

Meeting Minutes

HRRP General Meeting

Date: 10 June 2016

Time: 14:00-16:00 pm

Location: DUDBC Meeting Hall, Babar Mahal

Focal Point: Arshad Rashid

Participants Organizations:

DFID, UNDP, Caritas Germany, Swiss RC, Handicap International, Group URD, Goal, JICA, IFRC, ASF Nepal, Build Change, DCA, UNICEF, IOM, UNDP, REDR India, Oxfam, KAM FOR SUD, MEDAIR, Christian Aid, Help e.V., PIN Nepal, UNDP, World Vision, OXFAM, Centum Learning, Shangrila Orphanage Home, REACH, JICA TPIS- ERP, IFRC/Flagship 4, ASF Nepal, UNOPS, CORDAID, AIN, ICCO, Helvetas, Minergy Nepal, HRRP.

Agendas

1. Opening of the Meeting and Introduction
2. Enrollment Update
3. HRRP Update
 - Overview of Social Mobilizer's Training Package – TWG on Social Mobilization
 - DFID Field Visit
 - IM Update – Information Management Officer
4. Shelter Cluster Nepal Monsoon Preparedness Assessment: Preliminary Findings
5. AOB

1. Opening of the Meeting and Introduction

MR Arshad Rashid, on behalf of HRRP welcomed all the participants in the meeting. He presented the agendas of the meeting, followed by the presentations. The meeting was attended by Donors and the Partner Organizations (POs) working on Housing Recovery and Reconstruction.

2. Enrollment Update

Mr. Rashid in absence of NRA updated about latest enrollment figures collected by HRRP district teams with support from POs and the district authorities. Key figures are as follows: enrollment has rolled out in 143 VDCs, 66,363 beneficiaries, or 13% of all eligible households have enrolled as of 9 June 2016, with 74 partner organisations (POs) supporting on enrollment.

Meanwhile, Dominic Grant, Program Manager in UNOPS also provided enrollment update. UNOPS with the financial support of DFID is supporting NRA on enrollment recruitment and procurement of enrollment kits. The initial focus for UNOPS has been the recruitment of staffs for three key posts for each enrollment site: Enrollment Assistant Officer, Grievance Assistant Officer and Admin//Data Entry Assistant Officer.

Only three districts (Sindhuli, Dhading and Nuwakot) have reached 100 per cent staff recruitment; 40 to 50 per cent recruitment completed in other districts. It is anticipated to be completed by mid-June. The enrollment kit will be sent and distributed at DLPIU; to enrollment center. NRA is to enhance capacity at district level; staffing at DLPIU to be completed by June.

While in response to the query about discrepancy in the enrollment number across districts, Mr. Grant said it is largely due to the different political dynamic of the districts (in some districts enrollment had been halted due to the political intervention but in some districts the political parties themselves have supported), and POs' support to enrollment.

3. HRRP Update

3.1 Overview of Social Mobilizer's Training Package – TWG on Social Mobilization

Ms. Usha Maskey, Social Mobilization Specialist gave an overview of Social Mobilizers' Guidebook prepared by HRRP Technical Working Group on Social Mobilization. She summarized the process followed for the preparation of the Guidebook and informed about the Guidebook been piloted and pretested in Dhading, in coordination with NRA (NRA executive members and officials attended the piloting.) She also briefed on the contents about the guidebook recognizing POs contribution in the process. She concluded her presentation requesting POs to provide the suggestions and feedback on the Guideline, and further committed to incorporate the suggestions to the best possible extent to make the Guideline more pragmatic and effective.

The presentation was followed by the short floor discussion:

UNOPS: Concerned about how grievance mechanism was being addressed in the guidebook since grievance procedure has not been finalized by NRA? It is estimated that Grievance procedure will be finalized by second or third week of June.

All the content and materials used in the Guidebook are those proposed and endorsed by NRA. This Guidebook ultimately will be handed over to NRA; to be owned, endorsed, and carried out with.

UNDP: Who are these Social Mobilisers? From where these Social Mobilisers will be pooled? If this is targeted for the Social Mobilisers of MoFALD; they are designated for different purpose. So it would be better if the target could be finalized so that the

content and methodologies can be prepared and adapted accordingly in the training package.

