NATIONAL UPDATES

Interaction and briefing on the status and progresses of earthquake response interventions

Honorable Minister of Home Affairs, Mr. Rabi Lamichhane was briefed on the current status and progress of temporary private shelter construction undertaken in Jajarkot, Bajhang, Bajura and other earthquake affected districts, during a meeting held at MoHA on 28th March. Briefing of reconstruction of public buildings was also shared in the meeting. NDRRMA key officials including Chief Executive Mr. Anil Pokharel and the Joint secretaries Mr. Bharat Mani Pandey and Mr. Rameshwar Marhatta informed about the interventions being done by the Authority in DRRM, the latest status of the various procedures drafted by the Authority, the upcoming plans, the challenges encountered during the implementation phase and the progress from the earthquake affected districts. Minister Lamichhane affirmed his belief in the need for enhanced effectiveness of Authority's roles and conveyed satisfaction with its current role. Secretary of MoHA Mr. Ek Narayan Aryal expressed that the local and state governments should be brought together in various stages of disaster management including emergency response.

Prior to the ministerial-level briefing, the officials of NDRRMA were involved in undertaking progresses of temporary shelter construction in Jajarkot and Rukum West districts. Both the Chief District Officers along with the key local administrative officials were present through the virtual medium to share the progress updates from the respective government bodies. Several pertinent topics were discussed that involved entering the beneficiaries' details into the Bipad Portal for 2nd tranche release, reducing the duplications in beneficiaries names from the same family, coordination with development organizations, human resources mobilization etc. The Joint Secretary, Bharatmani Pandey assured to coordinate for solving the issues in data entry in the Bipad Portal and urged the local and district governments to carry forward the temporary shelter construction as per the Guideline. UNDP Nepal Launches Insurance and Risk Financing Initiative

In response to the pressing need of building resilience in the face of looming disasters, the UNDP launched the Insurance and Risk Finance Initiative on 19th March. It is part of UNDP's global initiative, the Insurance and Risk Finance Facility (IRFF), which is being implemented in over thirty countries. This initiative seeks to prioritize financial resilience by tapping into the benefits of insurance and risk financing mechanisms. During the event, the Country Diagnostic Report was unveiled jointly by Dr. Ram Prasad Ghimire, Revenue Secretary of the Ministry of Finance (MoF), Mr. Anil Pokhrel, Chief Executive of the NDRRMA, and UNDP's Resident Representative, Ms. Ayshanie Medagangoda-Labé.

The report also showcases the Government of Nepal's commitment to foster the insurance industry's ability to provide accessible and affordable insurance products, as evidenced by recent legal updates such as the Insurance Act 2079, which contains several microinsurance provisions. The Initiative will work closely with government partners such as the MoF, Nepal Insurance Authority and NDRRMA to improve the legal and regulatory environment for insurance to be better incorporated in risk management priorities and actions. It will also work with the insurance industry to identify the financial protection needs of vulnerable groups such as women, farmers and businesses and facilitate the offer of customer-centric insurance products. UNDP will work more broadly with other development actors also pushing for financial resilience to further advocate and make the case for insurance as a key ingredient in managing shocks and fast-tracking recovery. Full news: [Launching of Insurance and Risk Financing Initiative](#)

National -level tabletop simulation exercise for improving emergency preparedness and response coordination

A one-day National Tabletop Simulation Exercise (TTX) based on a major earthquake scenario was conducted on 5th March in Kathmandu. NDRRMA and the MoHA organized the program, while the NSET provided technical assistance with support from USAID Tayar Project. The exercise aimed to enhance the capacity of different stakeholders in coordination and information management and develop a common understanding and more clarity on roles and reporting lines. More than 200 participants representing humanitarian clusters, private sectors, security forces, and

different levels of government (federal, provincial and local) actively participated in the exercise. The exercise practiced all issues that possibly need to be addressed in the real case, including, assessment, coordination, Search and Rescue, Medical emergencies, camp/shelter for IDPs, coordination and mobilization of security forces, cluster system and international aid etc. through sequentially dispatched injects. To make the exercise realistic and practical in identifying gaps in existing DRRM documents and mechanisms, different groups were arranged as planned in the latest version of National Disaster Response Framework (NDRF). Full news: [Event on Tabletop exercise](#)

