

This report is produced by Housing Recovery and Reconstruction Platform (HRRP) and Shelter Cluster Nepal, Gandaki Province in collaboration with partners. It covers the situation of Lamjung and neighbouring districts after the jolt of the earthquake and subsequent aftershocks in the morning of May 30, 2021.

Highlights

1. The District Administration Office (DAO) in Lamjung is distributing relief items to the affected population in close coordination with the municipalities and ward representatives.
2. Relief and response activities are ongoing with a one door policy through DAO in close coordination with Municipalities and Rural Municipalities.
3. The Ministry of Home Affairs (MoHA), World vision/RCDC, Namaste Kid Nepal, Cottage and small Industries Federation, NRCS, CRS Nepal, LWR/USAID/COPPADES, Kopila Nepal are currently providing relief assistance to the 975 affected families.
4. The affected families in Besisahar, Dordi and Marsyangdi have received relief assistance whereas Dudhpokhari and Sundarbazar Municipality are yet to receive relief assistance.
5. **957** HHs out of **2108** HHs people have received relief materials. **50** HHs are living in tents and **189** HHs are living in community buildings and their relatives out of a total **239** HHs.
6. **411** houses are fully damaged and **1697** houses partially damaged in Lamjung, Tanahun and Kaski districts of Gandaki Province.

Situation Overview

On **19 May 2021**, Wednesday at 5:42 AM local time, the earthquake measuring **5.8M** followed by subsequent aftershocks of **4M** at 8:16 AM and **5.3M** at 8:26 AM, hit Lamjung district of Gandaki Province in Nepal as per the Seismological data. According to the preliminary source of information from local governments, **6 people** were injured; **411 houses** were fully damaged and **1697 houses** were partially damaged. The initial assessment of the loss and damage is ongoing by the local governments. The approaching monsoon is likely to impact on the livelihoods and access to basic services for these affected households impacted by this earthquake. People panicked and rushed out of their homes as they felt the tremor. Most of the people were seen in the open spaces and roads after the earthquake.

The impact of this earthquake was felt heavily in and around the epicenter of Lamjung district including the neighbouring districts Kaski and Tanahun with weak shaking reaching as far as Kathmandu City, the capital of Nepal, 121 km from the epicenter. This earthquake comes at a time when Nepal is still in the process of recovery and reconstruction, almost approaching the end of the given tenure of National Reconstruction Authority (NRA), mandated to Nepal's post earthquake recovery and reconstruction from 2015 Nepal earthquake.

Loss and Damage

Based on the information collected by Shelter Cluster in Gandaki Province through local ward Chairpersons, the detail of damage and loss is reflected in the following table:

Districts	Injured Persons	Fully damaged houses	Partially damaged houses	Death	Displaced HHs
Lamjung	6	402	1598	0	239
Tanahun	0	5	12	0	0
Kaski	0	4	87	0	0
Total	6	411	1697	0	239

(Data Source: Local representatives and Ward Chairpersons)

Response

While the Initial Damage Assessment is still ongoing in some wards of Lamjung district with support from local ward representatives, relief assistance packages are also being distributed using a one door policy i.e DAO is distributing received items to the affected population with close coordination and collaboration with the municipalities and ward representatives. The response activities were affected due to continuous rainfall from the last few days. However, the process resumed on Sunday after the weather improved significantly. Currently, Government stakeholders together with Humanitarian Partners Organization are jointly working on relief material distribution to affected households.

Current Needs and Priorities

- 1,151 affected households require urgent and immediate relief support in terms of Shelter and Non-Food Items.
- 200 displaced HHs are staying at community buildings or with relatives during this Covid-19 pandemic period.
- Immediate response and relief process to be prioritized with inclusive and protective distribution and technical support.
- 1,972 IEC materials for safe use of shelter and NFI kits, safe construction of temporary shelters are required to convey knowledge and raise awareness at community level.
- Technical orientation for technical staff for damage assessment/data collection before starting shelter assessment at community level.

Table: Lamjung - Need Vs Coverage Matrix

R/ Municipality	Tarpaulin		Mattress		Blanket		Rope		Kitchen Set		Cash Support		Tent		NFIs	
	Need	Coverage	Need	Coverage	Need	Coverage	Need	Coverage	Need	Coverage	Need	Coverage	Need	Coverage	Need	Coverage
Besisahar Municipality	893	444	1786	890	3572	0	1786	6	164	0	164	3	164	26	164	25
Dordi RM	722	236	1444	885	2888	200	1444	0	184	0	184	2	184	16	184	100
*Dudhpokhari RM	23	0	46	0	92	0	46	0	0	0	0	0	0	0	0	0
Marsyangdi RM	221	277	442	140	884	0	442	0	23	0	23	0	23	8	23	23
*Sundarbazar Municipality	113	0	226	0	452	0	226	0	31	0	31	0	31	0	31	0

(Data Source: DAO, Local representatives and Ward Chairpersons)

* The damage is less as compared to other Rural/Municipalities and the relief support mechanism is being worked out gradually.
