NRA MEETING HALL, DHADING

Agenda

- Introduction
- Brief discussion on 4w and upcoming 5W matrix.
- Findings of HRRP field visits.
- NRA, DLPIU & HRRP update
- Issues and Challenges
- AOB

Brief discussion on 4w and upcoming 5W matrix.

Findings of HRRP field visits

With few number of beneficiaries, the reconstruction pace seems to be speeding up and many earthquake resilience houses are being built.

Cont..

- Beneficiary are much aware of the tools and techniques for constructing earthquake resilience houses.
- POs presence is significant and their activities have benefited locals people.
- People seem to adopt dry stone building technology.
- Due to extreme cold weather people prefer to cover inner portion of their houses with wooden planks.

Challenges:

- Lack of road access has raised the cost of construction.
- Harsh climatic condition makes livelihood difficult.

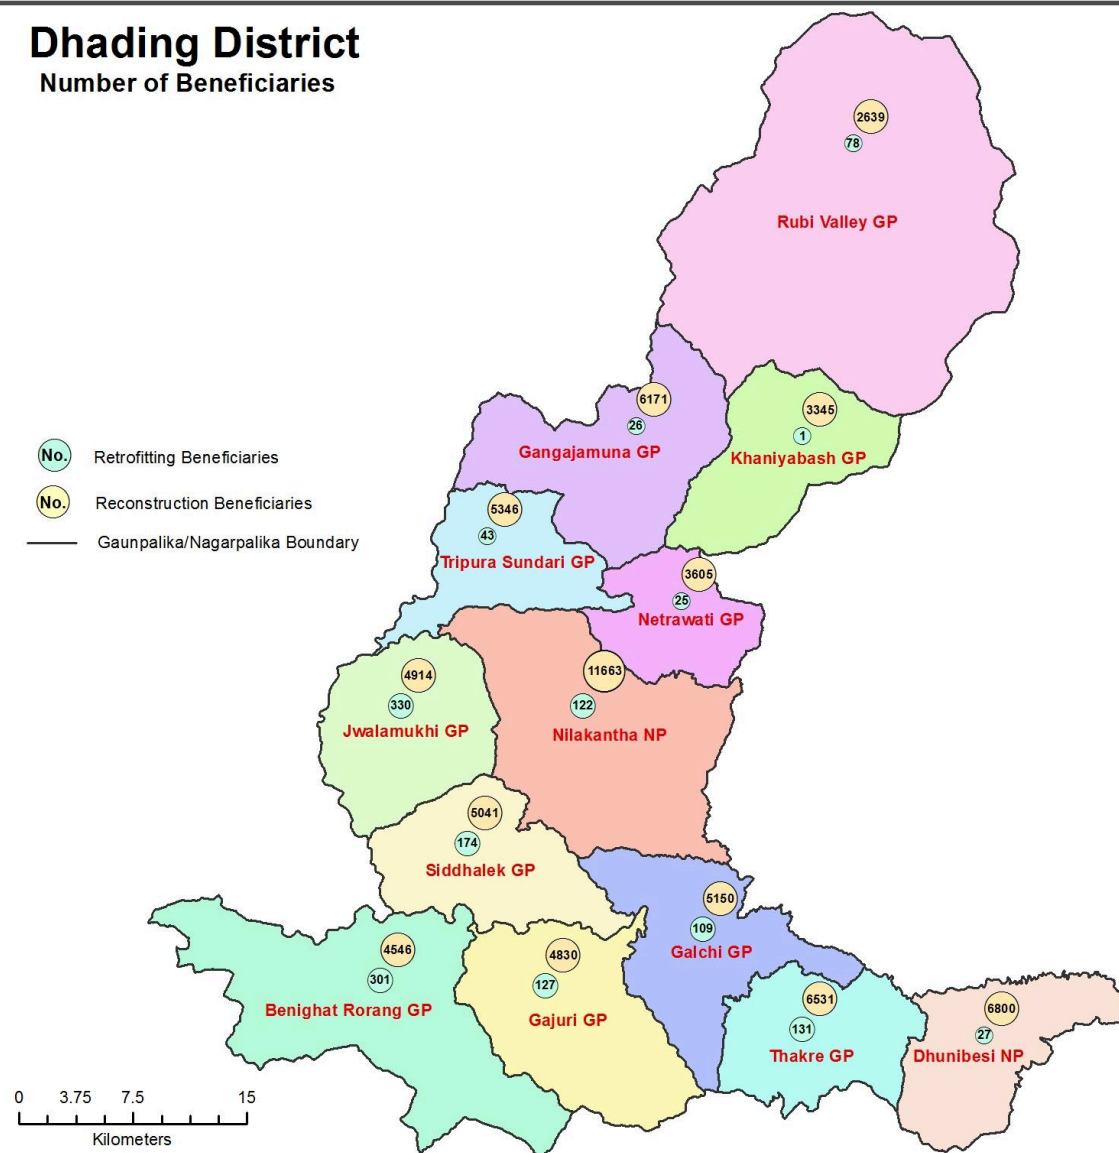

NRA, DLPIU & HRRP update

Dhading District

Number of Beneficiaries

- Retrofitting Beneficiaries
- Reconstruction Beneficiaries
- Gaunpalika/Nagarpalika Boundary

Joint Advocacy Report of CFP and HRRP

Reasons behind slow Reconstruction progress

- Insufficient, inaccurate & lack of timely dissemination of information regarding reconstruction to the beneficiaries.
- Very few knowledge on how to get 2nd & 3rd tranches.
- Lack of women's participation in Reconstruction process.
- Low quality of construction material, insufficient fund (poverty) & fewer no. of masons available.

Issues and Challenges

- **Data Collection on Cost of Construction:**
VDC name, ward no:, submitted by, typology, estimated/actual/cost to date, etc.
- **Stall for exhibition Representing District POs activities by HRRP on Reconstruction:**
Present Success Stories, good practices, pamphlets, booklets, activity outcomes, etc.