Cross-national disaster management collaboration through learning visit

Representatives from Vietnam Disaster and Dyke Management Authority (VDDMA), CRS Vietnam, NDRRMA and NHSRP joined forces for an exposure learning visit in Banke district. The Vietnamese representatives engaged in interaction with the Chief District Officer of DAO Banke, explored the District Emergency Operations Center (DEOC), and toured the flood resilient demo-community house in Bairiya village, Rapti Sonari RM -1, an initiative by CRS Homes and Communities. Additionally, the team observed advanced early warning smart siren systems, DEOC Banke and Local Emergency Operation Center (LEOC) of Rapti Sonari Rural Municipality fostering valuable cross-sharing and learning opportunities. The representatives from Vietnam also had fruitful cross sharing and exchange sessions with officials from NDRRMA at national level including meeting the organizations active in DRRM programs. Cross sharing over the

coordination mechanisms during disaster emergency response, national building code measures for strong & safer construction along with robust data and information management systems was discussed with the Vietnamese representatives. Through this visit, both nations' disaster management bodies collaborated to discuss ongoing DRRM efforts, exchange best practices, and share valuable insights. The Vietnamese team visited Nepal from 3rd to 9th March 2024. CRS Nepal and NHSRP coordinated the inter-country sharing and learning visit. For more information: rijan.gajurel@hrrpnepal.org

3-days training on integration of GEDSI in DRRM conducted in Lumbini province

A three-days and consultation workshop on “Integrating Gender Equality, Disability, Social inclusion (GEDSI) in Disaster Risk Reduction and Management (DRRM)” was organized in Bhairahawa, Lumbini province from 20th to 22nd March with an objective to sensitize the provincial and local levels (pilot municipalities) about the NDRRMA's GEDSI strategic action plan and to initiate its localization process at the provincial and local levels. This workshop marks the first initiative by NDRRMA for GEDSI at the provincial and local levels, facilitating the localization process of the GEDSI Strategic Action Plan. The program was jointly organized by NHSRP with the UNICEF SUPER Project. The Disaster Risk Reduction (DRR) Strategic Action Plan of Lumbini Province Government focuses on GEDSI as priority action number 5 out of 4 actions under priority area number 2 of Inclusive Disaster Management Promotion.

The training was attended by 45 participants representing several stakeholders, agencies, and development organizations. The participants became familiar with the localization process of GEDSI Strategic Plan of Action at provincial and local level. Participants were also well-equipped about the NDRRMA's working modality and interventions of NDRRMA. Two persons from each local level comprised local representatives and DRR focal person or the GEDSI focal person as participant. The local representative assured commitments to carry out inclusive, and gender equality oriented DRRM interventions. For more information: prakash.bishwakarma@hrrpnepal.org. [Report of Training & Consultation Workshop Agenda of 3-days GEDSI consultation training & workshop](#)

