closing session of ICNR. Many foreign donors, delegates and diplomatic heads have expressed their satisfaction on Nepal's achievements on reconstruction and some have expressed their willingness to support the disaster risk reduction and management sector in Nepal in the coming days also. HRRP's Presentation in ICNR 2021: Research findings of Housing Reconstruction for the Vulnerables

The team of HRRP comprising Mr. Minar Thapa Magar, Mr. Ruplal Aidi and Ms. Sneha Anil Malani conducted research through secondary research on unpacking the gaps and challenges on Housing reconstruction for the Vulnerable Beneficiaries. Vulnerable groups generally have low capacity for housing recovery and thus require socio-technical and financial support. Nepal's Earthquake Housing Reconstruction Program had identified 18,505 vulnerable beneficiaries based on four NRA's criteria of single-women, elderly people, children below 16 years and persons with disability. Out of the 18,505 beneficiaries, only 53 percent had accessed the third tranche. This data revealed that a lot more needed to be done to increase the pace of recovery for vulnerable beneficiaries as they were facing difficulties particularly in accessing finance and socio technical assistance. Through primary findings of partner support received by the vulnerable beneficiaries, the authors have developed correlations between the socio-technical assistance to the reconstruction tranche progress of vulnerable beneficiaries.

The research has recommended scaling socio-technical assistance coverage and strengthening local-level coordination mechanisms between partner organizations, local government, and vulnerable groups, the purpose of expediting progress in housing reconstruction for the vulnerable beneficiaries. The research study identified major gaps in support provisions of both finance and socio-technical assistance despite some good models adopted by partner organizations. Many vulnerable beneficiaries had been left behind in the Kathmandu Valley districts due to absence of partners' presence, combined with complex issues related to urban reconstruction. This research has indicated that a holistic financial, socio-technical, and coordination-based approach is required to address housing recovery barriers faced by vulnerable beneficiaries.

The detail research findings can be accessed from NRA publication " Rebuilding Nepal: A Journal on Reconstruction" <https://icnr.nra.gov.np/publications/open-route>

National level sharing meeting on Nature based Solutions to Disaster Risk Reduction in Nepal

Dan Church Aid (DCA) in coordination with NDRRMA supported DPNet Nepal, have organised a National level sharing meeting on Nature based Solutions to Disaster Risk Reduction in Nepal on 26 December 2021 in the capital. The study team led by Prof. Dr. Jiba Raj Pokhrel, Past Vice Chancellor of National Academy of Science and Technology shared the presentation. The nature-based solutions i.e. restoration and protection of natural habitat when applied strategically and equitably can not only safeguard biodiversity and ecosystem services but also help people adapt to the effects of climate change. The team shared the low-cost landslide mitigation technology focused on water pond construction.

HRRP provided technical support to conduct orientation program on NDRRMA Private Housing Reconstruction and Rehabilitation Guidelines 2077

In November and December 2021, NDRRMA in technical coordination with HRRP provided orientations to disseminate and localize the NDRRMA's private housing reconstruction and recovery grant disbursement procedural guidelines-2077 and information management tools to all municipalities and districts of Bagmati and Gandaki Province. One day orientation program was held in Sindhupalchowk and Lamjung district for staff of local government bodies including elected local heads, technical staff, social mobilisers, computer operators and relevant frontliners. Orientation has been completed in 12 Palikas and 8 Palikas Sindhupalchowk and Lamjung districts respectively.

The purpose of the orientation at district and municipal level is to strengthen the capacity of local government staff to speed up private housing recovery and reconstruction processes of affected populations. In the orientation package, HRRP shared knowledge about the reconstruction inspection process to strengthen the capacity of technical staff for the housing reconstruction inspection process as per NDRRMA guidelines.

