Graph for Retrofitting Status:

Housing Typology Report

Beneficiary name: Ram Kumari . storey steel structure was listed as non-compliance due to large opening areas making it vulnerable. DSE suggested for the structural analysis of the structure.

Beneficiary name: Asha Maru Dongol, ward no 6, Tokha Two storey RC frame structure. The beneficiary has received all the government tranche

Beneficiary name: Raghunath Pandit Chettri, ward no. 6, Tokha Municipality. 2 storey hybrid structure using cement board as super structure. The square pipe of 4 inch is used as the vertical reinforcement. The beneficiary has requested for the third tranche.

Beneficiary name: Dol Prasad Adhikari, Jhor, ward 1, Tokha Municipality. 3 storey was considered non-compliance as the earthquake resistant elements were missing.

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
There are beneficiaries who are willing to sign the partnership agreement for the reconstruction tranche even after the deadline of Asar 21, 2076 set by NRA. What can be done in such case?	Engineer	Regarding such cases, please collect all the information of the beneficiary along with the reason for not being able to sign the grant agreement till date. The documents will be forwarded to NRA for further process. NRA will make decision on such case in later date. (GMAI)
What is the procedure of the land purchase?	Ward representatives	NRA has provision of providing NRP 200,000 for those beneficiaries who don't have land, residing in government, public or vulnerable land. The ward and municipality have to verify that the beneficiary doesn't have land all over country. The beneficiary must find the land by themselves. (GMAI- Project Manager)
What is the status of the soft loan provided by the bank?	Ward representatives	As of now the provision of the NRP 250,000 loan is not applicable but all banks in agreement with NRA has approved of NRP 300,000 loan to the beneficiaries. For this the constructed house will be the collateral itself. Regarding the interest of the bank, Nepal Government will pay 5% of the total interest and the remaining interest must be paid by the beneficiary. The choice of the bank also depends on the beneficiary.
The non-enrolled beneficiaries are coming to ward offices for the partnership agreement of the housing grant even after the NRA deadline of Asar 2076. What can be done for such beneficiaries?	Ward representatives	As for now the agreement system has been temporarily shutdown by the NRA. All the ward representatives are requested to send the name of such beneficiaries along with the reason of the delay in the signing the agreement. The details of such beneficiaries with the genuine reason will be sent to NRA for further decision.

Challenges and Way Forward

Challenge	Way Forward
NRA has made a decision to provide the full tranche for those houses constructed before the deployment of the technical staffs. There may be changes that	Regarding this, the ward representatives as well as the technical staffs must seriously verify if the structure were constructed immediately after the earthquake.

Challenges and Way Forward

Challenge	Way Forward
beneficiaries with non-compliance structures may come forward to claim that the houses were constructed before the technical staffs were mobilized. The collection of such houses are being done at local level and being verified by the ward chiefs.	
Majority of beneficiaries have not yet started reconstructing their houses though they have received 1 st tranche from government.	Ward office should play constructive role in motivating beneficiaries to reconstruct houses. Ward-based engineers should be deployed so that beneficiaries can get technical assistance in rebuilding safe houses. The NRA deadline for the second tranche is end of Kartik 2076 so, the information must be delivered from municipality as well as ward office for its effective implementation. If beneficiaries not intending to reconstruct houses, then Ward office should lobby with them to return the 1 st tranche amount.