RMIS redevelopment and system upgradation to address multi-hazard disaster

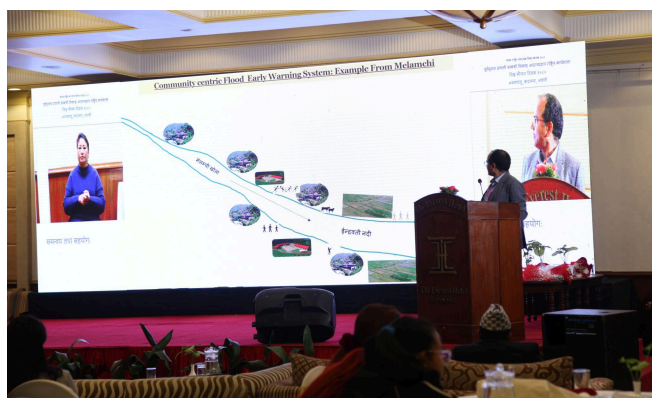

Consultation meeting with NDRRMA team on the improvement and redevelopment of the Reconstruction Management Information System (RMIS) was held on 15th March. The current RMIS serves as the only available information system for government tranche disbursement management for Private House Reconstruction and Resettlement. The meeting was organized to share the information on the progression of the Multi-hazard disaster Reconstruction Management Information System (mRMIS) and collect feedback in order to make adjustments to the Expression of Interests (EOI) and Terms of References (ToR) of redevelopment works.

The redesigned RMIS aims to address these shortcomings by incorporating multifaceted features such as grievance integration, temporary shelter support, geo-hazard assessment module, and robust data processing mechanisms. Additionally, a reconciliation module will track beneficiaries' progress and ensure proper utilization of government grants. The goal of updating the current RMIS with the necessary technical and critical updates is pivotal to disburse tranche for reconstructing resilient and environment friendly shelters for the affected communities. The meeting decided to conduct a comprehensive technical review of the current system by NDRRMA and then go ahead with the redevelopment process with technical support from NHSRP and CRS Nepal. Further to this, the upcoming technical support in the system redevelopment aims to unlock the government funds for shelter reconstruction of the disaster affected households and households at risk. Full news: [Meeting on system redevelopment of current RMIS](#). For more information: sachin.malego@hrrpnepal.org

National-Level Learning Sharing Workshop on Early Warning System

On the occasion of National Water and Weather Week 2024, a National Level Learning Sharing Workshop on Early Warning System was organized on 21st March, under the leadership of Department of Hydrology and Meteorology/Ministry of Energy, Water Resources and Irrigation; supported by USAID Tayar project and facilitated by Institute of Himalayan Risk Reduction (IHRR). Mr. Shakti Bahadur Basnet, Minister of Energy, Water Resources and Irrigation inaugurated the workshop. Minister Basnet underlined the need for citizens' increased access to early warning systems for safeguarding against the potential damages from disasters like landslides and floods. In addition to this, Minister Basnet urged the forum to find a substantive way out to mitigate and address the issue. Over 200 enthusiastic individuals participated in-person and discussed four pillars of the Early Warning System - i) Understanding risk,

ii) Technical monitoring & warning service, iii) Risk communication & dissemination and iv) Community response capabilities & community practice. The workshop served as a platform to gather invaluable insights from a diverse range of stakeholders, focusing on the four pillars of Early Warning System and ended with a lot of fruitful learnings and the way forward for institutionalizing inclusive Early Warning Systems. Full news: [Spotlighting early warning systems for increased community sensitization](#)

