

Housing Recovery and Reconstruction Platform

Open Data Kit

NRA Socio-Economic Impact Study Survey - Data
Collection Tool

Presented By: HRRP Nepal

What's ODK??

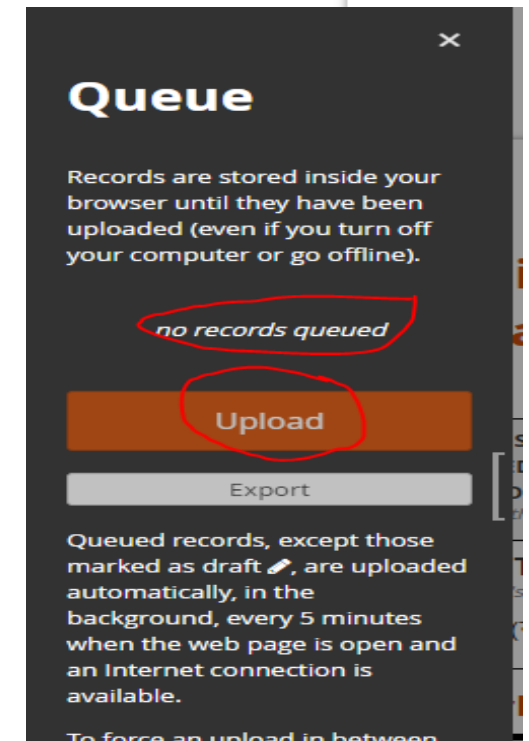

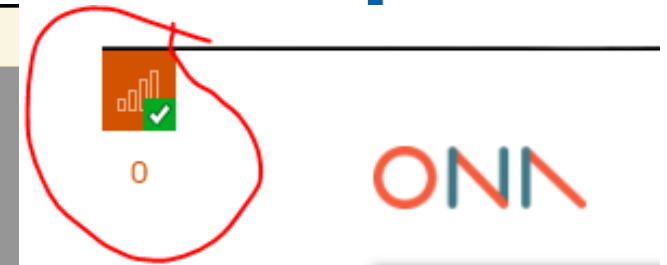

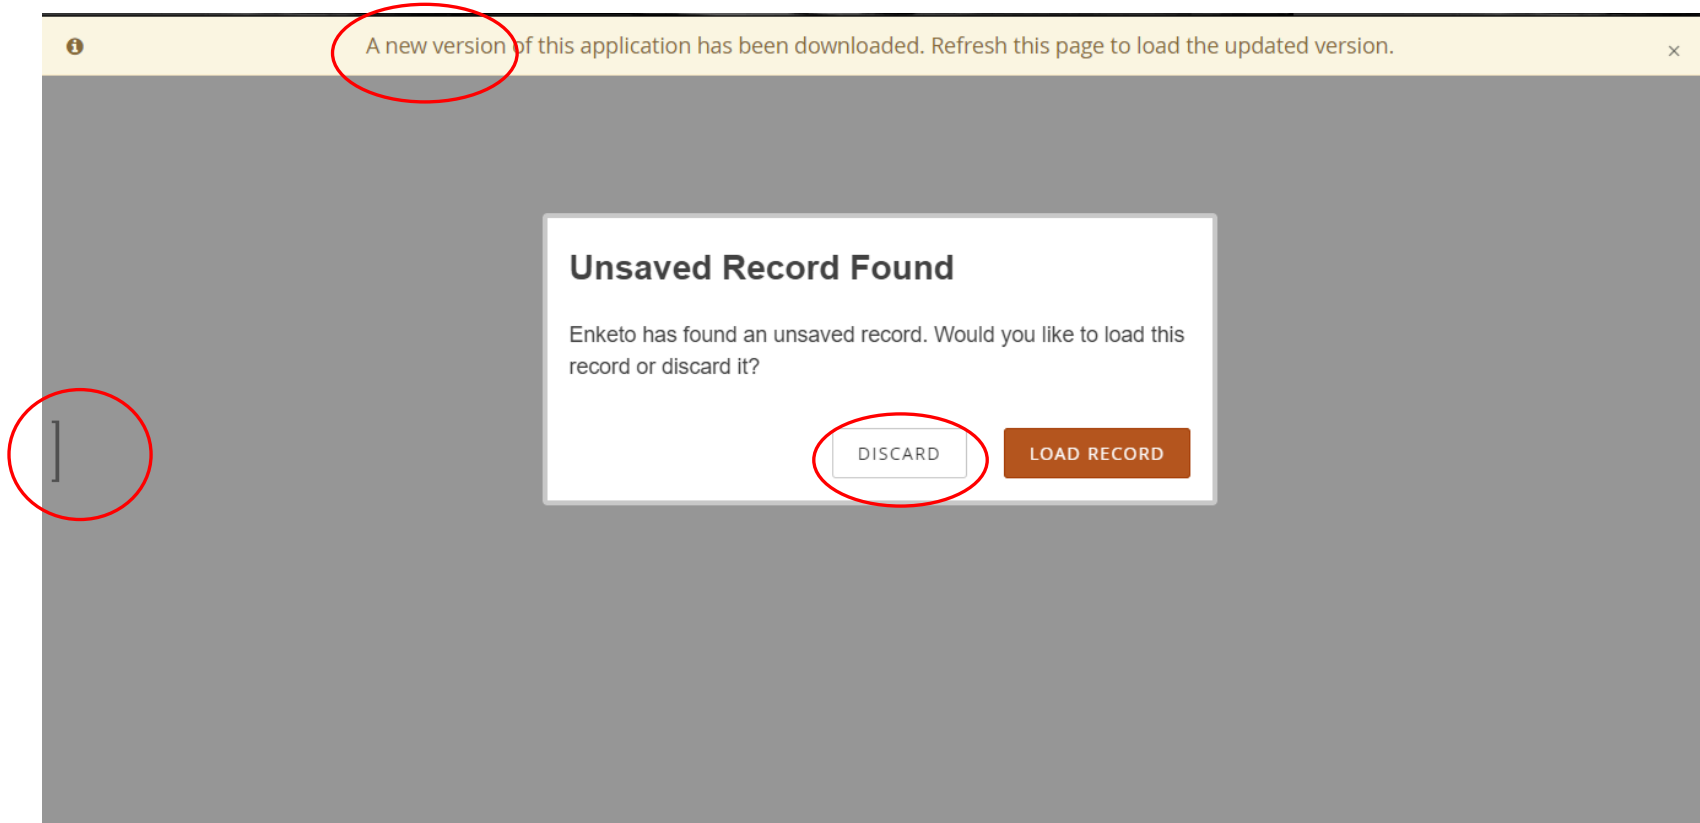

- Open Data Kit (ODK) is an open-source suite of tools that allows data collection using Android mobile devices and data submission to an online server, even without an internet connection or mobile carrier services at the time of data collection.
- Developed by collaboration between researchers at the university of Washington in Department of computer science and Engineering and active members of “Change” a multi-disciplinary group at UW exploring how technology can improve the lives of under-served populations around the world.

How ODK Work??