This is now targeting at existing social mobilisers: MoFALD and that of POs. The Guidebook is prepared in a way that the content can be adjusted as per need and relevancy. Ultimately, the guidebook will be handed over to the NRA.

3.2 DFID Field Visit

Mr. Magnus W. Murray, Reconstruction Advisor at DFID gave a presentation on the recent field visits to the reconstruction sites in different districts (northern Dhading, Rasuwa and Nuwakot). He raised some significant and urgent issues that immediately have to be taken under consideration while carrying out the reconstruction:

- **20 to 30 per cent of the total damaged houses is already reconstructed.** So, the retrofitting of the reconstructed houses will emerge as another immediate need. This is due to delay in the reconstruction process: lack of housing grant and the technical assistance in the ground. Hence a product similar to 10 key messages could be developed for retrofitting.
- **There is almost none 10 key messages on safer reconstruction reached the northern visited areas.** Majority of the reconstructed houses still lack bonding, failed to fulfill even only the “top 3” key messages.
- Similar as the Guideline for Reconstruction, **there is a need for developing guidance on whether people should demolish their houses. Due to lack of knowledge, many earthquake affected houses were being pulled down while they are still subjected to retrofitting.** The cost for reconstruction of these damaged houses is three times more the renovation cost.
- Use of local reconstruction materials, and the environmental and cultural intimates and adaptations have to be considered while carrying out the reconstruction.

Thus, it was concluded that there is a need for POs to improvise the activities and proceed with innovative, pragmatic and realistic ideas to implement them so that the critical key messages for safer reconstruction can reach to people, and the technical assistance can be extended and made effective.

3.3 IM Update – Information Management Officer

Ms. Zhu Ying, Information Management Officer presented about IM Update:

Currently, IM is collecting information on two things: Regular enrollment status (HHs enrolled, HHs receiving first tranche of Housing Grant as well as Grievance cases), and detail of PO's support for enrollment (Human Resource and Logistic). The matrix is prepared and will be mapped out in the forthcoming days. She stated that HRRP would provide and share these information to the relevant stakeholder when required.

Need for a real-time update system has become more and more prominent with enrollment rolling out in a rapid pace. Under discussion with NRA on how to bring that online.

Information Management Working Group (IMWG) has been initiated by NRA to develop integrated Management of Information System (MIS) to internalize and integrate all initiatives (multi sectoral data) by different IM actors in different sectors.

4. Shelter Cluster Nepal Monsoon Preparedness Assessment: Preliminary Findings

Ms. Elisabeth Vikman, Global Assessment Coordinator presented the preliminary finding of Shelter Cluster Nepal Monsoon Preparedness Assessment. The preliminary findings include:

1. Vulnerability mapping based on the secondary data analysis
2. Findings on the primary data collection

The final report to be shared and made available to government and NRA.

5. AOB

Vivek Rawal, Advisor to Training Department to NRA brought some issues regarding housing training to discussion:

1. Highlighting the fact that more than 8000 masons already trained out of targeted 22000 trained masons (of 66000 anticipated to be required), and 100000 to 1500000 houses being reconstructed, yet many reported being noncompliance to National Building Code and earthquake non resilient. He suggested to take the issue under serious consideration and proceed with needed intervention on whether the reconstructed houses are reconstructed by these trained masons.
2. Some nonfactual data regarding the number of masons being trained has to be verified and confirmed before publication. A mechanism has to be put in place to discover if same masons are being trained by different POs.

There is a need to maintain an online roster of Masons trained.

3. Data regarding the curricula for masons training of different agencies: CTEVT or DUDBC has to be verified and confirmed regarding the duration of the trainings because in the dataset sometimes the training curricula does not match with the starting and end dates of trainings.

He suggested HRRP to come out with a clear picture of the achievement and the target along with the concrete schedule and strategy regarding housing training and reconstruction.

Action Points

- 1. HRRP and UNDP to have a meeting to discuss data regarding housing training. The data regarding the mason training to be improvised with a clear mention about the duration (start and end date) along with the period of training curricula.**

2. Soft Copy of Social Mobilizer's Training Package to be provided to POs for feedback and recommendation.

3. A presentation, "Shelter Cluster Nepal Monsoon Preparedness Assessment: Preliminary Findings" by Shelter Cluster/REACH to be shared with POs for feedback and suggestion.

Next Meeting

TBD