National Dialogue on Climate Change hosted by Municipal Association of Nepal

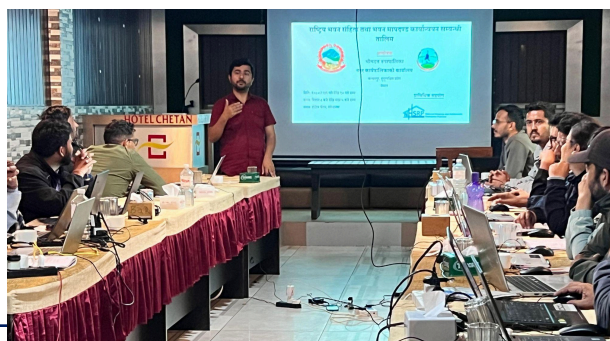

At a national dialogue on climate change organized on the occasion of the 31st establishment day of the Municipal Association of Nepal (MuAN) on 12th March, experts and panelists emphasized policy and budgetary arrangement in a way that local governments can make climate change adaptation programmes. Similarly, the stakeholders' experts stressed the need for the three tiers of governments to work with effective coordination to mitigate climate change induced risks as well as highlighted the need for legal reforms coupled with wider public awareness and implementation of the country's strategic action plan of climate change. Participants stressed for continuation of dialogues like this which are seen as instrumental in shaping our efforts to be more responsive to the current news of local communities, governments and involved organizations. With a diverse audience of more than 250 experts and representatives from federal, provincial, and local governments, ministries, think tanks, national and international organizations, academic institutions and private sector, the dialogue fostered rich exchanges and actionable strategies for climate change mitigation and adaptation in Nepal. For this event, DCA Nepal and Action Nepal supported the program as co-organisers alongside MuAN. Full news: [Experts highlighted to broaden the collaborations](#)

PARTNERS' UPDATES

Technical training for technical personnels concerning earthquake resistance constructions

A technical training for implementation of National Building Code and Building Bylaws was organized by Bheemdatt Municipality in Kanchanpur from 19th - 23rd March. The training was tailored for engineers, sub-engineers and assistant sub-engineers hailing from Bheemdatt and Bedkot Municipalities, alongside with design engineers from local Consulting Firms. The

training was technically facilitated by the NHSRP team with training curriculum support from NSET. This initiative, facilitated by NHSRP and supported by NSET, aimed to enhance the capacity of technical personnel in ensuring compliance with building regulations. The curriculum focused on utilizing building design software, understanding Building Bylaws, and verifying the design and construction of buildings. The primary goal of the training was to bolster the implementation of the revised Nepal National Building Code (NBC) 105 and NBC 205, particularly concerning earthquake-resistant Reinforced Concrete Framed Buildings, within the targeted municipalities. Notably, a total of 25 technical personnel successfully completed the certification program, marking a significant step towards safer and more resilient construction practices in the region. For more information: rabin.chaulagain@hrrpnepal.org

Support from Nepal Red Cross Society in digitization of earthquake beneficiaries document

Volunteers mobilized by Nepal Red Cross Society (NRCS) are supporting the digitization of the temporary shelter enrollment document in the NDRRMA's Bipad Portal in close coordination with NDRRMA, district, municipalities and NHSRP. Total 29 Volunteers mobilized by NRCS have supported the municipalities of Jajarkot, Salyan and Rukum West Districts affected by the Jajarkot earthquake to digitize the details of the beneficiaries of the temporary housing construction enrollment documents in the NDRRMA Bipad Portal.

Till the end of March more than 33,000 HHs Data has been digitized in the system. By end of March 2024 (by 15th Chaitra 2080), the progress of grant distribution and construction of temporary housing- Beneficiaries identified - 84,659; Number of enrollment completed - 73,785; Completed temporary construction - 68,641 and Total tranche disbursed in the district - 3 arba 16 crores. **Source: NDRRMA**

Temporary shelters constructed under Jajarkot Earthquake Response Project

The joint monitoring, social audit, and handover of temporary shelters constructed in Nalgad and Bheri Municipalities (Jajarkot) and Aathbiskot Municipality (Rukum West) were successfully completed in March last week. There was presence of key stakeholders from the district level and by respective Mayors and Ward Chairperson. These shelters were constructed as part of the Jajarkot Earthquake Response Project (JERP), supported financially and technically by CRS Nepal and implemented by Caritas Nepal. During the monitoring visit on 30th March, Chief District Officer of Jajarkot, Mr. Rishiraj Acharya commended the environmentally friendly and exemplary housing units developed under JERP, which extensively utilized local resources. The construction of these temporary shelters adheres to the guidelines set forth by NDRRMA, ensuring safe, dignified, and locally appropriate solutions. This innovative design has a 2-room setup with a kitchen and veranda, inspired by

the lessons learned from CRS Nepal's Emergency Preparedness and Response Project (EPRP) in Banke, that utilized a lime stabilized soil for mud-plastering, this shelter offers thermal insulation and is resistant to water and fire damages. CRS is extending support to an additional 600 families by December 2024, in collaboration with Social Welfare Council, NDRRMA, and local governments in Jajarkot & Rukum West. Full news: [Temporary shelters handover in Jajarkot in Rukum West](#). For more information: arun.sharma@crs.org