As next steps, HRRP district team is providing technical support to the respective District Administration Office (DAO) for the monitoring and verification of damaged houses at Lamjung and Sindhupalchok districts along with support to all the municipalities of both districts during beneficiaries' enrollment process. For more information contact Mr. Rijan Gajurel, HRRP Technical Coordinator- Localization: Rijan.gajurel@hrrpnepal.org

Updates of Damage Grade Assessment of houses affected by Lamjung earthquake

NDRRMA with technical support from HRRP is conducting Damage Grade Assessment (DGA) of earthquake affected households by Lamjung Earthquake 2021. As of 27th December, 85.03% of the total 2529 earthquake affected households' damage grade assessment have been completed within five affected municipalities of Lamjung district. With the support from reconstruction technical staff (engineers and sub-engineers) this survey is ongoing with the direct supervision and monitoring from Lamjung District Administration Office (DAO). For more information contact Mr. Rijan Gajurel, HRRP Technical Coordinator- Localization: Rijan.gajurel@hrrpnepal.org

HUMANITARIAN SITUATION UPDATE

COVID-19 update from Ministry of Health and Population (MoHP) (as of 26 December 2021): According to the MoHP [website](#) national COVID-19 data, as of **26 December 2021**, a total cumulative new cases are 827271 (via RT-PCR test) out of which 810780 patients (97.8%) have recovered. Likewise, as per national death tally, a total of 11,585 (1.4%) people have succumbed to the virus as of 26 December MoHP data. For more information, click in the given link **COVID-19 Response and Preparedness Plan** released by UN-RCO Office and Situation Report (SitRep) as of 17 December <https://reliefweb.int/sites/reliefweb.int/files/resources/Nepal%20C19%20SitRep%2017%20December%202021.pdf> and Focussed COVID 19 Nepal Media Monitoring https://reliefweb.int/sites/reliefweb.int/files/resources/Focused%20COVID-19_Media%20Monitoring_December%2017%2C%202021.pdf

PROVINCIAL UPDATES - GANDAKI

In **Kaski**, a Provincial Consultation Workshop on 2078 Monsoon Response Review and Reflection was conducted on 19 December by assembling the concerned development partners involved in disaster management related programs. The review and reflection program was conducted by the Chief Minister's Office of the Province Government of Gandaki and attended by the Secretary of the Chief Minister's Office, the Under Secretary of NDRRMA, Disaster Focal Person of Kaski Province Nepal Army and by representatives of development partners. The said review and reflection meeting focussed on sharing the activities from Federal Government Response to Monsoon 2078 along with sharing of relevant interventions by concerned agencies. A short group work among the participants was held that emphasized on action plans on robust preparedness response and coordination.

In **Kaski**, a 1-day orientation was planned and organised dated 25 December, on Sphere Standards for Humanitarian Coordination and Response. The program was planned by NDRRMA together with DPNep Nepal through its USAID supported project. The concerned officials working in disaster risk reduction programs and projects of development partners based in Gandaki Province were the main participants of the orientation program. The orientation was coordinated by the Chief Minister's Office, Gandaki Province.

PROVINCIAL UPDATES - BAGMATI

In **Kathmandu**, elected Mayors Kathmandu Valley comprising of Lalitpur Metropolitan City, Madhyapur Thimi Municipality, Mahalakshmi Municipality, Chandragiri Municipality and Godavari Municipality have expressed their strong commitment and emphasized to envision the priority protection and attention to rehabilitation and reconstruction of cultural heritage at a program organized by Parya Sampada Project-UNHabitat, in the capital. Large numbers of monuments of historical and cultural heritage were damaged by the Nepal earthquake 2015 in core areas of municipalities of Kathmandu valley. NRA -GoN also prioritized guidelines and programs for reconstruction of cultural heritages along with private housing. The chief guest of the program, Mr. Chiribabu Maharjan, Mayor of Lalitpur Metropolitan City, lauded that the municipality has given continuity to the construction of temples, stupas and continuity of intangible heritages by transforming the processions and

festivals thereby keeping SDGs and green growth in mind. The Parya Sampada Project has carried out conservation and protection of the tangible and intangible heritage of Bungamati, Ward no 22, Lalitpur Metropolitan City while respecting local values. This project equally provided technical assistance to the municipal drawing for reconstruction of 225 private houses in Bungamati, Ward no 22.