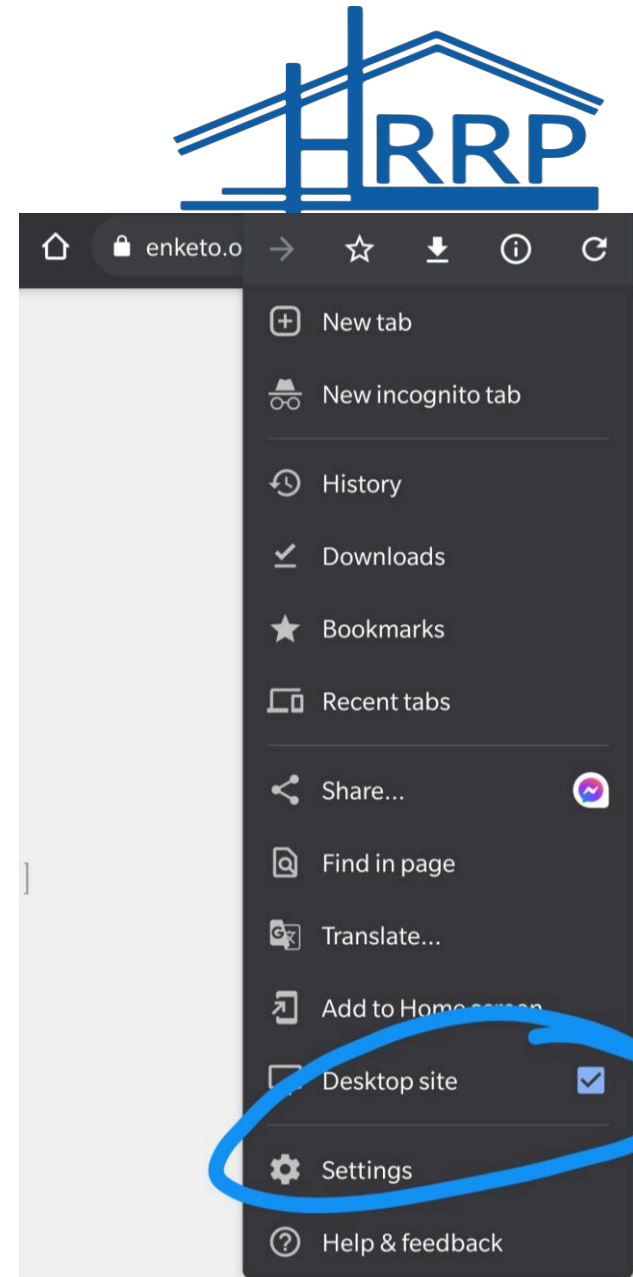

- Build a data collection form or survey
- Collect the data on a mobile device and send it to a server
- Aggregate the collected data on a server and extract it in useful formats

Things to do After you get the Link:

COLLECT YOUR DATA

- Click “Get Blank Form” button in your smart phone screen
- Choose questionnaire that you want to fill
- Back to Home screen and click “Fill Blank Form”
- Enter data into the form, swiping from right or left with your finger to get to the next questions. Enter data in all required fields.
- If you’re finished, checked the “mark form as finalized” and push the “ Mark form as finalized”.
- When you’ve done your data collection process. Push “send Finalized form” and all of your form will send to ODK aggregate server.

Enter your ODK Aggregate or google account