Mason training in Karnali province planned for earthquake-resistant buildings and structures

A tripartite agreement/memorandum of understanding (MoU) was signed between Karnali Province Training Academy, National Society of Earthquake Technology Nepal (NSET) and local levels on 6th March regarding broader aims of preparing skilled workers (masons) for reconstruction in Jajarkot earthquake-affected areas. The Karnali province government is planning to impart training to rebuild environment-friendly physical infrastructure, reduce the disaster-caused damage adhering to the necessary policies and methods and prepare human resources with knowledge, skills and technology in the community. The training is planned to conduct for the people's representatives, employees and carpenters for the construction of earthquake-resistant buildings and structures in five local levels including Chhedagad Municipality & Barekot RM (Jajarkot), Chaurjahari Municipality (Rukum West), Triveni and Darma RMs (Salyan). Full news: [Capacity building of local masons in Karnali](#) [Skilled masons to produce](#)

Learning and Sharing Workshop on Jajarkot Earthquake Response

Organized by Alliance2015 members, WHH Nepal - Welthungerhilfe, People in Need Nepal, and Helvetas Nepal, representatives from NDRRMA, MoFAGA, MoWS, ECHO, German Embassy Kathmandu, Mercy Corps, and IOE convened to share the Jajarkot earthquake response challenges and way forward on 29th March in Kathmandu. The workshop highlighted the importance of joint effort and preparedness to address emergency needs and echoed the need to transition to the recovery phase. Panel sessions encircled around the temporary shelter construction and housing recovery matters in areas affected by the Jajarkot earthquake. Panelists and participants contributed to important dialogues and shared insights on disaster response.

Action Planning Workshop for Tomorrow's Rapti Valley (Deukhuri) Capital City

An "Action Planning Workshop for Tomorrow's Rapti Valley (Deukhuri) Capital City" was organized in Rapti Valley (Deukhuri), Lamahi/Dang on 22nd March. The primary objective of this one-day workshop was to disseminate key research findings, discuss the processes and efforts aimed at shaping the future of Rapti City, led by Tomorrow's Cities teams under the auspices of the Provincial Infrastructure Development Authority (PIDA), Lumbini province, Rapti RM and NSET under Tomorrow's Cities Research project. The workshop aimed to foster consensus among various stakeholders on the path forward. The Tomorrow's Cities Research project conducted an extensive study by assessing community experiences and attitudes on how to make the capital city safe from disasters in the future. The teams comprising PIDA, Rapti RM, Gadhwara RM, and Shitaganga Municipality collaborated to study various aspects of disasters such as earthquakes, floods, landslides, and fires in Tomorrow's Rapti City. The study has recommended considering and mitigating the disaster risks while developing the city for the future.

Prior to the action planning workshop, several activities were conducted under Tomorrow's Rapti City initiatives including art competition on tomorrow's Rapti City and media interaction. The main objective of the Art Competition program held on 20th March was to promote awareness among the students regarding how to make a resilient Rapti City that could incorporate the aspirations of the local people. The participants depicted the idea of what the current capital city should be like in the canvases, basically revolving around the concept of a green city based on river civilization. They also stressed the needs of the next generation in the city over the next hundred years. A total of 37 students from 9 secondary schools from Rapti RM and Gadhwara RM participated in the competition. The participants were students from Grades 9 to 12.

Similarly, an interaction program with national & local media representatives and journalists on "Tomorrow's Rapti Valley (Deukhuri Valley) Capital City" was organized on 21st March for media advocacy and information sharing. Participating journalists raised various queries and issues regarding the implementation of the Rapti Master Plan. Full news: [Programs conducted under Tomorrow's Rapti City](#) For more information: vibekmanandhar@nset.org.np

Visit to observe application of Nature based Solution (NbS) in Nepal Local Road Network

A two-days exposure visit to observe the application of nature-based solutions along the corridors of Dharan-Dhankuta road was conducted from 4th -5th March, followed by a multi-stakeholder event on 6th March, which was organized by the Department of Local Infrastructure (DoLI) and co-organized by Scott Wilson Nepal (SWN) with support of European Union (EU) under the Pratibaddha-II project. Focus of the exposure visit was to assist the officials of the local government and Bagmati Province in observing and learning about the best practices of bioengineering, enabling them to apply these practices for slope stabilization and effective landslide mitigation in the municipalities of Bagmati province. Following the exposure visit, a multi-stakeholder event took place in Kathmandu, exploring the theme 'Review of applications of Nature-based Solutions (NbS) in local road networks in Nepal for enhanced disaster and climate resilience' to promote quality, safety, and resilience through the adoption of best practices in road construction and landslide mitigation works'. Full news: [Observation of nature-based solutions in road networks](#)

Virtual discussions on draft Climate Change Bill

DPNet organized a virtual discussion program on 14th March to solicit feedback on the draft Climate Change Act introduced by the Nepal Law Commission. The virtual discussion saw the participation of 71 stakeholders, including civil society organizations and climate change experts. The program was organized mainly to collect crucial feedback on the draft Climate Change Bill. The draft Climate Change bill has been formulated in response to the Supreme Court's directive to the government for the introduction of a Climate Change Act. The draft act proposes a comprehensive framework for climate change governance in Nepal, including the innovative concept of a Climate Budget for targeted climate action, the setting and trading of carbon targets, and the establishment of a Climate Change Fund to support sustainable development. It emphasizes the need for a holistic approach that incorporates social, gender, and environmental justice to protect the rights and livelihoods of vulnerable communities. Full news: [Discussion on draft Climate Change Bill](#)

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM SUDURPASCHIM

Joint field visits to monitor temporary shelters was conducted by the NHSRP Sudurpaschim team in Jayaprithivi, Thalara, Chhabispathivera Municipalities (Bajhang), as well as Khaptad Chhededaha Rural Municipality, Triveni, Badhimalika, and Budinanda Municipalities (Bajura). Technical personnel from the local authorities accompanied the team during these visits. The Sudurpaschim team visited Bajura & Bajhang districts from 27th - 31st March.

Coordination meetings conducted with key officials of the visited Municipalities and with key senior officials of DAO Bajhang mainly to take the update of temporary shelter construction, status of tranche release and also on status of beneficiaries of monsoon/fire-induced disasters, longer-term reconstruction, resettlement and on conducting geo-hazard assessment in hazard prone areas.

Technical orientation were provided to the IT and DRR personnels of the visited municipalities of Bajhang & Bajura, on NDRRMA Bipad Portal procedures, monsoon/fire induced reconstruction guideline, temporary shelter guideline, and processes of uploading the documents for release of the 2nd tranche of temporary shelter construction. Similar kind of orientation was laid to frontliner personnel of Bhajani Municipality (Kailali district) and LEOC members on 13th March, mainly incorporating the NDRRMA monsoon/fire affected disaster housing reconstruction procedures, RMIS tool and Bipad Portal.

UPDATES FROM KARNALI

Technical training rolled out in Rukum West on "Earthquake-affected Temporary Shelter Construction and the Housing Reconstruction" in a timeline stretched from 4th-7th March 2024. A focused 1.5 days training was attended by the majority of technical personnels

(engineers/sub-engineers, Bipad focal person and IT officers) of all municipalities. The training aimed to equip these technical personnels on Temporary Shelter Construction Guideline, damage grade assessment and other relevant technical measures of housing construction & reconstruction. The training was organized by DAO Rukum West, and jointly supported by CRS Nepal and Caritas Nepal, while technical support was facilitated by NHSRP, NSET and People in Need. Full news: [Technical training news coverage](#). [Training Report](#) For more information: rabin.chaulagain@hrrpnepal.org

Capacity enhancement on utilizing the Bipad Portal was conducted in Barekot RM on 18th March, and at Salyan district on 28th March for entering beneficiary details for the 2nd tranche release of temporary shelter construction. The session included a live demonstration on entering beneficiaries' details into the Bipad Portal. Similarly, during a one-day workshop held on resilient earthquake housing construction organized by the Provincial Government of Karnali in Jajarkot, Rukum West, and Salyan districts from 13th - 15th March, updates on the current status of NDRRMA's temporary shelter reconstruction, grant disbursement process, and damage grade assessment, NDRRMA's Reconstruction Guideline and procedures was provided. Full news: [Salyan DDMC meeting held](#).

Extending collaboration and coordination was ensured by facilitating the DDMC meeting of Salyan on 28th March by the NHSRP Karnali team where insights on the temporary shelter status & beneficiaries document entry in the NDRRMA's Bipad portal and about the Reconstruction Guideline was provided to the participants. The Salyan DDMC meeting was highly productive with participants including DDMC members, district stakeholders and development organizations.

Similarly, NHSRP Jajarkot Response Team along with the Jajarkot DDMC facilitated the focused meeting with development organizations active in Jajarkot response initiatives, whereby fostering coordination and collaborations among stakeholders, outlining upcoming plans in housing recovery, NDRRMA's Bipad portal data entry for 2nd tranche release support to local governments, reducing the duplications, streamlining data entry and others. The meeting served as a platform for fruitful discussions, knowledge exchange, and further strategic planning aimed at advancing the development agenda in Jajarkot district. Both the teams in Karnali ensured smooth coordination & networking with district, local and partner agencies for expediting temporary shelter construction processes. Full news coverage: [DDMC Jajarkot meeting held](#)

Contact: rijan.gajurel@hrrpnepal.org (national coordination), ujjwal.adhikari@hrrpnepal.org and pravesh.gautam@hrrpnepal.org (for Karnali coordination).

UPDATES FROM LUMBINI

Municipality housing assessment is underway through the CRS Nepal/NHSRP Homes & Communities initiatives, in several municipal locations (Wards) of Banke, Bardiya, Dang and Pyuthan districts from 26th March -8th April 2024. The assessment aims to generate baseline information on strength, need and analyze capacity gaps of the municipal government that will guide their housing needs and understand their budgetary requirements for housing. Targeted Focused Group Discussions (FGDs) are underway with the households members & communities of Janata Awas, Surakshit Awas along with government's disaster affected reconstruction housings (from NDRRMA). Key Informants Interviews (KIIs) with officials of municipal governments are also in the schedule of the assessment study. For more information: bibek1.shrestha@crs.org

UPDATES FROM GANDAKI

Coordination and sharing meeting was facilitated by the NHSRP Gandaki Province team recently with key officials from the District Administration Office Gorkha, Tanahu and Vyas Municipality. The primary focus of these meetings was to ensure the smooth release of pending reconstruction tranches within the district, shedding light on housing reconstruction issues from Palikas of Gorkha district. Moreover, efforts were directed towards addressing any discrepancies between the Reconstruction MIS data and the actual data. The meeting also shared the key highlights of a joint geohazard assessment conducted along the Seti River in Sukla Gandaki Municipality -4 Tanahun district that assessed 24 private residences mainly affected by the block failure.

Orientation on housing reconstruction procedures

to key officials and frontline staff of Rupa Rural Municipality on the NDRRMA RMIS and Reconstruction Guidelines was also extended by the NHSRP team. Furthermore, technical support was extended to the DRR focal person on the technical inspection process for the second tranche of confined masonry houses in Madi Rural Municipality -4, as well as thorough insights into the procedures for signing partnership agreements for new disaster affected beneficiaries was also provided.

UPDATES FROM BAGMATI

Technical sharing on building code implementation and technical inspection of NDRRMA's Reconstruction Guideline was facilitated by the NHSRP Bagmati team during an orientation in Sindhupalchowk district on 19th March. Organized by DAO Sindhupalchowk, the program was led by the Ministry of Internal Affairs and Law Bagmati province & attended by 41 participants, majority of them were engineers and sub-engineers from all local levels. The orientation fostered a unified collaborative approach to address the inspection of monsoon-induced disaster risks in private housing reconstruction and resettlement of Sindhupalchowk.

UPDATES FROM MADHESH

Bolstering the capacities on bringing system effectiveness on NDRRMA's Reconstruction Guideline was provided to frontliner technical personnel and to the officials of Local Disaster Management Committee (LDMC) of Brahmapuri RM from 20th to 21st March. Similar capacity building insights was provided to frontline municipal officials of Hariwon Municipality on 29th February.

Through the capacity building efforts, the NHSRP Madhesh team provided technical assistance to conduct the orientation that encompassed a comprehensive overview of procedures, verification of beneficiary data in the RMIS tool, and more. Additionally, four Surveyor IDs were generated as part of the orientation to conduct on-site surveys of households affected by disasters. The enhancement of IT and technical personnel capacities has proven beneficial for Brahmapuri RM, ensuring the uploading of all relevant disaster incident data into the Bipad Portal both presently and in the future.

In Hariwon Municipality, the team also supported technical staff to conduct surveys of 2 fire-affected houses Ward-2. The survey was conducted under the supervision of the municipal officials, ensuring transparency and efficiency in the process.

UPDATES FROM KOSHI

Cross sharing over the DRRM updates and plans

was done during the Bipad focal person meeting organized by MoIAL Koshi. During two such meetings, the need of planning preparedness for fire and monsoon disasters along with the development of contingency plans and linking them to anticipatory actions were discussed. Similarly, the participating stakeholders including the government agencies and the development organizations presented their current updates in DRRM, resources available and upcoming plans.

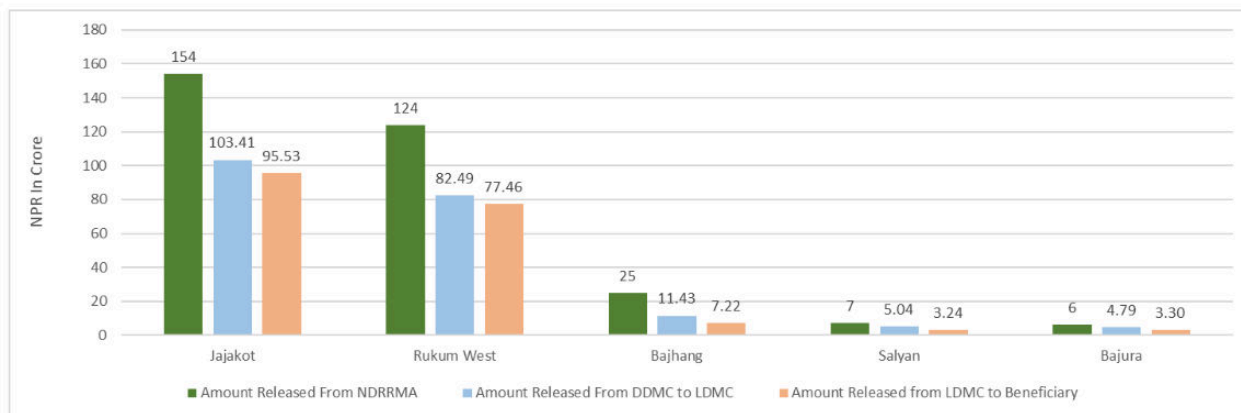

The NHSRP Koshi team facilitated the technical session on the NDRRMA reconstruction grant distribution process during the interaction program at DAO Taplejung. The Koshi team also shared key highlights of the Taplejung recovery program.
